I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
The propose service change will affect the Pittsburgh community in an extremely negative way. People rely on these routes and the silver line trolley to get where they are going whether that be for business or pleasure. Cutting these routes will cause riders to not have a means to get where they need to go or not have a safe way to get there. For event days not having service after 11pm will cause an increase in DUI because the city stopped providing service to those that normally would have used it instead of driving themselves. People will not be able to get to work and have to change jobs. People will not be able to get to certain places of business and the city economy will see a negative influence when people can no longer get there to support the businesses. No more silver line will greatly affect the South hills commuters and force them to going to already over packed park n rides. To take down this line will only jam up the rest of the trolley lines and make it so there's not enough parking spots at the park n rides, which is already an issue that will get worst. This impacts everyone, individuals, businesses, employers, and the city itself because we all are connected and without mass transportation we won't be able to connect.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
It is expected to have fare increase from time to time. This is a small increase that the individual rider can absorb. Also, if increasing fares meant keeping bus routes and the silver line trolley that makes it worth it.

My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to access medical care locations
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
The proposed funding reductions would impact not only bus routes but also the region's public health by increasing traffic congestion and thereby reducing air quality. The reductions may also terminate the current transition to all-electric busses. They make no sense whatsoever.

Other comments (bus and rail service reductions):
I oppose that the flyers are being eliminated. I take the P1N/A on Mon, Tues and Wed from Harmar to downtown Pittsburgh and it takes 3N/A min. since the bus uses the bus way. If this bus is eliminated I would need to take another bus that goes from Hamar through Blawnox, Fox Chapel, Aspinwall, Sharspburg and down 28. This would take me at least 1 hour or more to get to Pittsburgh provided there are not accidents. 28 is a busy road with a number of accidents daily which is one of the reasons I do not drive to Pittsburgh. If the flyers are cut more people will be driving to work which will make 28 a nightmare. If flyer needs to be cut maybe have the flyer run 3 times in the AM and 3 times in the PM instead of 5 times in the morning and evening. I really hope the flyers will not be cut. So many of my colleague's use the public transportation to and from work and feel the same way I do.

Other comments (bus and rail service reductions):
I strongly oppose the proposed service reductions in Pittsburgh. At this point in time we should be investing in public transportation to increase efficiency and encourage greater rider usage, rather than cutting routes and increasing fares. A large number of the Pittsburgh community relies on bus and rail service to get to work, grocery stores, school, doctor's offices, and other essential locations. Cutting funding for these systems will increase the socioeconomic gap Pittsburgh already experiences firsthand and make it more difficult for community members who may not have a car. There is no grocery store downtown To leave people without their main source of transportation that is already unreliable and inconsistent is unacceptable.
I STRONGLY oppose this change and urge the state to protect public transportation funding.

Oppose or support specific reductions.
OPPOSE: 28X AIRPORT FLYER (Major Reduction), 31 BRIDGEVILLE (Major Reduction), 36 BANKSVILLE (Elim.), 38 GREEN TREE (Elim.), 41 BOWER HILL (Elim.), 54 NORTH SIDE-OAKLAND-SOUTH SIDE (Major Reduction), 65 SQUIRREL HILL (Elim.), 82 LINCOLN (Major Reduction), G31 BRIDGEVILLE FLYER (Elim.), RD RED LINE LIGHT RAIL (Major Reduction),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I rely on the Red Line and 38 and 82 buses to get between my home in the South Hills and my job in East Liberty. Eliminating or greatly reducing these options would unnecessarily burden my ability to reliably get to work and would likely increase my transportation expenses, as, without the 38 and 82 routes in particular, I would have to rely on Lyft; I cannot afford a daily expense of $3N/A each way, 5 days a week, when public transit is already available and accessible. Please DO NOT eliminate or lessen the availability of these bus routes or the Red Line.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
See below.
Other comments (bus and rail fare increases):
If the increase will help maintain existing routes, I am ok with the fare increase. I do think the increase will be prohibitive for lower-income communities, which is something I do oppose.

The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
If these proposed changes go into affect my family will face enormous hardships. My husband, who is the sole provider for our family due my severe medical issues, wouldn't be able to get home from work. He often works until 11:3N/A pm, if you cut all service at 11:N/AN/A pm, he will either have to take a Lyft or Uber (which costs between $25 and $3N/A unless they're busy, then it's closer to $45) or he will have to ask his boss to accommodate his new schedule and I honestly don't think that's a possibility. He might loose his job because of these proposed cuts. Also the proposed cuts would make it nearly impossible for me to get to at least 2 of my medical specialists that I have to see monthly. If these cuts happen I will either have to walk 35 minutes (and with my medical issues this will take years off of my life) or take an Uber or Lyft (which is between $27 to $35 ONE WAY unless they're busy then it's closer to $3N/A to $4N/A ONE WAY) You will literally destroy families and cause an even deeper financial crisis for lower income families. Please don't do this.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
Other comments (bus and rail service reductions):
I use the blue and then silver lines to access my job. It's a 35 minute commute as I have a 1N/A-15 minute walk to my station, get on blue line and transfer at first connection to silver. The closure or great reduction in silver line access will either mean my work arrival is later or incredibly early as I work in a trade skill job
The line reduction/cessation would also increase my commute time getting home, including an hour wait for a potential ride.
While the current route format by PRT is less reliable, a full shutdown of the silver line will strand many workers all the way down it's line who have no access or limited access to motor vehicles and will increase traffic going into the city for those commuters.
A removal of these lines and buses will make traffic more dreadful and messy every morning and even
This is a public service, not a money making endeavor. The cost will exacerbate an already tense economic situation. Many seem to think public services should be money making endeavors. We do not treat our fire and police and libraries as for profit, so why do we treat cheap affordable public transit like it needs to be a McDonald's
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
Fares for public transit tend to come out less than insurance and gas on the day-to-day for a vehicle, not to mention parking, but the point of public transit is to offer a cheap and affordable way for the average person to be able to get to work or public events and retail spaces, reduce the clutter on the road and make the city more accessible for everyone

Increasing rate will reduce the number of passengers

$50,000 to $74,999
Including yourself, how many people live in your household? 3-4
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
My costs of commuting will increase dramatically if I have to drive
Other comments (bus and rail service reductions):
Pittsburgh's halfway decent transit is one of the main reasons I chose to move back here, and is a major contributor to our good quality of life despite being less robust than I would like. Frequent transit in Greenfield is one of the main reasons I chose to buy a house here. If faster routes are eliminated my travel time to work Downtown on the bus will double.
Without good transit I will have to drive more, which will add to expenses, not to mention I will be in a real financial pickle if/when my car breaks down. I have paid off my car and can't afford a new car payment, not to mention more repairs, gas, and maintenance.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would take less public transit trips
I would have to switch to another mode of travel

Service change impacts (bus and rail):
My travel time would greatly increase
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to school, daycare, or childcare
I would have to move to another home/dwelling where transit is available
Other comments (bus and rail service reductions):
By cutting the Holiday Park flyer, Penn Hills Flyer, Monroeville flyer you are effectively cutting out public transportation to the east side of Pittsburgh. In addition, you are choosing to do this the same year they are planning to close the parkway east for at least 3 weeks to service the bridge?? When more people than ever would need public transportation. The traffic and parking downtown are already horrific to begin with and now you are going to add even more cars to that? There has to be a way to save money without taking away routes from an entire area of Pittsburgh. The east of Pittsburgh deserves some sort of public transportation!
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
I'm happy to pay an increase fair as it's still cheaper than parking, but you are cutting all the routes that are even remotely close to me.

I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
My daughter has up until recently been able to take the 67 to and from Oakland for work. The 6:N/AN/A am bus was moved to 6:3N/A which made her late for work and now I have had to drive to Oakland every morning to get her to work on time which is costly and her getting home from work is not easy either..sometimes buses show up,sometimes not and there are usually 3 options 67,68, 69. I do not understand how these problems keep happening..this has been going on for years..somebody at PRT needs to get this organization together. These problems are not getting resolved..its just service cuts and fair increases..no real solutions. The public ALWAYS has to pay the price and we will lose service in the suburbs and no one really cares. How are people to get to and from work? This is just not right. There has to be better options than service cuts.

Service change impacts (bus and rail):
My travel time would greatly increase
I would have to switch to another mode of travel
PRT needs to make concessions that don't affect riders and taxpayers
Other comments (bus and rail service reductions):
So take away ALL service from eastern suburbs? And with the bridge being replaced on the parkway east, how's that going to work for commuters (including me) who will have to drive in to town & pay for parking? I own a home (pay taxes) drive a car (pay gas taxes) and pay a daily fare, I'm in the office downtown 5 days/week. PRT is making it harder for commuters and employers. This situation is on PRT and your budget/spending. PRT already knows the consequences. Just raise the fare, PRT can grovel for more money. No bus is EVER clean, drivers are rude, I dread the quarterly driver change, it's always an issue, bus is on the tracker then disappears and it's not listed as out of service on the "X", why isn't that listed on PRTs website, why do commuters have to check another site? I do call, check your logs and my ConnectCard. What PRT is proposing is detrimental to the city. What is PRT giving up? Making any concessions? I've called Customer Service looking for my bus, the tracker (use 2 different ones & the QR code on the bus stop sign) only for the bus to fall off the tracker, it is coming or not? AND drivers who speed, happens all too often, I have submitted complaint forms on that, nothing changes, I text my loved ones to let them know if we're in an accident the driver was speeding, I check the speed using the Waze app. Going 6N/A-65 mph in a 4N/A mph posted limit. I've been riding the bus regularly for 26 years.

I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Eliminating service routes such as the one I use in Troy hill is not a good solution. A lot of the eliminated routes are going through low income areas where people rely on this transportation for essential things such as work and healthcare. I am a healthcare provider. I have multiple patients that rely on public transit to arrive at doctors appointments. A lot of these appointments are to manage complex, chronic conditions that if appointments were missed people could legitimately die or even lose a limb.
Not to mention - my community specifically is making great strides towards being safer and more family oriented again. If you take away people's ability to earn a decent wage, you are asking for chaos. Don't make living harder.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
This would significantly impact my ability to get to work and home. And that doesn't even count the extra time needed. People don't have the ability, not the time, to spend extra time getting to their locations and trying to get home. The buses are already overly crowded and this will make things significantly worse.
Please indicate if you oppose or support the proposed fare increases:

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
The proposed route cut will devastate the city neighborhoods and every person that lives in them!! I travel many routes around the city to get to work, social outings, doctor appointments, and to get groceries, and have noticed more and more people roding the bus. If the buses are crowded most times, how is PRT out of money? Oh, fare boxes don't work many times so there is a loss of revenue. How about tap to pay like SEPTA uses? The money wasted on the other proposed route redesign has been a HUGE waste as well! We don't need a redesign when many people are moving/have moved to neighborhoods that are on routes where rents are cheaper so that they can get to work/school. Not everyone can afford to live in shadyside/Lawrenceville. Many of the new buildings are also designed for people without cars as well, so how do these people get around to shop, especially when most neighborhoods don't have a grocery store?
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
Although I don't agree with all of the fare increases, if it needs to be done to save all transit routes, then ok. If some service (mainline like 61c, 71, 51, 28x) ran 24hrs, you would see an increase in riders hip. Once an hour is sufficient

OPPOSE: 4 TROY HILL (Elim.), 38 GREEN TREE (Elim.), 39 BROOKLINE (Elim.), RD RED LINE LIGHT RAIL (Major Reduction),
Service change impacts (bus and rail):
I would no longer be able to get to my current job, training location, or will have to find a new job
Other comments (bus and rail service reductions):
Many of these routes could simply be reduced instead of eliminated. I have seen PRT/Port Authority go through this again and again over the decades, threatening to eliminate all routes and then restoring them with a reduced service. I am a 9-5 county employee along the Troy Hill route and service could be changed in a way that cuts out much nonessential midday driving and makes the entry into the downtown more reasonable, as there are no routes getting an 8AM or 9AM worker downtown on time. I am frequently 45-5N/A minutes early to my job as it is, so as to avoid being late. These lines could be changed and reduced at the same time. I have also seen this in my old neighborhood, with the 38 bus and Red Line. Smarter arrivals and departures by themselves can reduce costs, so I believe the reduction in service should be commensurate with the reduction in employment on the executive level of PRT's decision making class.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would take less public transit trips
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
You cannot chase revenue in this way. Deceasing traffic into the downtown areas will further depress commerce and jobs in the downtown, leading to further deficits in the future. The goal should be to get the working class back downtown and increasing fares at this time works against that purpose. This should be simple to understand.

The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
The proposed transit service cuts and fare increases are not only misguided—they risk triggering long-term economic harm for Pittsburgh as a whole.
In the mid-19th century, cities like Pittsburgh were designed to be walkable. People lived close to their workplaces, shops, and schools. But starting in the late 19th and accelerating through the 2N/Ath century, that model gave way to zoning laws, highway expansion, and suburban sprawl. Walkability declined, car ownership became a necessity, and distance grew between where people lived and where they worked. In that same period, mass transit emerged as a vital public good—offering access and opportunity to those left out by the new geography of American life.
In this context, public transit is not a luxury. It is the backbone of a functional city. And weakening it now—by cutting service, slashing routes, gutting late-night access, and raising fares—is not just bad for riders. It's bad for Pittsburgh.
These changes will make it harder for workers to reach jobs, for students to reach schools, and for businesses to attract talent. They will increase traffic, reduce economic activity, and send a damaging signal about the city's trajectory. Transit decline doesn't stay confined to transit—it ripples outward into real estate, employment, regional competitiveness, and social cohesion.
And all of this raises a fair question: what were the priorities behind the recent rebranding from Port Authority to Pittsburgh Regional Transit?
The public has not been given a transparent breakdown of how much was spent on the new name, logos, signage, design consultants, and marketing. How many millions were diverted from core services to pay for a visual makeover? Who got those contracts—and how were they selected? Were these costs justified at a time when the agency is now claiming that basic service levels are unaffordable?
Without answers, the optics are troubling: public money spent on aesthetics, while essential service is cut from those who depend on it most.
We need leadership that sees public transit not as a cost to be minimized, but as an engine of regional prosperity. If Pittsburgh is to thrive, it needs a robust, accessible, and future-ready transit system. Eroding it risks putting the entire city on a downward spiral.
Transit is not charity. It is infrastructure. And gutting it now is not fiscal responsibility—it's economic sabotage.
Respectfully,
Alexander Gray
Commissioner, City of Pittsburgh LGBTQIA Commission

Other comments (ACCESS service reductions):
To the PRT Board and Public Officials:

The proposed cuts to paratransit are a moral and practical disaster. Scaling back ACCESS to the minimum legally required by the ADA is not only cruel — it is shortsighted and destructive.

For many people, ACCESS isn't a convenience — it's a lifeline. And let's be clear: we live in a society that was structurally designed not to accommodate people without cars. A century of development, reinforced by zoning laws and sprawl, has ensured that essential destinations — hospitals, grocery stores, jobs — are not walkable for most people. Especially for those with disabilities or limited mobility, paratransit is the only option.

Under this plan, riders will face trip denials, arbitrary time changes, and restrictions that turn ordinary life into a logistical nightmare. This isn't belt-tightening. This is erasure. This is pushing already-marginalized people further into isolation, poverty, and desperation.

And while PRT claims there's no funding, there was money to rebrand the entire agency — from PAT to PRT — with new signage, vehicle wraps, logos, and public materials. We demand to know: How much did that cost? Who was paid? And why was that considered a priority over ensuring equitable access to transit for disabled riders?

Paratransit is not optional. It's not extra. It's a vital service, and cutting it will hurt real people in deep and lasting ways. If we value accessibility, dignity, and inclusion, this proposal must be rejected.

Sincerely,
Alexander Gray
Commissioner, City of Pittsburgh LGBTQIA Commission

Other comments (bus and rail service reductions):
Hi, I have been living in Pittsburgh for over 9 years now and I have been leveraging public transportation for a while. Previously when I lived in Green Tree, used to take the 38 route buses to work in downtown, now I live near Library T station and hence use the silver line to go to work in downtown. Eliminating public transportation will cause a huge hassle for me now.

Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares, ACCESS paratransit door-to-door service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
Oppose or support specific reductions.
OPPOSE: 53L HOMESTEAD PARK LIMITED (Elim.), 56 LINCOLN PLACE (Major Reduction),
Service change impacts (bus and rail):
My travel time would greatly increase
I would no longer be able to access medical care locations
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
The elimination of the 53L would significantly cause a hardship for so many riders that require bus transportation. Traveling to areas especially downtown Pittsburgh would be difficult. The 53L is a highly populated bus route. In addition, major cuts to the 56C would also increase travel time. It's like you're trying to cut-off so many neighborhoods from existence. This is a very chaotic plan. Also, decreasing ACCESS transportation would cause a decrease for so many elderly and disabled riders.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):

Please indicate if you oppose or support the proposed changes to ACCESS service:
OPPOSE the proposed service changes
Service change impacts (ACCESS)
The changes may not impact me but will impact my community and/or loved ones
Other comments (ACCESS service reductions):
This would cause a hardship and great anxiety for so many fragile elderly and disabled people. From what I hear, this service already isn't the greatest in trying to obtain rides. It needs a complete overhaul as it exists today. More cuts to it would severely impact a vulnerable population.
Please indicate if you oppose or support the proposed ACCESS fare increases:

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
I would lose all access to groceries, to work,to medical. Finding a new place to move is expensive enough and hard to find close to bus routes only to find the route is getting cut. This puts a lot of people in dire situations who can not afford tto move or to buy a car. This will be taking away some peoples only way to survive. This is not the answer to punish riders who depend on the transit for basic needs by cutting bus lines and schedules and increasing fares.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for transit or other essential expenses

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I believe very strongly in the importance of public transit, and I have lived successfully in Pittsburgh for 3 years without a car. Transit fees are on average lower than parking fees, and I prefer to avoid traffic due to fear of driving and parking. I am lucky to be relatively less affected by these cuts for things like my job, but they would greatly limit my ability to go anywhere else in the city other than areas directly along the 61 lines, as fewer buses means more difficult transfers. A car would be necessary for me to maintain my social life, and I hate to think of how this would affect traffic and parking on roads that are already packed. I also have close friends who cannot afford a car, and this would make it even harder for them to come visit me. I know my complaints are probably not at the top of PRT's priority list, but I have really loved what the buses and the T have provided me here in Pittsburgh, and seeing the proposed cuts was devastating to me.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would take less public transit trips
Other comments (bus and rail fare increases):
I think charging more for significantly worse service will drive a lot of people away from public transit. As I said above, the fact that 3 hours in Squirrel Hill, say, is cheaper by transit than by car makes transit a more attractive option. For me, the cuts are a much bigger problem, but the combination of cuts and increases really stings.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
The reduction in bus services and the increase in fares will have a significant negative impact on our community. Many residents, particularly those without access to personal transportation, rely on public transit for essential daily activities such as work, school, and healthcare appointments. The cuts will limit mobility, making it harder for people to access jobs and services, while fare hikes will disproportionately affect low-income individuals and families, exacerbating existing inequalities. These changes will create further barriers to opportunity and contribute to social and economic exclusion within our community.
The cuts in bus services and fare increases exacerbate racial inequality by disproportionately affecting communities of color, who are more likely to rely on public transportation for daily activities. These changes create additional barriers to access for essential services, employment, and education, making it harder for marginalized groups to thrive. Limited transportation options and higher costs deepen the social and economic divide, contributing to greater racial inequities and hindering efforts toward equity and inclusion.
The cuts in bus services and increases in fares create significant hardship for employers by limiting their employees' access to reliable transportation. With fewer bus routes and higher costs, workers may struggle to reach their jobs on time or afford daily commutes, leading to higher absenteeism and decreased productivity. This can particularly affect businesses that rely on low-wage workers or operate in areas with limited transportation options, ultimately impacting their ability to maintain a stable workforce and meet operational needs.
Our transportation system in Pittsburgh is already inadequate, with limited routes, unreliable schedules, and overcrowded buses. These challenges make it difficult for many residents to get to work, school, or essential services. Further cuts to bus services and fare increases will only make a bad situation worse, adding more barriers for those who rely on public transit. We urge decision-makers to consider the impact on our community and avoid making changes that will further disadvantage those who need the most support. Please don’t make our transportation system worse—invest in solutions that will improve access and mobility for all Pittsburghers.

How often do you typically ride Pittsburgh Regional Transit (PRT) and/or ACCESS?
2-3 days per week
Where do you travel using Pittsburgh Regional Transit (PRT) and/or ACCESS??
Work or job training
How do you identify yourself? Select all that apply.
White
What is your age?
25-34
How would you describe your gender identity? Select all that apply.
Man
Which of the following best describes your 2024 household income?
Prefer not to respond
Including yourself, how many people live in your household? 1-2
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Reductions to PRT service would devastate the livability and productivity of Pittsburgh and Allegheny County. Reducing public transit to this degree would choke our region with thousands of more cars clogging our roadways, worsen air quality and pollution, and crater the mobility of thousands of residents in our region. Thousands of residents rely on PRT to get to work and travel around our region to support businesses. We cannot make Pittsburgh and Allegheny county even more car dependent than it already is. This cannot happen.

I would no longer be able to access medical care locations
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I support wholeheartedly public transportation due to its main characteristics, e.g., it eases traffic, it is affordable, it is time effective, and it's the environmentally responsible choice. None of these characteristics apply to the current state of PRT. I have used the T lines on a regular weekday (and occasional weekend) basis since 2N/AN/A2 to get me to work to downtown from the south hills. Until 2N/A19, your service was very good and reliable. After 2N/A19, the change was noticeable. There has not been a month without major interruptions in service due to construction, may it be rail way construction (or maintenance) and/or stops and platforms constructions, closer of stops, closer of parking lots, detours through Allentown, closer of the downtown service area, etc. The recent detour through Allentown due to the closer of the transit tunnel under Mt. Washington adds a minimum of 2N/A min to the commute time. It is unacceptable to use public transportation for an hour and twenty-thirty minutes to get people from the south hills to downtown, which trip in the past usually took 3N/A min, tops. It is unacceptable to not have developed a T line that goes directly to Oakland and it will considerably ease traffic congestion. The one that serves the stadiums is useful for the sports fans, but it is otherwise useless and it was a waste of resources. Although I support tax payers money to be invested in the betterment and improvement of the public transportation system, PRT must prove that they can adequately invest the received recourses and do better than mismanaging the COVID funds that have generously received from state and federal governments. Accountability is part of it. Instead of asking the public to pitch in and bail you out, hire competent individuals who will responsibly manage the finances of the organization. There are too many elderly people, single parents, students (both high-schoolers and college), and professionals that count on reliable public transportation that takes them to point A to point B without hiccups. If bigger cities can do it (which infrastructure is much more complex), Pittsburgh can do it too. If there is a goodwill. Also, cutting jobs and going after the unions is not a solution. On the contrary, it highlights the ineptitude of the organization starting with the top.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I strongly oppose the proposed service reductions in Pittsburgh. A common complaint about Pittsburgh in comparison to some of our neighboring big cities (DC, Philadelphia, Buffalo) is the relative lack of public transportation, and reducing funding as well as route options would only add to this. When I was a student at the University of Pittsburgh, our student IDs served as a bus pass for all public transportation within the city. Being without a personal vehicle, this amenity allowed me to access parts of town that I otherwise would not have been able to visit on foot. Not only was this beneficial to me personally, but it was also beneficial to the communities I was then able to patronize. Now, as my situation has changed, I'm looking to purchase a house within the City of Pittsburgh, and sure enough, houses with access to the T or other main busways generally have an increased property value. Efficient and affordable public transportation allows students of all ages and workers of all professions to not only maintain access to necessary schools, medical offices, local and state government agency buildings, etc. but also allows multitudes of people to enjoy our city from every angle. Pittsburgh would benefit from becoming more accessible overall, and cutting funding and stunting our public transportation system's growth would be nothing but a step backwards. I STRONGLY oppose this change and urge the state to protect public transportation funding.

I would have to take ACCESS instead of fixed route service
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
It is despicable and a disgrace that Pennsylvania lawmakers can find an estimated $64N/A million dollars in taxpayer money in calendar year 2N/A24 to send to a bloodthirsty, genocidal nation such as Israel, that is actively starving and dropping bombs on children, yet they cannot find the money to invest in the people they were elected to serve. Something is coming, because for far too long both Republicans and Democrats have shipped our hard-earned money oversees to fund war, rather than reinvesting that money in our communities. Everyone involved in the changes to PRT should be fired/immediately resign, because they have demonstrated gross incompetence/negligence. If anything, we should be expanding bus routes/hours of operation, lowering fees, and making our city/county a better place for all. But all our leaders want is war and bloodshed. It is truly a fucking disgrace.

N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
With nearly all of the routes that serve the suburbs being removed, the many commuters who work downtown will be forced to drive, causing more congestion, pollution, and expense. These changes negatively affect me in a financial way, as I would have to pay for gas and parking and wear and tear on my vehicle.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
I have no problem with raising the rates if routes are not eliminated. Public transportation shouldn't only be for people who live in the city limits. Many many people in the suburbs commute to the city for work and eliminating their public transportation is a huge problem.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Removing the Brookline bus line and restricting service via light rail into the South Hills would be extremely impactful to this community and me personally. Driving and paying to park downtown multiple days a week is not fiscally feasible.

I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I live in pittsburgh because we have some public transportation that I rely on. I have been hopeful the service would continue to get better. Cutting service will lead to the service being less useful and having even less ridership.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
Fares are already pretty high but I would prefer raising fares over cutting service. Maybe we should impose a tax on people driving into the city. That money could fund transit for people who don't have the option to drive everywhere.
Please indicate if you oppose or support the proposed changes to ACCESS service:
OPPOSE the proposed service changes
Service change impacts (ACCESS)
The changes may not impact me but will impact my community and/or loved ones
Other comments (ACCESS service reductions):
I don't use this service, but I think it is importance for other members of our community.
Please indicate if you oppose or support the proposed ACCESS fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (ACCESS):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (ACCESS fare increases):
If this is the only way to avoid service cuts, it is better to have higher fares than a useless service. I think ideally we would properly budget and fund this with tax dollars.

I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
Many people in our city and communities rely on public transit, including myself. I cannot drive and do not always have people available to drive me to places. I already have to have transport to get to the closest bus stop — with these cuts, they would have to drive me further and my window of time to use bus services would be narrower. While I understand the need to increase fares to cover funding deficits if that would allow the Port Authority buses to continue, it does not make sense to increase fares for a lesser service if routes were to be cut.

How often do you typically ride Pittsburgh Regional Transit (PRT) and/or ACCESS?
1 day per week
Where do you travel using Pittsburgh Regional Transit (PRT) and/or ACCESS??
Shopping
Entertainment
Social activities
How do you identify yourself? Select all that apply.
White
What is your age?
55-64
How would you describe your gender identity? Select all that apply.
Woman
Which of the following best describes your 2024 household income?
$50,000 to $74,999
Including yourself, how many people live in your household? 1-2
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to access medical care locations
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):

Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
Other comments (bus and rail service reductions):
I ride the 19L Emsworth and by eliminating that bus it will impact so many people because we will be forced to ride the 16B Brighton which is already crowded with people and school students plus that will run once an hour. How can you even think about eliminating the 19L which is always crowded inbound and outbound??? This is very concerning to all of us who ride it. If you care at all about us riders you will take this into consideration. Without us riders the bus drivers would not even have a job and without the bus drivers we wouldn't be able to get to work for our jobs. It's a team effort. Please consider keeping the 19L in service.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
Oppose or support specific reductions.
OPPOSE: 29 ROBINSON (Elim.), 39 BROOKLINE (Elim.), 40 MOUNT WASHINGTON (Elim.), SV SILVER LINE LIGHT RAIL (Elim.), RD RED LINE LIGHT RAIL (Major Reduction),
Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
Other comments (bus and rail service reductions):
Eliminating the entire Silver Line seems like an overreaction. I understand you need to cut things but you can cut light rail in other ways. Why do you even do the double trains? I never see them full except during major events. Also, you could be more strict on requiring the fare. I see many people get on/off the train and not pay and the drivers just don't do anything about it. Maybe put gates at some stations that would require you to scan your card to get through?
People do still ride the train after/around midnight. Cutting the service time at 11 p.m. would be very lame. Cutting service times would be bad as that would greatly impact night-shift commuters. But other cuts are understandable. Just look at Beechview. There's like 5 stations in the span of one mile. You could probably cut half of them.
But realistically, the entire system needs overhauled. The train isn't used that much because there isn't enough housing in the South Hills to justify a commuter rail. Most people just have a house and drive. There are very few major apartment complexes in walking distance to the stations.
While I have your attention, at some point PRT should really remove the cloth coverings from the seats on the trains. They are disgusting. Just make them plastic seats.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would take less public transit trips
Other comments (bus and rail fare increases):
That increase would make Pittsburgh have among the highest fares in the country for public transport. In Pittsburgh?? The NYC subway would be cheaper and people always complain that it's too high. If you make it $3, then a lot more people will switch to driving instead, giving you the opposite result than what you actually need.

I'll give you my example. I sometimes take the Red Line to work on the North Shore instead of driving. It takes about twice as long compared to driving, but I take the train anyway because it's cheaper than the parking costs and I can just look at my phone or whatever during the commute, which is more fun instead of having to drive. But if it was $6 round trip, then it would cost the same as parking. I would absolutely take the train less than I already do if the fare increased to $6 round trip.

My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Major changes or elimination then increase fees too? Is a professional evaluating these routes, times, how riders are paying, etc? For me, it's more about how frequent the busses will run but money will be a factor for a lot. The service is already unreliable so this may push more ppl to move or find alternate transportation.
Please indicate if you oppose or support the proposed fare increases:

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares, ACCESS paratransit door-to-door service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to school, daycare, or childcare
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to take ACCESS instead of fixed route service
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Making these drastic cuts will impact many people who rely on this service. Access has been a Godsend for people with disabilities and our elderly. It would cause these people to never leave their houses and miss much needed medical care. Many people do not have family to help. If they are in wheelchairs they must have vans equipped for that. I don't think the people making these decisions look or take into consideration what these decisions mean. People could starve no being able to get to grocery stores or DIE without meds!
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would have to make decisions about whether to pay for transit or other essential expenses
I would take less public transit trips

OPPOSE: 13 BELLEVUE (Major Reduction), 14 OHIO VALLEY (Elim.), 16 BRIGHTON (Major Reduction), 19L EMSWORTH LIMITED (Elim.),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Instead of eliminating 14 why not run it on a permanent Sunday schedule
That way it will still be available for those who use it to get to work. If the 19 l is eliminated why not extend the 16 to cover emsworth during the morning and evening commute. And as far as stopping all services at 11:N/AN/A p.m. push that back to 12:3N/A a.m. so those who work 3 to 11 or 4:N/AN/A to midnight we'll have a way to get home.

OPPOSE: O1 ROSS FLYER (Elim.), O12 MCKNIGHT FLYER (Elim.),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
PLEASE do you eliminate the N/A1 Ross Flyer and the N/A12 McKnight Flyer. These buses are really need for all North Hills residents to get to and from work and to and from other places. This would be a great hardship on the North Hills as we have no other public transportation and would leave a lot of people stranded and not able to get to work. Again, PLEASE reconsider this and DO NOT eliminate the N/A1 Ross Flyer and the N/A12 McKnight Flyer. Thank you.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
This fare increase will affect a lot of people. A lot of people who use public transportation don't have the extra money for a fare increase, they barely make ends meet as it is. The far is already high and to add an additional fee would be a burden.

Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
The changes would force me to walk more than three miles to get home.
Other comments (bus and rail service reductions):
The routes currently serving my community in Penn Hills don't come very often now. If service is cut more, I'm not sure I'd even be able to take the bus to work. Right now, I have to take a 77 to work and a P16 home (and then walk 4N/A minutes to get back to my house) because of the widely spaced runs and the shifting routes (the 77 doesn't come near my house for half of the routes). If I have to rely only on the revised 77, it will likely take me much longer to get home from my workplace in Homewood. And this is going to impact SO MANY folks who do not have a car. There has to be another way to fund transit so that the people furthest form opportunity don't suffer. What about looking at lottery monies or working with the universities and businesses to fund people. I can even deal with a bigger fare if it means that everyone still retains transportation.

I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Removing Silver Line Service will cause the loss of commuter parking, this will also cause revenue loss. Raising fares, especially cash price fares at the Duquesne Incline will ensure the system remains serviceable.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
This is a managed fare increase. The $2.50 cash fare for the Duquesne Incline should be raised since this is a major tourist attraction on the weekend. It is surprising that tourists pay less in a cash fare than commuters with a connectcard.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Many of the working class depend on the Flyers to go to work and return home. Eliminating the Flyers across the region will cause a much longer travel time for many people that work in Pittsburgh. Also so of the changes consist of transferring to another bus which will all cause delays in getting to work.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
Bus fare is still much cheaper than parking in Pittsburgh.

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Bus routes 14 & 29 are crucial routes to get to Robinson Walmart and Ambridge, and for those who go out and drink, no busses after 11 increase the risks of DUI's across Pittsburgh which puts many more people at risk.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
I would take less public transit trips
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
It would be harder for me and others to afford busses, I might have to ask people for rides, the price increase from $2.50 to $2.75 is already a big hike,if the prices are changing that much that quick, I could see in years busses being priced out compared to other cities. I love PRT but for all the bigger Pittsburgh is, the prices hikes for decreased and increasingly unreliable service is not okay.

Oppose or support specific reductions.
OPPOSE: 36 BANKSVILLE (Elim.), 39 BROOKLINE (Elim.), 40 MOUNT WASHINGTON (Elim.), 41 BOWER HILL (Elim.), 43 BAILEY (Elim.),
Service change impacts (bus and rail):
PRT eliminating every bus that could be used for people living in the south hills area is very unfair. This isn't being done in any other neighborhood unless it is a flyer bus. This is eliminating the option to take any bus in the entire South hills area
Other comments (bus and rail service reductions):
The elimination of bus service in the entire South hills neighborhoods leaves no option of public transportation. I think this is unfair to not have any bus in the south hills of any kind

I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
Other comments (bus and rail service reductions):
(In general) Eliminating all/most Flyer routes that quickly get workers into downtown seems extreme; as they already only operate at limited times.
(Personally) With no Express bus options AND limiting the 69 Trafford's route (no longer going downtown), travel times will be so much longer. Coordinating arrival times to Wilkinsburg stationto transfer onto the P1 (town) or P3 (Oakland, where all of my doctors are located) could add hours to my total travel time. As a handicapped rider, this will make my commutes miserable.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
The increase isn't large and is acceptable. It IS still frustrating that I'd pay more when my travel time is going to double because of longer waits/ transfers.

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Many of the routes that would be effected by this change in service are already low-income or economically isolated communities. We would be worsening pre-existing food deserts and effectively dividing our communities, rather than upholding the "9N/A to 1" vision.
Please indicate if you oppose or support the proposed fare increases:

Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to school, daycare, or childcare
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
I would have to take ACCESS instead of fixed route service
We depend on PRT to provide for our kids and family. Without the trolleys especially, we'd be forced into a situation of confronting poverty day in and day out as opposed to living week to week or month to month if we're lucky.
Other comments (bus and rail service reductions):
The Silver and Red Line especially have a HUGE IMPACT on the communities they serve for business and residents alike. Cutting either will have the opposite effect that you are trying to achieve. Residential bussing needs scaled back and to begin feeding into the Trolley system, like most other cities our size.
Please indicate if you oppose or support the proposed fare increases:

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I work in entertainment/night life, and the proposed changes would devastate my business. We would lose both employees and customers who could no longer access or leave downtown at night. These changes would completely isolate downtown from surrounding neighborhoods and reverse all the hard work of those in the cultural district who have strived to make downtown an entertainment/tourist destination.
Personally, as someone without a vehicle it would also limit my access to doctors and specialists.
I, like many people, would have to turn to private rude share companies, which would be lost revenue for the city and even more cars clogging the roads.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases

OPPOSE: 7 SPRING GARDEN (Elim.), 8 PERRYSVILLE (Major Reduction), 11 FINEVIEW (Major Reduction), 13 BELLEVUE (Major Reduction), 15 CHARLES (Major Reduction), 16 BRIGHTON (Major Reduction), 17 SHADELAND (Major Reduction), 54 NORTH SIDE-OAKLAND-SOUTH SIDE (Major Reduction), 64 LAWRENCEVILLE-WATERFRONT (Major Reduction), 77 PENN HILLS (Major Reduction), P16 PENN HILLS FLYER (Elim.), P68 BRADDOCK HILLS FLYER (Major Reduction), P71 SWISSVALE FLYER (Elim.),
Service change impacts (bus and rail):
My travel time would greatly increase
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Why are we not reducing service to areas with major congestion/cart traffic? Or routes that run along rail lines? Why does AHN employees, specifically, have to suffer? These routes are all by AHN hospitals. Very sus

I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I won't be able to depend on a guaranteed ride
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel or rely on a family member or friend
Other comments (ACCESS service reductions):
In 1990 my wife & I sold our house in West Deer township and moved to Shaler township for better bus service. In 2021 we sold our house in Shaler and moved into the city so I could have better bus service.
I am blind. For 35 years I've been regularly associating with other blind persons through various organizations including Western PA Blind outdoor Leisure Development. The in-person networking and personal interaction with other blind persons is important in maintaining my physical and mental health.

Currently, I can travel to or from locations throughout Allegheny County using ACCESS paratransit.
. Under the PRT proposal, the service will be scaled back to the minimum required by law. This means that trips where either the pick-up or drop-off location is beyond 3/4 mile of a PRT bus route & outside the routes time of operation would be denied.

The proposed reduction in service would have a negative impact on my quality of life.
The ability to go places throughout the county, at an affordable price, should be preserved.

I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Public transit is fundamental for a thriving city. Cutting services now would lead to a downward spiral, as fewer and fewer people will be able to reliably use PRT for their daily needs, therefore further defunding this service. The impact of a weak (or nonexistent) public transit system would be felt for decades to come, limiting our city's ability to become an accessible and thriving community.

Which of the following best describes your 2024 household income?
$125,000 to $149,999
Including yourself, how many people live in your household? 1-2
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
I would have to take ACCESS instead of fixed route service

Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
Oppose or support specific reductions.
OPPOSE: 28X AIRPORT FLYER (Major Reduction), 64 LAWRENCEVILLE-WATERFRONT (Major Reduction), P71 SWISSVALE FLYER (Elim.),
Service change impacts (bus and rail):
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I think cutting the range of service of the airport flyer will be difficult for a lot of students and staff at the universities. Currently, my college student takes the bus home most nights after 11 (and I suspect he is far from the only one), which will no longer be possible with this plan. My commute is relatively well protected for my current position, but I could never have gotten to my previous job with these cuts. My main concern is how these will affect other in the community, particularly those without licenses or who can't afford to drive/park.
How will these impact transportation for Pittsburgh Public School students? The P71 in the morning is full of CAPA middle schoolers.
Please indicate if you oppose or support the proposed fare increases:

The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Eliminating the silver line is a disservice to Pittsburgh as this is one of only three lines, prevents a number of stops and riders from being serviced. After all the service disruptions recently, it's incredibly irritating to know this may be cut altogether. The blue and red lines won't see an increase in riders because people will find another mode of travel to avoid the transfers and extra time.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
1) Public transportation serves the most vulnerable among us. Taking money from public transportation is one more way to disfranchise people who are already in need,, by virtue of age, ability, or financial situation. Do we want to be a society that unites all people or one that separates the halves from the half knots even further than it is already, abysmally, happening?
2) public transportation is good for the environment. I could drive everywhere, but because I live on a convenient bus line I am able to take the bus for most trips and leave my car in the garage for days on end. This reduces the fossil fuels that I burn.
3) A healthy and ideal society would have more, not west, public transportation.

How often do you typically ride Pittsburgh Regional Transit (PRT) and/or ACCESS?
4-5 days per week
Where do you travel using Pittsburgh Regional Transit (PRT) and/or ACCESS??
Home
Work or job training
How do you identify yourself? Select all that apply.
White
What is your age?
55-64
How would you describe your gender identity? Select all that apply.
Woman
Which of the following best describes your 2024 household income?
$150,000+
Including yourself, how many people live in your household? 1-2
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares, ACCESS paratransit door-to-door service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to school, daycare, or childcare
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Cutting transit would mean more cars on the road which would increase congestion, increase pollution, it would make the roads in the city more dangerous and it would leave the streets crowded with cars. This could be terribly disruptive to the economy of the city as drivers will be stuck in grid lock and will ultimately choose to move to the suburbs causing businesses to leave and property values to drop. Public transit service is vital to Pittsburgh and the surrounding communities, not just because it's there to help the people who rely on it but because it gets cars off the roads and allows us to have the vibrant communities that make Allegheny County a wonderful place to live.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would have to make decisions about whether to pay for transit or other essential expenses
I would take less public transit trips
I would have to switch to another mode of travel
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
I oppose fare increases because I believe that public transit should be free for all people, however, I recognize that this is not likely to happen. I do believe that the proposed fare changes are relatively modest and I would support them if it means that we will have fewer service cuts.
Please indicate if you oppose or support the proposed changes to ACCESS service:
OPPOSE the proposed service changes
Service change impacts (ACCESS)
The changes may not impact me but will impact my community and/or loved ones
Other comments (ACCESS service reductions):
I do not currently use ACCESS but it seems likely that one day I will or there will be people in my life who will. People with disabilities need to have the right to free and accessible transportation so that they can participate in public life and get to the places they need to go without having to rely on someone. Furthermore, reducing the service areas will present a huge challenge to disabled people who may not be able to afford to live in service areas or at the very least it could require them to move which would be a huge challenge for someone with a disability.
Please indicate if you oppose or support the proposed ACCESS fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (ACCESS):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (ACCESS fare increases):
people with disabilities do not have the money to afford additional fare increases. These fare increases will make it much harder for disabled people to access goods and services they need and it will cause and may cause people to lose access to necessary services.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares, ACCESS paratransit door-to-door service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Many people in the city rely on bus routes and cutting this would leave many residents without a way to get to work, healthcare, grocery stores, and other important parts of life. This is not the place to cut funding if you want ALL people in Pittsburgh to thrive.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
People who rely on public transit often do because they cannot afford other means of transit. Raising prices would harm these people. Additionally, raising the price could cause more people to opt to drive instead which would increase traffic on the roads and pollution in the air.
Please indicate if you oppose or support the proposed changes to ACCESS service:
OPPOSE the proposed service changes
Service change impacts (ACCESS)
The changes may not impact me but will impact my community and/or loved ones
Other comments (ACCESS service reductions):
The disabled community is already disadvantaged in so many ways. Causing more stress and difficulty will hurt these communities
Please indicate if you oppose or support the proposed ACCESS fare increases:
OPPOSE the proposed fare increases

Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I already live in an extremely transit-limited area where busses barely show up on time, and there is an hour between busses. Myself and others in my community are already on thin ice to make it to/from our daily obligations with the current transit options and cutting them more would only take away our primary mode of transport. My bus line also accomodations MANY individuals of senior age or with disabilities (walkers, wheelchairs, multiple blind patrons) and cutting down on their transport options is a direct attack on the overall accessibility of our city. Not to mention, outside of locals who have been depending upon this system for years, with the city of Pittsburgh expecting thousands of tourists for the NFL Draft in 2N/A26, when these cuts are proposed to take effect, frequency and variety of transport in our city will be crucial to accommodating these guests. If we want to continue to be a city people want to visit having a good public transportation system is VERY important. In order to keep Pittsburgh a place that is friendly and accommodating, it needs to be easy to access transport, for both our own Pittsburghers and for the people who spend their hard-earned money to visit Pittsburgh, we have to do everything in our power to keep PRT as it is! As a matter of fact, it is currently in need of improvements as it is, so cuts would only exacerbate the issue. NO CUTS! We need to do more as a city to accommodate our communities. Not less.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would take less public transit trips
PRT already primarily serves low-income communities, they cannot afford these increases!
Other comments (bus and rail fare increases):
The entire point of public transportation systems is to make travel accessible. If we increase prices a LARGE portion of PRT patrons, which includes Pittsburgh's largest low-income communities, which are the ones in most dire need of assistance with transportation, may lose their ability to consistently afford the services. Not only would it be a direct hit to Pittsburgh's locals, but if the primary customer base for PRT can no longer afford their fares the cuts will only hurt the institution more. Pittsburgh Public Schools gives some students access to PRT as their primary mode of transport to school, and Pittsburgh Public Schools is in no excess of funding, they may no longer be able to accommodate their students. Increasing fares would be a direct failure by PRT to support our schools, seniors, and low-income communities. Who again, need more help from their community! Not less!

I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
I remember the disaster when Steve Bland was the boss(may he rot in hell), when kids were leaving school and jamming on the bus, and we adults who were leaving work either had nowhere to sit or the bus simply passed us because it was already standing room only. With Pittsburgh Public Schools using PRT, I feel like I am riding a school bus again. That is not a good feeling for a 65 year old man with a bad back and bad knees.
Other comments (bus and rail service reductions):
I shudder to think how bad it will be if you cut the 26 and 29...forcing all of those people on the 27. Basically, I will never be able to comfortably ride a PRT bus again. For the record, mass transit, by definition, is for moving the masses. With these draconian cuts, moving the masses becomes impossible.

I am tired of paying full fare daily when bums ride for free! Stop allowing them freebies and charging taxpayers the difference! I am a single parent trying to get my kids to school and to work on time to support my family, i get no assistance and it makes me sick to see so many people get a free ride because they are pieces of crap! Not to mention PRT should have a back up so they dont get hacked and blow all the money to get back online! Pay attention people! protect your assets! Stop wasting taxpayer money! I am sick and tired of my tax dollars being abused!
Please indicate if you oppose or support the proposed fare increases:

Other comments (bus and rail service reductions):
Getting rid of the 38 prevents me from going downtown and accessing friends and jobs. The 38 is often filled with people going to work. Getting rid of it would force workers to get new jobs, move, or other big changes that would impact the downtown economy.

Other comments (bus and rail service reductions):
As a city we need a reliable transportation system to function. The ripple effects of inadequate transportation are incalculable. People often cannot participate in cultural events, get jobs, be involved in a community, because they can't drive. This in turn makes these services less attractive and the city on whole starts to sunset.
Please indicate if you oppose or support the proposed fare increases:

Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
I would rather pay more in taxes than have my city be one that is becoming less accessible to people that make the city an interesting place to live. Already I hear that people do not find this city affordable as an artist because its public transportation is below average. It's understandable that people might have no idea how this could impact people that wash dishes at restaurants downtown, people who care for children, and yes, artists, performers, people who put on cultural events that make this city a draw, but I know for the people I know and care about, they will be less likely to participate in all the events that make this city interesting in the first place.

Where do you travel using Pittsburgh Regional Transit (PRT) and/or ACCESS??
Work or job training
Entertainment
Social activities
How do you identify yourself? Select all that apply.
White
What is your age?
35-44
How would you describe your gender identity? Select all that apply.
Prefer not to respond
Which of the following best describes your 2024 household income?
$150,000+
Including yourself, how many people live in your household? 3-4
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to school, daycare, or childcare
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
This will decimate entire sections of the city who have huge populations that rely on public transit. This will render all attempts to rebuild downtown and keep the City population null and void.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would take less public transit trips
I would have to switch to another mode of travel
Other comments (bus and rail fare increases):
To pay $3 for a ride that doesn't get you where you need to go (and when) is laughable. I would pay three dollars if it meant maintaining current service levels.

Other comments (bus and rail fare increases):
If paying this Increased fare price means that PRT will not cut lines to the south hills such as the Y1,Y46,Y49 then it is worth it to me. But right now it seems like PRT is less focused on supporting the south hills' access to public transit while simultaneously not addressing the lack of parking in crucial areas such as Oakland or Downtown. Cutting public transit is a mistake that will congest our city more and increase costs associated with construction and wear and tear on our roads. It also will increase stress on fire, EMS, and police as accidents increase, and it will increase costs that go into fixing infrastructure, which also is subprime at the moment. These short term cost savings will result in long term and permanent detriment to our city.

The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
As a student at Chatham University, public transit is essential to my daily life. Growing up in a small town without a reliable transit system, I made a conscious decision to attend college in a metropolitan area where public transportation was available. Pittsburgh's transit system influenced my choice of university and my decision to stay here after graduation. It is a key factor in making the city accessible and attractive to students, workers, and new residents.
Like many in our community, I do not have the resources to own a car and depend on Pittsburgh Regional Transit to get to school, work, and engage with the city. Service cuts would severely impact people like me who rely on transit for mobility and economic opportunity.

The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
This will make people in my community, not be able to, get to jobs or medical care who can't afford the huge cost of a car. Movement is the life blood of any economy or lively hood. Cutting it off will not just physically divide us but it will make money not able to flow between us locally to help each other. It will tank both the economy and the health/lively hood of everyone in the area. The public transport should be getting more funding by the state so their is more encouragement to get around to local business. Not just for this area economy to thrive but the lively hoods of everyone here to be more connected locally. And if more people were able to use the public transport then the car traffic would be lower, that constantly adds to many car accidents on our major highways.

Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
I would lose flexibility in my modes of transport
Other comments (bus and rail service reductions):
I have loved ones who cannot drive and would not be able to get to work or medical appointments and would lose need to rely on begging for rides from family and friends for something as simple as wanting to visit others in the city. This is particularly true for my loved ones in the South Hills with the cutting of the 41.
While I drive, I appreciate being able to use the bus and light rail to get around Pittsburgh without having to find parking. Reducing service lines would mean I would be more reliant on my car.

25-34
How would you describe your gender identity? Select all that apply.
Non-binary
Which of the following best describes your 2024 household income?
$25,000 to $49,999
Including yourself, how many people live in your household? 1-2
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
Oppose or support specific reductions.
OPPOSE: SV SILVER LINE LIGHT RAIL (Elim.),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I am shocked that PRT would even consider cutting the Silver Line. Why not keep the Silver Line and cut the Blue Line? Those who need the South Hills Village stops would still have the Red Line to get them there. It doesn't make sense to have two trolleys going to South Hills Village and no trolleys traveling to Library.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
I am happy to pay more, as long as you DO NOT cut the Silver Line.

I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Within my neighborhood and other neighborhoods around Pittsburgh, a lot of people depend on public transit for daily activities like going to work/working, getting medical care, getting groceries, etc. If the proposed service changes were implemented, these people's lives could change drastically and be very detrimental. They wouldn't be able to provide for themselves and their loved ones, leading to an even worse situation than they are currently in. There should be at least one bus route, preferably more, that passes through each neighborhood that currently has bus service. Even if these routes were scheduled to come by once per hour, these neighborhoods would at least have service, especially in areas where people aren't able to afford cars for transportation. For myself, I rely on the bus routes Y47 and Y45 in my daily life. Without these routes, I'd have to increase my travel time greatly and/or drastically change my schedule/daily activities.
Please indicate if you oppose or support the proposed fare increases:

I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
The 41 bus, planned to be eliminated, is how many of my coworkers get to work. It is also the only bus that currently services St. Clair Hospital. Eliminating this bus will cut out access to Healthcare (not just the hospital but the doctor's offices within and the outpatient services) and will cause hardship for employees who rely on that transportation, in a season of already severe Healthcare worker shortages.
In addition, we are a household of two working parents who do not see our child enough already. Losing light rail lines will cost my husband precious time with our little girl in the morning and after work due to increased commute times.
Having the light rail and busses in operation so near many late-night venues (the stadiums, the theaters, the bars and restaurants downtown) is a great resource for people who want to safely get home after an event, especially when drinking. Losing that service will put hundreds more cars into circulation in already tight areas, causing multiple safety concerns. We will choose to forgo experiences we would have liked to have had, especially ones that put money back into our economy, if we do not have the option to get home safely after 11pm.
Part of the reason we chose this city to live, work, and raise our child in is the public transit system and how well it worked for us. Coming from a small town, taking public transit is preferable to trying to navigate while driving in the city, especially with a young child. Losing that will only be a detriment to our city.

Other comments (bus and rail service reductions):
Public transit is a valuable form of transportation. We use it frequently to go downtown and attend various events, and enjoy the eco friendly benefits of the bus lines. We have seen much of the city by traveling by bus and T. Its saved us from countless hours of traffic and parking prices we could not otherwise afford. With cuts to the bower hill bus line, we would lose connection to downtown. These cuts are unfortunate and sad. I pay taxes to get benefits like PRT. Period. Without it, what am I getting for my dollars?

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares, ACCESS paratransit door-to-door service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
This service change would impact many people negatively including some of my family members who rely on bus service for work daily. Pittsburgh's public transit system already lags behind most other US cities. This drastic reduction is the opposite of what the city needs. We should be expanding our public transit, not reducing it. Easily accessible transit will attract more visitors and residents to the city. In addition, it will have a disproportionate impact on those who are already disadvantaged in the city - people in low-income areas, those in poverty who cannot afford their own vehicle and rely on public transit to get to their jobs to support their families. Cutting this many routes may force people to look for new jobs or to relocate to have reliable and affordable transportation to their jobs to provide for their families. All this places more burden on those who are already be experiencing hardship. Pittsburgh has often been called one of the "most livable cities" - reduce public transport and you take this away. Finally, Pittsburgh prides itself on our environmental impact and how we have revitalized the city from the days of coal mining and steel mills, to have cleaner air now and safer waterways. Reducing public transportation will mean more vehicles on the road, more traffic, more air pollution and overall a step backwards from how far we have come in cleaning up the city.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
I understand the need to make up a budget deficit. I think that a slight fare increase is the best way to do this, rather than cutting transportation and routes altogether. Although it will impact people, I think that most people would rather budget a bit more money for fares, rather than be forced to look for a new job, relocate, or spend much more money on a vehicle, because they can no longer get where they need to go.
Please indicate if you oppose or support the proposed changes to ACCESS service:
OPPOSE the proposed service changes
Service change impacts (ACCESS)
None of these apply to me
Other comments (ACCESS service reductions):
I oppose these changes to ACCESS services. Older adults and people with disabilities should be able to obtain rides to where they need to go. With the overall PRT reductions, a huge amount of people will be taken out of the service areas. Pittsburgh prides itself on being a "livable city." Having this title should not mean it is only livable if you are a young, able-bodied person. We should be able to provide more than the bare minimum services to people with disabilities and older adults who would like to have independence and go to a job, entertainment, worship, or anywhere. Reducing ride shares will mean more vehicles on the road as well which increases air pollution, which comes back and affects this very vulnerable group of people the most. This group of people may rely on ACCESS to get to doctor's appointments and again, being older and/or disabled, are disproportionately affected when they are unable to get there, compared to a young, able-bodied person who misses an appointment.
Please indicate if you oppose or support the proposed ACCESS fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (ACCESS):
N/A
Other comments (ACCESS fare increases):
I understand the need to fill gaps in a budget. I think fare increases are more manageable to most people and they can be budgeted for if known ahead of time. It is more disruptive to have crucial services disappear.

Please indicate if you oppose or support the proposed reductions to bus and rail service.
Oppose or support specific reductions.
OPPOSE: 2 MOUNT ROYAL (Elim.), 13 BELLEVUE (Major Reduction), P10 ALLEGHENY VALLEY FLYER (Elim.), P13 MOUNT ROYAL FLYER (Elim.),
Service change impacts (bus and rail):
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
The bus stop near us at Mt Royal and Elfinwild Lane almost always has people waiting for it.i see people with computer bags, backpacks and groceries. People depend on this route. We depend on the route for my son's work at a fast food place that is having a hard time getting workers. Losing access to bussing means he cannot work.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
I think it is better to raise prices then lose service. An income driven bus pass for lower income would help those most impacted.

My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
I would have to take ACCESS instead of fixed route service
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
So many people rely on the bus, and there is little incentive to take it because it's inaccessible as it is. This is abysmal & saddening. Why are fares increasing if most of the routes are being cut anyways? Some neighborhoods, like mine that sits on top of a mountain with no grocery store, are going to be completely inaccessible and that's a shame for our community-especially some of our most vulnerable members
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
I wouldn't oppose fare increases if 1/3 of the routes weren't on the chopping block. But for our public transit to be expensive, cumbersome, and limited -it truly just doesn't make sense. Pick a lane-fares remain the same but routes are cut or keep all the routes and increase the fare. Doing both is extremely detrimental and again such a slap in the face

Other comments (bus and rail service reductions):
Public transit is a business run by state government. I dont want my tax dollars subsidizing the state governments transportation business. When a regular business doesn't make enough money to cover its operating costs it has to make the changes necessary to stay in business.

OPPOSE: 14 OHIO VALLEY (Elim.), 24 WEST PARK (Major Reduction), 28X AIRPORT FLYER (Major Reduction), 29 ROBINSON (Elim.), G3 MOON FLYER (Elim.),
Service change impacts (bus and rail):
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Eliminating Bus 14 to Ambridge would cause serious hardship. This is the only bus that I know of that reaches Beaver County. I ride this bus occasionally and know that many, many people depend on this bus not only to get into Pittsburgh or the businesses along Ohio River Blvd for work, but also for going to the North Shore entertainment and sports outlets. Eliminating this bus would cause people to have to use their vehicles and cause more traffic congestion. The 28X bus from Oakland to the airport with stops downtown and at Robinson Towne Center is also a critical line and would cause serious hardship to so many students in Oakland who travel to and from Pittsburgh by air. I, like many others, use the 28X to get into downtown for cultural events and social activities. Losing this service again would cause people to have to drive into Pittsburgh, causing more traffic and congestion. I cannot see the sense in eliminating or reducing these bus lines.

I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
The Silver Line is important for the community of Bethel Park. Even if trains only go every half an hour, it would be worth it to keep the line open. A lot of money has been invested in the rail line and if closed, it would be very expensive to reopen someday. It's better to keep it going at all costs.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
Changing it to $3.00 makes sense because it would be a nice even number with no change. You should just get rid of the money option and require a card or phone to pay. All you have to do is put QR codes at the stations with access to the app. The fare boxes are often broken, so anyone paying with cash gets to ride for free.

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I am shocked by the proposed changes in my area. The buses are already packed for my commute for work (7am-5pm) for the 19L, 13, 16. I also know a lot of kids take it too during these times. I just don't get it and am baffled we call this a bus system for Allegheny county and Pittsburgh. I would prefer a rate increase. Also, I noticed there are 8 routes or so running through Oakland even with these proposed changes. Again just baffled.... Outside of the buses I take, I feel bad for the others that also use these express buses for a work commute. This is going to several crush the efforts to revitalize downtown and get more people into town. How/why would someone move to PGH that would rely or need public transit? Have we tried a consulting firm (s) to analyze this and the head count/times of these routes?
Please indicate if you oppose or support the proposed fare increases:

The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I urge our government representatives to consider the widespread social and economic impact and downstream effects that this will have on commuters, patients, and students. Impeding the ability to get to work, medical care, or school; potentially resulting in more overcrowded buses that can present physical and public health dangers to riders and drivers; worsening the parking deficit in the city and surrounding neighborhoods potentiated by expansive construction and increased residential shifts.
How do these major cuts align with a city that is putting millions of dollar toward the NFL draft? Don't we want visitors to be able to experience and utilize reliable and cost-effective public transport?

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would no longer be able to get to my current job, training location, or will have to find a new job
Other comments (bus and rail service reductions):
Cutting all commuter buses from the north hills to downtown would prohibit me from getting to work. I don't understand why the O5, O12, and O1 are all being cut completely. At least keep the O1 since it has a centrally located park n ride. My family only has 1 car so I cannot drive that to work. I need access to a bus.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
I am willing to pay more if it means I can get access to a commuter bus from the north hills to downtown.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
Oppose or support specific reductions.
OPPOSE: Y1 LARGE FLYER (Elim.), Y46 ELIZABETH FLYER (Major Reduction), SV SILVER LINE LIGHT RAIL (Elim.), RD RED LINE LIGHT RAIL (Major Reduction),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
Other comments (bus and rail service reductions):
These changes will affect everything I rely on the bus for, which obviously includes work. Also getting me home at a decent hour to get my children dinner and to all the extracurricular activities, taking away my route or making me wait longer to get a bus and take me longer to get home due to extra stops and more crowded buses. This will disrupt my whole life and switch everything around. I don't have the necessities to help with anything after work/ school. I don't see how giving my part of town ONE bus is going to solve anything besides aggravation. On top of the bus cuts, the whole city of Pittsburgh and surrounding areas are doing construction and closing main roads, so that is also going to add time and aggravation to riders who are already fed up.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for transit or other essential expenses
Other comments (bus and rail fare increases):
Not only are you proposing taking my bus route away, that I rely on to get me to work to pay my bills, and get me home to my family, I now have to PAY MORE FOR LESS. Please tell me how that works. For someone who takes the bus EVERYDAY, for I don't have the privilege of working from home, this is uncalled for. People take the bus for its cheaper and now we are getting screwed over because someone couldn't do there job.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares, ACCESS paratransit door-to-door service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I am very concerned about cuts to transit, specifically in Polish Hill where I have friends & community. People in that neighborhood will no longer have access to a grocery store with the proposed cuts.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would take less public transit trips
I would have to switch to another mode of travel
Other comments (bus and rail fare increases):
Pittsburgh already has high fares compared to other places, and they're extremely high compared to the general cost of living and pay rates in this region.
Please indicate if you oppose or support the proposed changes to ACCESS service:
OPPOSE the proposed service changes
Service change impacts (ACCESS)
The changes may not impact me but will impact my community and/or loved ones
Other comments (ACCESS service reductions):
I work as a social worker for people with disabilities. It is essential to have Access services available for those who aren't able to take regular public transit or to drive.
Please indicate if you oppose or support the proposed ACCESS fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (ACCESS):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (ACCESS fare increases):
For people who are living on disability payments or otherwise limited income, the difference of $0.65 is very significant and could make some travel unaffordable. For instance, travel to grocery stores, job interviews, social occasions, etc. could become untenable.

I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I have been anticipating moving to Pittsburgh by October of 2N/A25. One of the biggest things that drew me in to moving to Pittsburgh was the lower cost of living and the ability to get around Pittsburgh without having to drive. Public transportation is very important to me, and seeing that there is the threat of service cuts is troubling to me. Even if this has no affect on what my route could potentially be, this will have an affect on thousands of others that rely on public transportation to get to their destinations. If it came down to choosing between service cuts or a fare hike, I'd rather go with the fare hike if it means we can save services from being cut. Save PRT, save the Silver Line, and save public transportation in Pittsburgh. I will be one of the many that will make our voices heard to the state government to continue funding public transportation in the state of Pennsylvania. Over a million people all across Pennsylvania rely on public transportation every day. We need to make our voices heard by those in state government.

Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Elimination to so many routes will have a domino effect to the continued routes. Even if a route isn't eliminated, those pedestrians whose route was eliminated now are forced to take other routes and will significantly increase the wait times for bus routes that will remain. Traveling throughout major bus routes during rush hour it's already typical for buses to be at capacity and can not pick up people waiting. Leaving Oakland on a Friday afternoon it's already typical to have to wait for 2-3 buses before one is empty enough to have space. I image this will only increase with so many route eliminations. Additionally, a similar issue will result with downtown parking. With so many flyers to outer city areas being eliminated these people will still need to get to work, and the parking simply doesn't exist for them to get to their jobs.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
The bus system is a large part of why I moved to Pittsburgh. If the bus system decreased in its availability and routes, I will have to consider moving out of Pittsburgh to a different city with better public transportation services.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
Can the cost for this be a tax levy instead of a rate increase? Residents of Pittsburgh would support the cost across all communities instead of forcing the most at risk and low income populations who are already struggling with the economy to foot the bill. Which they will not be able to do.

You need to change the spoke system into a grid system
Other comments (bus and rail service reductions):
It's long overdue for the spokes on a wheel system to turn into a normal grid system like all the other cities in the country.
I support all of the route cuts and changes for the routes that have little to no people that use them. Especially working adults. People need to move where the jobs are, not expect the rest of the people to provide shuttles to and from where they live.

OPPOSE: SV SILVER LINE LIGHT RAIL (Elim.), RD RED LINE LIGHT RAIL (Major Reduction),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I have relied on the Silver Line for many years throughout my career working in Pittsburgh (since January 2N/A14) and have just purchased my first home in Speers, PA (near Charleroi). A part of the selling point on my home for me was its close access to Toll Road Route 43, which has an Exit (Exit # 48) for Finleyville/Elizabeth, where I can easily access the Library T-Station in a matter of minutes. Being able to park at the Library T-Station and ride the Silver Line Trolley into Pittsburgh daily to/from work has helped me to gain a significant portion of my time back in travel between my home and work each day. Since the Trolley has been under construction (since January 2N/A25), I have had to drive to work in order to be on time for my 7:3N/AAM start, and in order to get home in a reasonable manner. Driving into my building on Stanwix Street each day costs me a quarter of a tank of gas, $7.5N/A in a toll, and $25 for a parking garage, daily, in addition to 1N/A8 miles/day on my vehicle. Additionally, my commute to and from work is anywhere from 1.5 - 3 hours per day. On top of my 9-hour workday, this requires me to be away from home for my work and travel for at least 13 - 15 hours and equates to almost $11,N/AN/AN/A in personal work travel fees on an annual basis. Being able to ride the trolley to/from work via the Silver Line saves me time, money, and sanity daily, and also helps to cut back on environmental impact from inefficient stop-and-go traffic, and wrecks in general. I have been anticipating the construction on the Trolley Line to come to an end by November 2N/A25 however, if the Silver Line is eliminated, in addition to major cuts to the Red Line access as well, I will have to end my 11-year long career in Pittsburgh and attempt to find another job that is not located in the city of Pittsburgh whatsoever. I have no issues with an increase to the overall fare for the Trolley Line, since the proposed increase would still be significantly less than what I am paying in travel currently, but I am not in support of the overall elimination of the Silver Line and the severe decrease in service on the Red Line. I also personally know students who utilize the Silver Line and Red Lines to travel to/from CCAC's North Shore campus for daily classes, and we have used the service during Pittsburgh sports events and local concerts. I know on a personal level, I will not travel into Pittsburgh nearly as much as I have if there is not a reliable area to park and catch the Trolley within a reasonable distance of my home and where my family lives in South Park. Please reconsider the changes to be made before finalizing them - this is a severe detriment to the town of Pittsburgh and the surrounding communities who rely on public transportation for their day-to-day lives.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
I am in support of a proposed fare increase to the bus and rail service fares, where it makes sense. I am more concerned about the service being available in the first place, so I would much rather pay an increased price and know that there continues to be service for the Trolley via the Silver Line, Red Line, and Blue Line, versus not being able to access the transportation from these areas in the first place.

My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to move to another home/dwelling where transit is available
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
These service cuts cannot happen. I live in Troy Hill where the proposal is to remove our bus (and Spring Garden) completely. The bus service up there is already infrequent and terrible. You need to understand that the reason not many people ride the bus is because the buses don't run enough. If it were possible for me to get to work on time on the bus, I would ride it every single day but it's just not an option for me so I have to drive (which takes me over an hour with traffic and parking). I would seriously prefer to ride the bus but it doesn't run when I need it to. Still, it is an absolute necessity when I am having car troubles or I can't drive to work for another reason. If there are buses to ride, people will ride them. Ridership is down because there aren't buses for us to ride. A lot of my neighbors I see on the bus are older people. What are they going to do?
I have been seriously considering moving to another neighborhood just so I can be closer to work since the bus situation isn't good where I live. But wouldn't you know, the bus route in Greenfield where I was looking to move is also being taken away! I shouldn't have to worry about this in a city. Pittsburgh is already FAR behind other major cities with our public transit. I think it's one of the weakest parts of our city as a whole and it holds us back from being a more desirable place to live. A move like this will take Pittsburgh from a competitor with other major cities to a small backwoods regional city like Altoona or Wilkes Barre. It will take us backwards. What's the point of living in a city and paying higher taxes if there aren't any bus services anywhere CLOSE to my house? It's not worth it to me. If this happens, rather than moving closer to work, I'll move out of Pittsburgh altogether. If there are no buses and it's going to take me an hour to get from Troy Hill to Oakland, I might as well just live in a rural area that's a lot cheaper to live in...OR if I'm going to pay the higher rates to live in a city, I will move out of Pennsylvania altogether and live in a real city that has real public transit. This will make the traffic so much worse too. I'm not going to sit in traffic for over an hour every day. It is just not worth it to me to even live in Pittsburgh for that much hassle and traffic. This is ridiculous and you know it.

Other comments (bus and rail service reductions):
For many in our community, this will have a large and negative impact. Children rely on these buses for school, adults for jobs, and for many it's easier access to downtown for entertainment, dining, etc. My family thankfully doesn't need to rely on this every day, but I do take the 91 to work occasionally, and we often take the bus downtown for games, dinner, shows, and sporting events due to the high cost of parking downtown. Folks who ONLY have access to the bus will be forced to quit their jobs, move neighborhoods, or worse rely on other public / state assistance because of this. We need to keep public access available and affordable!

My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to move to another home/dwelling where transit is available
Other comments (bus and rail service reductions):
The 7:N/AN/A a.m. and 7:3N/A a.m. buses are always packed and the 21M only comes every two hours and takes an hour to get downtown. There is no other alternative unless I drive to a different park and ride and the other options I have for parking will not accommodate all the extra cars they will need to hold from the reduced routes. The G3 only runs during rush hour so it is not like it should take that much away from the budget to keep it running.

Since I do not know if it will come up later in this survey, I know our city wide public parking program is among the least expensive in the world. There is opportunity for PGH to maintain their cash flow from the parking program while increasing the cost to motor vehicle owners. The cost will still be reasonable for moto vehicle owners. These additional funds could be directed to PRT.

Service change impacts (bus and rail):
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I'm concerned with the suggested PRT cuts in general. I'll specifically highlight how it will affect my community. I live in Mt. Lebanon which currently has 3 bus routes. If this cut goes through we will have zero. I rely on the bus to get to work everyday. How can we live in this great affordable city and have almost no public transit? How can Mt. Lebanon sell itself as this amazing community and have no public transit? The higher powers above continue to raise our taxes, our grocery bills, our utilities, etc. Yet the services provided to us are cut to the bone. It's an unfair system we live in and this is just the latest example.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available

I would no longer be able to access medical care locations
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I work at a major university in the city and ride the PRT nearly every day for both work and personal experiences. I often catch the first bus available on my route in the morning, and will occasionally ride on the last run of the night back home the office. Throughout these daily travels I see students of every age group going to and from school; I see people of different physical abilities able to live their lives because they have access to public transit; I see the unhoused who simply need to be off their feet for awhile; I see people escaping horrible home lives, I see people having life-changing conversations with strangers that they never would have met otherwise, I see those carrying a week's worth of groceries, or sometimes their entire lives in just a few bags. Through it all, we have one thing in common aside from our humanity: the PRT is our lifeline for survival. I've spoken to students who are terrified at the prospect of not being able to get to the airport if something were to happen to the 28X, I've been the person who was stuck in the rain and cold for 6N/A minutes because my usual bus home was cancelled, and my own personal housemate faces the prospect of losing his own job if the one route that passes his workplace would be cut. Our experiences are not unique. The PRT's range allows people of countless demographics the freedom to work, to travel, to establish strong friendships and relationships, and to have a safe, climate-controlled environment to get where they need to be. The Pittsburgh region is a deeply vehicle-centric environment, where entire communities often lack sidewalks or ways to connect to one another that don't require a car--small and large businesses alike will lose revenue, and countless people will be cut off from the world without access to public transit. While the PRT may not cover every corner of the region, it is often the best method to do so based on its reliability. Some routes are often crowded at all hours, and cuts would all but ensure that riders will be consistently turned away. We are entering an era where people are losing access to necessities and basic rights, and public transit remains one of the only aspects of life where we as citizens can still have constant access to the things we need to survive. While I understand the need to find ways to make up for financial shortfalls, punishing those who rely on services is unconscionable, and I urge those who make these decisions to think of the needs of the people as we move forward.

Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
The increase in costs would impact the most vulnerable in our community: the elderly, those with disabilities, the unhoused, and those who are unable to work. These are the most frequent riders of the PRT, and those who rely on it for survival. An extra $0.25 per 3 hour ride will be inconsequential to some, but insurmountable to others.

It is a bandage to stop a gaping wound that riders will not be able to fix long-term. I would gladly cover increased costs if it meant that those in my community who cannot possibly afford any increase at all could still ride, and I do not doubt that there are others who will step in and state the same. The PRT is a survival tool, and a way for communities and people to remain connected to what keeps them thriving. While I support an increase for those of us who can afford it, there needs to still be ways for those who cannot to still have access to their work, home, medical facilities, entertainment, and otherwise.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
Oppose or support specific reductions.
OPPOSE: 1 FREEPORT ROAD (Major Reduction), 77 PENN HILLS (Major Reduction), P67 MONROEVILLE FLYER (Elim.), P78 OAKMONT FLYER (Major Reduction),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
The 1 Freeport is fairly full every time I ride it, no matter the time of day or day of the week. Reducing its frequency will lead to fuller buses to the point where the driver might have to refuse service due to lack of space on the bus. The P78 has already been cut down to bare bones as it is. We don't have weekend or late evening service, and they cut that route first when there's a driver shortage despite the face that there is no other bus that goes through Verona and Oakmont since you've eliminated the 75D and regular 78 routes. A combination of the P78 and 77 are how I get to the grocery store and work. A combination of the P78 and 1 are how my mother and brother get to doctors appointments, the Social Security office in New Kensington, and other errands in Aspinwall, Harmar, and Cheswick. The P67 is how we get to Monroeville to shop at the Mall and other shopping centers. Without these bus services, I will have to figure out how to either afford to buy a car or take Lyft or Uber to run these errands.

Other comments (bus and rail service reductions):
I direct a public benefits office in downtown Pittsburgh. We serve families throughout Allegheny County. Most of my staff (~5N/A) and clients (4N/AN/A-6N/AN/A visitors/month) use PRT to access our office. Many of my staff and clients do not drive or own a vehicle so PRT is their means for getting to work, child care, shopping, worship, etc... We are located in downtown Pittsburgh since historically no matter where you live in Allegheny County, you could access public transportation to the city. Several of my staff have already told me that if their bus route is eliminated, they do not know how they would get to work since they do not drive and cannot afford to take Uber or Lyft.

I go from Munhall to Greenfield to Oakland and then to Monroeville. If bus services are cut, I may not be able to get my connections and it would greatly affect my travel to work.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
Before they increase fares though, they need to repair the fare boxes. Every day I get on 6 buses and on at least 3 of them the box doesn't take money, it tells you your pass has insufficient funds(although I know for a fact that it's a monthly pass). Also, the bus drivers let anyone one for free if they pull money out to put it in the fare box. They don't want to wait for them to put money in the box. This happens all the time!

Also, the mobile pay has got to go. People get on the bus and can't access it, etc. and the drivers let people on for free.

I honestly would use the bus and rail services if they were more reliable, but because they aren't I have to have a car, and this will put many other folks in the same situation as me, making my commute into work all the more difficult. We should be expanding our public transit options and improving them, not reducing them and making them less useful.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
None of these apply to me
Other comments (bus and rail service reductions):
People depend on these services. It's their only transportation. Most people cannot afford a car. Pittsburgh is congested enough. And if more people have to commute downtown, parking is limited already and expensive. This proposal is insane. These bus routes and access are a lifeline for most. Meaning job security and healthcare. And cutting service after 11pm. Come on. People do work afternoon shifts and get off work at or after 11 pm. Now they are stranded or uber home each night. It's unfortunate. Nonprofit organizations such as upmc and ahn and universities should fund public transportation if they are not paying taxes to the city.

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
The 56c and the 53l are lifelines in the Lincoln place community. They are the only bus lines that run through to get us downtown. Without them. You can't even really walk anywhere because Mifflin road and West run road are major roads and have no sidewalks. Those are the routes out of our neighborhood. The other street is Commonwealth road/briarly Lane which is also a major roadway with no sidewalks. We are completely stuck if we lose these bus lines. We won't be able to go to work, some people won't be able to get to school to appointments etc. People who can't afford a car really need the bus lines. Please keep them.

I would no longer be able to access medical care locations
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I moved to this house SPECIFICALLY because it was close to a bus route. This is a purchased home, so it's not like I can just "move somewhere else." The closure of my bus (41) would mean that I need to purchase a car, which is expected to go up $6,N/AN/AN/A due to tariffs and I was not given a raise this year also because of tariffs. This MAJOR decision is coming at a horrible time.
Furthermore, the bus is always packed. It is the only line that passes the St Clair Hospital. The decision to cut lines entirely is downright stupid and disproportionately affects lower class individuals. Find your funding elsewhere!

Other comments (bus and rail fare increases):
You need to find another solution here. This pay structure is being designed to price people out of their only means of transport. If I go downtown for work, I need to pay at least $20 for parking. Your new change takes the bus from $7 of fares to $15 for fares. This is a thinly veiled method to kill buses anyways. Have smarter fare brackets that are aligned with the way people actually ride and you might be able to squeeze slightly higher fares, but DOUBLING THEM IS ABSOLUTELY INSANE

My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
The proposed service reductions provide a wealth of issues, especially when it comes to access to and from school/childcare/work. I work a one of our public libraries and am a firsthand witness to the impact of public transit on our community. My coworkers and myself take transit to work and outreach events in our communities, so many of us have direct experience with navigating it and provide assistance to those new to the system.
The first concern I have is the stoppage of service past 11pm. While a student, I (and many others) worked late night shifts in the restaurant industry where getting out of work prior to 11pm was near impossible. Had these changes gone into affect while I was a student, I would have been left stranded many times with no reliable, affordable, and safe way to get home. The university transit systems have incredibly limited service areas, paid ride-shares like Uber and Lyft can be incredibly expensive, and catching a ride with a sober friend after a night of festivities isn't always guaranteed.
The second concern I have is the extensive limiting of the busways and transit to/from the outer-suburbs into the Triangle. With living-expenses on the rise, the cheaper housing in the suburbs is enticing, which means relying on the rail or bus systems for commuting. Pittsburgh claims to be one of the most livable cities in the United States, but that cannot continue without access to public transit. Communities like Greentree, Baldwin, and Ambridge will be left isolated, forcing workers from those areas to relocate. Neighborhoods like McKees Rocks and Stowe, although being listed as High to Extreme Need in the 2N/A22 Allegheny County Community Need Index, will be left with significantly impacted bus routes, putting even more stress on an already stressed community.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would take less public transit trips
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
Although the fare increases aren't overwhelming, the addition of the increased fairs alongside the cuts to service would add economic factors to riders experiencing an already limited system. If PRT can demonstrate how increased fares will improve access to transit for riders, then we may be able to acknowledge the increases as a tangible step towards service improvements. I fear riders would loose even more trust in PRT if their fares were increased without any evidence of the fares working in the favor of the riders.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I am concerned about all cuts and reductions to bus service but am especially worried about the proposed elimination of Route 4.
I live near a bus stop on Troy Hill and see many of the same people there each morning, presumably commuting to work. Eliminating the 4 would force them to find other forms of transportation, since it is the only bus that comes up the hill.
There is no grocery store on Troy Hill, and I often see people getting off the bus with grocery bags. This indicates that the existence of the 4 expands people's access to food and other necessities.
I have also seen school children exiting the bus with backpacks in the afternoon. These children can't drive themselves home from school because they're too young.
Personally, I know multiple people who rely on PRT buses as their sole/primary form of transportation. They regularly take advantage of many of the routes that are proposed to be reduced or eliminated.
Even as someone whose primary form of transportation is a car, I prefer using the bus to get downtown. If I lived somewhere other than Troy Hill (where there is only one bus route and I am able to walk to work) I would likely take PRT much more often.

Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Why did the PRT feel it was a wise business decision to spend MILLIONS on PAVING many of the park n ride parking lots when they were facing this financial crisis? I know there is no place for common sense, however do you think the Silver line riders would accept some cracked asphalt over ELIMINATING their daily mode of work transportation?
Where are the SILVER LINE customers supposed to park if you eliminate this route into the city each day? Do you expect them to drive from Library to SH Village to park? Do you care or do you feel another message stating "we are sorry for this inconvenience" is enough for this group of people?

How often do you typically ride Pittsburgh Regional Transit (PRT) and/or ACCESS?
N/A
Where do you travel using Pittsburgh Regional Transit (PRT) and/or ACCESS??
Home
Work or job training
Social activities
How do you identify yourself? Select all that apply.
Prefer not to answer
What is your age?
45-54
How would you describe your gender identity? Select all that apply.
Prefer not to respond
Which of the following best describes your 2024 household income?

$150,000+

Including yourself, how many people live in your household? 3-4

Please tell us about any difficulties you had completing this form:

This form was hard to complete because I know that I am wasting my time and opinion and PRT could really care less. Public comment, is a procedural requirement that they must check the box.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
Oppose or support specific reductions.
OPPOSE: SV SILVER LINE LIGHT RAIL (Elim.), RD RED LINE LIGHT RAIL (Major Reduction),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
PLEASE do not eliminate the silver line. There is already so little public transit in the area. The silver lines goes to one of the biggest free parking lots along the light rail (the library park and ride) eliminating it would force ALL car commuters into the limited parking along the red and blue lines and make light rail park-and-riding a huge nightmare. Not to mention the silver line has some of the few stops along the rail line that are safely walkable. Eliminating it would contribute to traffic congestion in the South Hills/Bethel Park/South Park area by a LOT. I would rather pay an increased fare to compensate for funding cuts than to lose the silver line. Even for those who do not use it daily, having it available is such an increase in quality of life.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
I would support higher fares to avoid cutting services. More routes are better, even if they are expensive.

If this city becomes any more unlivable, you are going to lose a lot of people who can no longer make it work.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
We already have some of the most expensive fare costs in the country with a minimum wage of $7.50 -- how are people going to afford paying $3 for a bus ride?? How are we on par with New York City's fares already? This makes no sense and if it's obvious that ridership is not really what funds the system -- why even bother increasing this fare.
Please indicate if you oppose or support the proposed changes to ACCESS service:

OPPOSE: 36 BANKSVILLE (Elim.), 38 GREEN TREE (Elim.), 39 BROOKLINE (Elim.), 40 MOUNT WASHINGTON (Elim.), 41 BOWER HILL (Elim.), 65 SQUIRREL HILL (Elim.), G2 WEST BUSWAY (Major Reduction),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to school, daycare, or childcare
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
We are Banksville residents. Eliminating service to Banksville and Greentree will isolate residents in this part of the city when the cost of living and car ownership is exceeding many household budgets. My teenage daughter uses bus transportation on a daily basis. She attends CAPA HS downtown, where there is no school bus transportation. These students rely 1N/AN/A% on public transportation. The South Hills T is great, but is frequently impacted by schedule changes and down time. Eliminating the Banksville, Brookline, Carrick and Greentree bus routes will leave South Hills neighborhoods stranded on days when the T is out of service. How can city neighborhoods that are just a direct ten-minute drive from downtown not have bus routes? It's certainly unwalkable, and not accessible by bike trails. Eliminating these routes during the tariffs, when the cost of buying and maintaining a car will skyrocket, is damaging to the residents of Pittsburgh. Our youth and elderly population will be impacted the most. My daughter and her peers will be limited on summer employment options, and their plans to attend local universities in the fall will be impacted by not having easy access to transportation to town and Oakland. For many of these kids, easy access to higher education close to home is why they even applied to some of these colleges! Buying a car and paying for parking is not an option for students and young adults in the city. Please consider how these routes are central to residents' lives and livelihoods. Access to public transportation is a core feature of a vibrant community. Eliminating routes will make downtown even more of a ghost town than it already is and harm all the surrounding communities - making Pittsburgh far less livable.

Other comments (bus and rail service reductions):
The changes in the bus schedule will be devastating for so many people who depend on the bus service to and from work, doctor's appointments, shopping and social activities. I know a number of people that do not have vehicle's or can't afford the gas and parking when drive to Pittsburgh and use the transit system. Deleting so many of the bus routes will affect people who want to go to downtown Pittsburgh.

Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
Other comments (bus and rail service reductions):
In every major and progressive city, they have a well developed transit system. If Pittsburgh desires to continue growth and progression from our dirty and dingy past stereotypes, we need to keep a robust public transit system. My life depends on using these services to get to work, specifically to downtown from the suburbs. If these routes are eliminated, then I'm forced to look for a new place to live or to purchase a vehicle. There are no incentives to do either. The costs do not make sense if public transit is available. There seems no effort to lower rental costs, or the costs of vehicles, and eliminating and reducing transit will have direct negative consequences to those already using income for necessities. Please reconsider eliminating bus lines.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
If raising costs can allow minimal changes I support that.

The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Both my husband and my daughter rely on the Silver Line to get to work and school. We live beyond Washington Junction so the Blue or Red Line is not an option. We are left with no alternate PRT transportation and will have to look into schedule changes just to get them to the nearest stop that will have service. Beyond that, the T has been a life line for us to get to medical services and entertainment venues. Pittsburgh traffic is simply too bad for us to drive downtown for shopping or a game.
Please indicate if you oppose or support the proposed fare increases:

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
Other comments (bus and rail service reductions):
We need smarter bus and rail, not less. In DC everyone enters in the front and exits out the back/side door. This creates better rider traffic flow because riders do not have to wait for others to exit. The cars like it better too because the buses don't stop forever.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for transit or other essential expenses
Buy more shoes because they would wear out from walking everywhere
Other comments (bus and rail fare increases):
Why not make parking more expensive to encourage ridership? With the new tarriffs on cars, only the rich can afford them anyway, so make them pay more for parking. Pay parking by cash/coin can be cheap, pay by phone app for your luxury SUV parking? That will cost you plenty of surcharge fees.

Slay the UPMC dragon: let people use the 2nd Ave lot on weekends or at least the one by the rail trail parking. People could park there and walk/bike into the city. UPMC pays no taxes and yet hogs all the empty parking lots. Something is wrong with that picture.

SUPPORT: G2 WEST BUSWAY (Major Reduction), P68 BRADDOCK HILLS FLYER (Major Reduction),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Please keep the silver rail! That would be devastating to the entire community of Library, PA. Myself and so many others use this service frequently.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
I don't mind an even number fare increase! Most people don't carry change and have to give that amount to the machine anyway. Even raise it to 4.00 if that means you can keep the silver line!

Oppose or support specific reductions.
OPPOSE: P12 HOLIDAY PARK FLYER (Elim.),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to move to another home/dwelling where transit is available
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I feel the P12 and other express routes can be kept with times altered. I catch the bus about 6:25 at the Plum park and ride, after driving 12 miles from Apollo. If I work late, I'm catching the 5:48 or 6:21 at Grant and Oliver. I agree there are not many riders on those runs. Eliminate them, but keep the route, and I can adjust my work schedule. Eliminate the route, and I'll have to drive further to catch a route, or move. Also, can't PRT use single buses for those times, instead of articulated buses? Better yet, can PRT use short buses, like some local communities use for residents that need to get to appointments, shop, etc?
Please indicate if you oppose or support the proposed fare increases:

OPPOSE: 21 CORAOPOLIS (Major Reduction), 28X AIRPORT FLYER (Major Reduction), G3 MOON FLYER (Elim.),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I live in Beaver county, so there are few options for buses. Eliminating the G3 and restricting the 21 and 28X severely limits the "backup" choices that we have to get to work. The 21 will not be able to handle the overflow, take forever to get downtown with all of the stops, and not all of them go to the Moon Park and Ride. Loosing the large Moon park and ride will also be a waste.
As I near retirement, I rely more on the buses since driving into and around Pittsburgh is a nightmare. Limiting my options going into, and around town, will force me to avoid going into, or staying in, the city for events. Pittsburgh will no longer be accessible for workers or visitors.

I would have to move to another home/dwelling where transit is available
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I live in Greenfield and work in downtown Pittsburgh. I currently rent but as a young professional, I am looking to buy my first home. I have been looking at properties in Greenfield, Squirrel Hill, Swisshelm Park, and Swissvale but now with the proposed bus route changes, I don't know if that will be practical for me. I currently take the 58, 52L, 53L. Should I purchase a house in upper Greenfield, the 65 would work for me. I understand that ALL of these bus routes will be discontinued and I would be left with a long ride (of 1 hour or more) on a circuitous route just to travel the 4 miles from my home into downtown. I hope you realize that your plan will kill incentive to live in some affordable city neighborhoods that appeal to young families.
I've read that you hope to provide service to underserved neighborhoods but please don't do this at my expense. My neighborhood is vibrant and it is a desirable location for home buyers. We contribute to the tax base. One reason people move into Greenfield and Squirrel Hill is because they can get into downtown Pittsburgh or Oakland easily with public transportation. Pittsburgh has marginal public transportation options as it is. If you make it even less convenient, your ridership will drop, your numbers will be worse, and you will kill incentive to live in some lovely city neighborhoods.

Woman
Which of the following best describes your 2024 household income?
$50,000 to $74,999
Including yourself, how many people live in your household? 1-2
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I volunteer for the Pittsburgh Cultural Trust and I am in downtown Pittsburgh working as a volunteer for various performances the Trust sponsors. I have 3 doctors that I see at Shadyside Hospital. I attend classes at Pitt through their LifeLong learning program. My bus service is spotty now but losing what little efficiency exists will be real blow. Why are you planning to discontinue the P71 and 71? It is the only reasonably speedy service I have into downtown Pittsburgh and to my various doctor offices in Shadyside Hospital. I do not want to take the remaining 61B into Oakland, then transfer to locations I need to go to. I've read that you hope to provide service to underserved neighborhoods but please don't do this at my expense.

My neighborhood is vibrant and it is a desirable location for home buyers. We contribute to the tax base. One reason people move into Regent Square, Swissvale, and Swisshelm Park is because they can get into downtown Pittsburgh for work easily with public transportation. Pittsburgh has marginal public transportation options as it is. If you make it even less convenient, your ridership will drop, your numbers will be worse, and you will kill incentive to live in some lovely city neighborhoods. You will also contribute to the decline of our downtown and that will certainly drag the rest of the region down with it.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Service reductions will create more pollution, more congestion and strain downtown parking. The impact on lower income riders who depend on this transportation to get to work/shop will have a more severe impact on them as well as their employers. We need to start funding mass transit like we fund other critical services. Our economy depends on it.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
I reconize this will impact lower income riders disproportionately but the fact remains the cost has not increased in 10 years I believe while the cost of everything has risen.

I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
These reductions are going to severely impact individuals who have to live further from the city. If those individuals are priced out of living in the city, and then have no access to get into the city for work it will greatly reduce their opportunity to change their financial situation.
I am also really concerned that these reductions will increase traffic, which is already challenging for Pittsburgh due to the number of bridges and tunnels. Increasing congestion is going to make Pittsburgh a less desirable place for people to visit or move.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
I am in support in the slight increase to fairs, but not if the increase is happening while services are being slashed. I am happy to pay a bit more for the services, but paying more for them to be less consistent / gone all together isn't right.

I would have to move to another home/dwelling where transit is available
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
How was there money to change the name of Port Authority (and I'm assuming a rebranding study), which was totally unnecessary? How was there money to paint all of the rail stations, which then required an inordinate amount of salt to keep the platforms safe (and then the clean up to remove all of the salt)? South Park Township ok'd an entire plan based on advertising it as a transit village, what happens to those people? What happened to worrying about emissions from cars? The cost of parking in town is prohibitive. It is the commuters that go to work so we can pay the taxes, yet you make it impossible to get there.

Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
I used to live in Green Tree when I was a kid, and remember my Dad taking the bus to get him to work Downtown. It was a safe and affordable way for him to support our middle class family. I don't know how people today in neighborhoods and boroughs like Green Tree will be able to navigate these proposed service cuts. One of the great draws to our city is the quality of its transit for its small population size. Money pits like the Mon-Fayette expressway continue to receive billions of dollars in funding while basic public transit service continues to be starved of funding. I hope that the politicians in Harrisburg know that Pittsburghers want more public transit and less toll roads.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would take less public transit trips
Other comments (bus and rail fare increases):
These fare increases will make Pittsburgh one of the most expensive cities for transit in America.

Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Is there any balance that can be struck for longer/commuter routes, where instead of eliminating service all together, that "express" routes may be added at reduced intervals in order to continue allowing suburban riders the ability to get in/out of town more efficiently (and the quicker travel time of an express service may entice more people to ride).
Additionally, could outer/suburban lines be rerouted (instead of eliminated) to connect passengers to Light Rail Junctions, so that the heavy-lifting of moving passengers in and out of downtown falls on the shoulders of the Light Rail without burdening the bus system as heavily? As one example: instead of eliminating the 41-Bower Hill route, could the 41-route be drastically shortened to run round-trips between it's current Chartiers Park terminus and Mt. Lebanon Junction? This would still allow the entire Bower Hill Road corridor to be serviced with access into Downtown, but would allow this service to be operated by only a few vehicles that don't get caught in heavy traffic.
A similar concept could be employed for the 36-Banksville route, which could run its current route from Downtown along Banksville Road, but instead of extending all the way to South Hills Village, it could terminate at Dormont Junction (where passengers could continue on the Red Line to South Hills Village).
Etc etc.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
With inflationary pressures, it is understandable that a $0.25 increase per trip be implemented.

Service change impacts (bus and rail):
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
It would be a disgrace for the size of the city of Pittsburgh to not have bus service to all the communities.
Maybe leadership needs to look at the number of time the fare boxes are not working thereby allowing passengers to ride for free. There have been many times either commuting to or from work that fare box is broken…it's a free ride for everyone. Think of the thousands of dollars lost. Do you think that is impacting the financial crisis you're in? Free rides is not helping to save PRT!

Other comments (bus and rail service reductions):
We purchased a house in Brookline because of proximity to the bus line. Removing the 39 bus would affect my commute drastically and would require a major change in my family's schedule to continue to live here. Students that use that bus every day to get home will also need to find alternative arrangements. What are my tax payments going towards if there is no public transportation, no police department, and no snow removal? How has Allegheny County reached the point where people need to leave the region to receive amenities that exist in every other greater metro area in the U.S.? Please do not let these massive transportation cuts happen. I have lived here all my life and this change will hurt Pittsburgh. Lobby our leaders, create a donation drive, anything.

Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
The current level of PRT service is more robust and attracts a wider range of passengers, reflecting the composition of the community, than the public transit available in other mid-size cities (e.g., Milwaukee, WI; Kansas City, MO). If these cuts are implemented, that will no longer be the case. The PRT's routes and frequency, if these cuts are implemented, will provide only a skeletal service serving primarily the M-F 9 a.m./5 p.m. commuter; that outcome would be inconsistent with an eds-and-meds economy, where people travel at many different hours of the day, and on many different days of the week. This highly attenuated route system would serve on one or two nodes (e.g., Downtown, Oakland), which is exactly the opposite direction of where the PRT in its recently proposed reconfiguration was proposing to move.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
I now travel for free with a Senior Card. Obviously, if this card "buys" me much less service than now, its value will be much reduced. Personally, I would be willing and able to pay more at the farebox if the extra revenue would eliminate the need for these cuts. Many of your riders are not in that position. I would also be willing to pay more in taxes to the county or state if that enhanced income stream would make a real difference in avoiding these cutbacks.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
These route changes will be catastrophic for the people that are most dependent on them. If you need a bus late at night, you usually don't have any other options. The proposed cuts additionally remove vital services from entire communities, which will damage the livelihoods of locals.
Personally, I take the 54 to work. That service has already been dramatically cut, making it much harder to catch and much more crowded. If the service is further cut, I may have to start driving to Oakland instead.
I also often take the bus if I plan to drink or go downtown. These service reductions will mean that I am less likely to go out to restaurants with friends or to activities in the cultural district.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
We are never going to be able to fund public transit based on fare increases, and transit financial support needs to come from more stable sources. If prices become too high, folks won't have the ability to take the bus at all, or will be forced to choose between transportation and other necessities.

I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
Loss of the #13 BELLEVUE and the #16 BRIGHTON after 11pm and countless other links that are needed, would have a major negative impact on my ability to continue employment efforts. I have to auto nor access to any ride. These cuts would kill my abilities.
If anything, additional late night trips are needed for those of us who work hard, travel far and on countless cold nights, are thankful when that late #16 shows up.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
Oppose or support specific reductions.
OPPOSE: 53L HOMESTEAD PARK LIMITED (Elim.), 56 LINCOLN PLACE (Major Reduction),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
Other comments (bus and rail service reductions):
Lincoln Place is a small community with already only a few viable options for public transit. I work in town. The 56 is already overcrowded in the evening rush. If I don't time my departure out of my building correctly, I could theoretically have to wait another hour for a bus. This is unacceptable. Nor do I want to stand the whole way home. Public transit is already an uncomforable and long ride. Why make it worse for certain communities that already don't have many options? If you want to increase fares, so be it. But don't reduce services at the same time. I've been taking public transportation since 1982 when I started high school. I used to be able to catch a bus at almost any time of the day and get home to LP. When I factor in the wait time and the fact that I'm standing the whole ride, it's more beneficial to my mental health and work/life balance to drive. Either make public transit available to everyone or just don't. Just give up and find new company. I've been to DC and if they can do public transit well, there's no reason why we can't.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to school, daycare, or childcare
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
I already struggle to get to work everyday. There are so few busses that travel to my neighborhood. I am either an hour early to work or two hours late. If anything we need better public transportation. For as long as I have lived (1N/A years) here the PRT has been sub par. Cutting bus lines isn't going to fix that. I cannot afford to move. I cannot afford to get a car. I am tired of my tax dollars being used to fund wars when I have a hard time keeping work because of the bus.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for transit or other essential expenses
I would take less public transit trips
Other comments (bus and rail fare increases):
Again use my tax dollars to pay for my bus fair.

OPPOSE: 12 MCKNIGHT (Major Reduction), 28X AIRPORT FLYER (Major Reduction), 54 NORTH SIDE-OAKLAND-SOUTH SIDE (Major Reduction), 58 GREENFIELD (Elim.), 75 ELLSWORTH (Major Reduction), 81 OAK HILL (Major Reduction), 82 LINCOLN (Major Reduction),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I understand that funding will be unable to support our current public transport transit, however, lines where there is only one way to get to a location: 28X, 12, etc. are crucial for many members of the community who are unable to drive, cannot afford to drive, or where the walk would not be possible or would be incredibly difficult. So many people I know use PRT to get to school or to work, so if there are not any bus routes around a certain area, it would be appreciated if that route could be kept, whereas, if there is a bus route that is in walkable distance, than maybe the routes/buses can merge. If an increase in transit fares can help us keep the 28X, please keep that route. So many people I know, including me, depend on that bus/route.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
If an increase in fares can help PRT and the community keep some of the buses/bus route, I think the community would be willing to pay the increased fare.

Other comments (bus and rail service reductions):
Doing this will kill downtown. I work in Market Square and the city is investing millions of dollars in upgrading Market Square. Cutting vital transportation into the city would make all this money go to waste..... Any dollar spent helping downtown would essentially be thrown away because the city would die without public transport. We all know finding parking is next to impossible, so how exactly do you expect workers to get to their jobs? Tourists to see all these downtown improvements? I personally will have no reliable way to get to and from my job and will have to consider moving away from Pittsburgh. Doing this will cripple our city.

Other comments (bus and rail service reductions):
People rely on public transportation for various reasons. It is unfair to assume that because of their zip code they can afford to find other options. Not everyone can afford two cars per household. Likewise not everyone is working a hybrid schedule. I have been using public transportation for over 3N/A years for the various jobs in the city of Pittsburgh. I was fortunate to live in neighborhoods that had bus stops that I could walk to thus saving me time and decreasing the traffic congestion helping the environment. Now PRT wants to cut all of the service to my neighborhood. This will not solve the problem and raising the fare will not either. Someone needs to take a bus ride and see who is actually using public transportation. Also I think there might me a better way of cutting costs, i.e. desk jobs instead of bus service, where do you think the money comes from to pay your employees?

OPPOSE: 28X AIRPORT FLYER (Major Reduction), 31 BRIDGEVILLE (Major Reduction), G2 WEST BUSWAY (Major Reduction), SV SILVER LINE LIGHT RAIL (Elim.), RD RED LINE LIGHT RAIL (Major Reduction),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Since moving to Carnegie, I've started to utilize the G2 and the West Busway more frequently. Navigating public transportation in Allegheny County is not easy as it is, but with proper planning, and if you have the luxury of time, it can be useful. Specifically, I utilize the G2 to attend events in the so I can avoid the expense of rideshares, and avoid sitting in traffic along the congested highways coming from the West and South Hills. Additionally, public transportation allows the option of not getting behind the wheel of a vehicle after drinking. With the proposed cuts to the G2, and realistically PRT as a whole, it's adding more vehicles to the already congested highways and will put more lives in danger as people will simply drink and drive more frequently. Reducing trolley lines from the South Hills will make the stress and strain on highways and traffic through the Fort Pitt and Liberty Tunnels even worse.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
If it's a matter of increasing the fares 25 cents and maintaining services, I can justify increasing the fares. It's a joke, honestly, that Pittsburgh will have among the highest fares in the country for the small and fairly inefficient service offered by public transportation, but it is what it is.

Man
Which of the following best describes your 2024 household income?
$75,000 to $99,999
Including yourself, how many people live in your household? 1-2
Please tell us about any difficulties you had completing this form:
None.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Losing the Flyer bus options for commuters would cause two major issues: (1) overcrowding the non-commuter lines that are not set up for the increased volume that would result from the cut lines and (2) overcrowding of the parking lots and garages in and around the downtown area. There is already limited parking available downtown and this kind of change would exacerbate the problem. My company and many other companies have started requiring their employees back to the office 5 days a week. These return-to-office mandates would increase the ridership and the need for the PRT lines that are now on the chopping block.
Also, how does this planned reduction affect the PRT-ner Pass program that was previously announced? With the lack of funding, is this program tabled or eliminated?

Other comments (bus and rail service reductions):
They want to eliminate routes, that people depend on to get back and forth to work. not just one or two routes but a significant number of routes that will impact a lot of workers and children in school. As well as Access that many of the elderly depend on.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for transit or other essential expenses
Other comments (bus and rail fare increases):
It amazes me that the CEO accepts bonuses for doing nothing when the actual drivers and other workers during all the work do not get adequate raises, and now they want to cut bus routes. and raise fees. Take away those bonuses all the executives receive and put those funds back into the community where it's needed.

Other comments (bus and rail service reductions):
I don't think cutting any of the routes is going to help anyone. I especially don't like no public transportation, after 11. The 2N/A26 NFL draft is here next year.. Alot of people are going to be relying on the T! I could be one of them. I also rely on the T for alot of events. Some concerts I go to, don't stopped until 11! The T runs right through my neighborhood. Please don't stopped public transportation after 11!

Oppose or support specific reductions.
OPPOSE: 39 BROOKLINE (Elim.),
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I am now retired but in no way, when I was working 4 years ago, would I have been able to afford to go to work without the Brookline bus. I have lived here for 35 years and have gone from the reduction of the 41a and 41g lines through Brookline, leaving just the 39 available to residents. We have all adapted to those reductions but to eliminate ALL service to Brookline is ludicrous. The South Hills area did have the best public transportation system of any where in my opinion and it just keeps getting chipped away to nothing. What was once a powerful resource for residents is becoming a joke and whoever is in charge should be ashamed of the position that PRT is now in.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
Oppose or support specific reductions.
OPPOSE: 13 BELLEVUE (Major Reduction), 14 OHIO VALLEY (Elim.), 19L EMSWORTH LIMITED (Elim.), G2 WEST BUSWAY (Major Reduction), G3 MOON FLYER (Elim.), O1 ROSS FLYER (Elim.), O12 MCKNIGHT FLYER (Elim.),
SUPPORT: 28X AIRPORT FLYER (Major Reduction),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Eliminating all the flyers will make for insanely crowded and lengthy commute times for people. I understand the need to reduce frequency, but it's absolutely crazy to ignore your park&ride options.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
Honestly, I think the base fare could go up to $3.50. Maybe that's how you keep the flyers going. Make those $4 and run every 30 minutes between 6:30 and 9:30am and 3:30 and 6:30pm.

OPPOSE: P12 HOLIDAY PARK FLYER (Elim.), P16 PENN HILLS FLYER (Elim.), P67 MONROEVILLE FLYER (Elim.),
Service change impacts (bus and rail):
My travel time would greatly increase
I would no longer be able to get to my current job, training location, or will have to find a new job
Other comments (bus and rail service reductions):
I don't think that you all are seriously considering the effect that cutting the "P" buses that extend to Holiday Park/Monroeville would. These buses already have a limited run; and during the times that they are available, they are greatly utilized by people who work in the city and students who attend school in the city. We, too, need access to public transportation that does not take 2 hours of travel time. One of Holiday Park's first stops is a park and ride in itself. Cutting this bus and other similar buses would be a grave mistake for not only your citizens individually, which is more than enough reason to reconsider, but to Pittsburgh as a whole.

Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
Other comments (bus and rail service reductions):
My route 51L, is proposed to be eliminated, i would still have the option to catch a 51 however due to that stopping and starting at Brentwood Loop that decreases the options that i have to catch that (my stop is before the Loop stop going into town and after the Loop stop going home from town) therefore i have less flexibility catching the 51. The buses are already so crowded during rush hour and poeple getting on with strollers that it would be unsafe to put more people on the buses
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
I am ok with increasing the fare if you are decreasing the product but to eliminate the product (51L) and then charge me more money is a crazy notion to me. I see at least five people going each way daily that get on the bus and don't pay...why would you charge people that pay more money when others get to ride for free?

I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
These cuts would be devastating to the city's economy, comparable to eating your own hand to compensate for a lack of food. If the funds aren't available, other policies should be enacted to produce funds; for example UPMC, the largest employer in the state, owns a plurality of land in the city, but pays no property tax, despite much of the land being vacant lots. I would prefer UPMC be compelled to sell vacant lots and other non essential land so that more real estate tax revenue can be paid. Don't punish average Pittsburghers with these short sighted budget cuts. Fewer buses means more cars on the road which means more traffic, more noise pollution, and more money spent on road maintenance. Pittsburgh also brings in a lot of money every year with conventions, but if the city is noisier, more polluted, and less convenient to traverse, all inevitable outcomes of these changes, then the city will lose additional money. Won't you think of the furries? They just want to enjoy Anthrocon in peace.

Too many questions just let me ride the bus

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
The proposed reduction of public transit service outlined above is a huge disappointment. These changes to Pittsburgh, a city cherished by everyone as a livable and affordable city, would cause major economic damage that would erase decades of hard work since the collapse of the steel industry. Public transportation is vital for cities to remain on the economic forefront of the world, and Pittsburgh's attractiveness as a livable city would plunge.
The main bus lines that would directly impact me is the 91 and 93, right outside my doorstep. No service after 11PM is extremely concerning, considering the only other alternative would be to use rideshare apps, which drastically increase their prices late at night. I have been a resident of Pittsburgh my entire life and also a Pitt Student. The bus system is one of the most appealing aspects to being a Pitt student, allowing you to explore the city. Traveling to locations like Homestead, the airport, and other major areas are not affordable to travel to if you must rely on rideshare apps as your main alternative.
Communities like Lawrenceville, Shadyside, Squirrel Hill, and many others that have been re-vitalized after the collapse of the steel industry, would decline. Residents who chose these areas to live in and invest their resources into their community, sacrifice land and space to be in a walkable community with easy access to public transit. Communities that are still being re-vitalized would see a drastic decline in demand, with no public transit lines available to their local people.
Please consider re-evaluating these proposed changes.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
If 25 cents would help improve the system, that is a cost that is well-worth the money in my opinion. You also don't even have coin systems on buses to return change. So not sure why you haven't thought of this earlier.

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I do not own a personal vehicle and rely on public transit to get me to work, gigs (as a musician), and doctor's appointments. I've stopped biking as a means of transportation because it's too dangerous in this city. I've already turned down and lost jobs because I can't get to them reliably with the current transit schedule. I am currently underemployed both in amount of hours/wages and skill level because I've had to choose jobs that I can get to by bus. A reduction in routes would greatly impact my ability to secure a job in which I'm able to thrive.
Additionally, the current bus fare is much higher than other cities I've lived (with better service). Already it's a barrier to bus ridership. I often opt to walk an hour to get home from work rather than spend $2.75 to take the bus. An increase in fares and decrease in services shows total disregard for the well-being and humanity of those who support PRT and rely on PRT. We don't just ride the bus because it's fun or a commodity. Many of us do not own personal vehicles nor could we afford a vehicle if our route gets cut or limited. Quality public transit is a necessity for some of the most underserved communities and individuals in your community. It also provides a more sustainable commute during a climate crisis. I suggest finding private funding or raising fundraising campaigns if your government funding gets cut. Don't punish your riders, many of us who are in the lowest income class in the city.

My son does not drive. He works downtown and takes the 39 to and from. He also has a disability. I also work and am unable to transport him every day. It took him a lot of work and training to get this, his first full time job. He's been there 6 years. To eliminate the 39 would be disastrous. I also rely on the 39 for backup and won't be able to drive forever. There are also middle and high school students who take the bus to school. What happens to them?

Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to move to another home/dwelling where transit is available
Other comments (bus and rail service reductions):
I work second-shift and often need to use the busses after 11pm. I also worry that these changes may cut off my access to my job, which is in Lawrenceville. I live in Mt. Lebanon.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
It would make it harder for me to come home from school/work
Other comments (bus and rail service reductions):
This would make it much harder for me to get around Pittsburgh. It will take away a lot of my independence as a non-driver. One of the strongest reasons I chose to move to Pittsburgh was the transit system. This would not only impact my life outside of school, but it would make it much harder for me to stay late to complete my school work/research. In addition to effecting my school work and my job, it will also effect where I spend my money in PGH. It would limit my access to local businesses in the area, both because of the physical access to the stops, and the times which the bus service would be available.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
Since my school includes the bus pass, it would not effect me monetarily. However, I know other members of the community would be negatively effected, which makes me lean towards opposing the increases. Plus, I have a strong feeling my school would not want to pay the increase, even though I know they can financially. However, I understand that the fare increase is necessary to pay for the services. Personally, I am willing to have an increase in fare IF AND ONLY IF it means that the service is not cut.

I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
In the course of one year, Troy Hill (served currently by the 4, which is always busy during rush hour, and necessary for many of my neighbors during all hours of service) will go from having convenient and accessible transit service and access to multiple local public schools, to literally none of these things. Comparatively, I grew up in Mt. Oliver in the '9N/As, which -- despite issues of crime, etc. -- was well-served by transit, education, cultural locations, and retail. I didn't get a drivers' license until I was 18 or 19 years old, because by the time I was 11 or 12, I had access to everything I needed. It was safe, relatively quick, and unlocked a whole world beyond my neighborhood.
It was my hope that I would be able to provide my ten-year-old son with the same quality of life, and I was happy to land in Troy Hill for that reason. That essentially every amenity in this neighborhood has dwindled or died in the last few years, now combined with the prospect of having essentially no bus service ... It's absurd. Why did I buy a house here? How are many of my neighbors going to get to work, or get their groceries? The quality of life in this neighborhood will go from manageable to essentially unlivable at such a quick rate that I will just sell my house and move elsewhere, and I am far from the only person to feel this way. Troy Hill is a microcosm of what will happen all over the city (particularly the, as usual, massively underserved Northside, which is seeing far greater than its share of these potential cuts). Cutting transit hours and entire routes will absolutely continue and hasten the trend of the urban core being hollowed out. A complete disaster in all respects.

Other comments (bus and rail service reductions):
The proposal to cut all service by 11pm isn't practical. This is a city with a large student population, and many are still out after 11, especially on weekends. Many students also depend on the airport bus, 28X, to go to PIT. What's the point of having the bus if it isn't accessible in the city?

The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
The sharp reduction in routes and service will be an absolute detriment to Pittsburgh.
The first and largest issue is the cutting off of several communities within PGH. Many people will be unable to travel to their jobs, places of entertainment, grocery stores, and schools. Cutting service will also cause many businesses to close down, as many rely on their proximity to bus stops to generate revenue. This will not only create a pitfall in PRT's buget, but the budget for PGH as a whole. Many studies have shown that increasing walkability of a business area can increase their revenues. Just think, if you are driving someplace, do you ever pull over and stop because something in a store caught your eye? have you ever stopped while walking/biking? So many businesses are dependant on the walkability of the neighborhood they reside in. There have been countless times where I've stopped biking home on Butler street to pick up an ice cream, have a beer, or grab some food. Businesses rely on these types of stops to stay in business. By cutting bus services and killing walkability, you are killing businesses.
And to that point, I don't want to see this great city turn into a car-infested hellhole. Take a look at a satellite map of Toledo, Ohio. How much space is wasted on parking lots? How much more money could the city generate by removing these parking lots and building residential, commercial, or office space? Would the city look better without these parking lots? Take a look at downtown PGH. How many parking lots are there? Far fewer. The chief reason for this is because PGH has a decent public transit system, so fewer parking spaces are required. By allowing for alternatives to driving, PGH is far more dense, more beautiful, more profitable than other cities. Removing these alternatives will turn our beautiful downtown into Toledo. If these cuts in service go through, you might as well take your pick of the iconic skyscapers of PGH's skyline, and choose which ones to remove for parking lots.
Increasing the amount of cars on the road will not only waste more space on parking, but also cause more deaths within Pittsburgh. Driving is by far the most deadly form of travel, but most especially for people outside cars. How often do you hear about an accident involving a pedestrian on the local news? Every night there is likely a new story. And for many people in PGH, biking is their primary form of travel, myself included. Increasing the amount of cars on the road are even more dangerous for bikers, since we often are forced to share the road with cars. This is without even mentioning the detriment that cars have on air quality and global warming.
And to end with a bit of history: The Hill District was a thriving community of nearly 1N/AN/A,N/AN/AN/A residents by 196N/A, most of whom were black. The neighborhood was referred to as the “crossroads of the world” and was a must-visit place for jazz music. Redlined and deprived of much needed capital, the Lower hill would find itself classified as a slum by 196N/A. The city of Pittsburgh decided to capitalize on this opportunity with the construction of a new Civic Center complete with a new arena and highway access. The impact was profound: the area was now completely severed from its connection to downtown, as many as 8N/AN/AN/A residents were immediately displaced, the heart of the neighborhood became the grounds for the civic center, the community would lose its heart and soul due to the loss of many clubs which would host cultural events.In the decades that followed, housing stock would continue to deteriorate due to the lack of investment. Population continued to decline and many of the abandoned properties fell into complete disrepair. The neighborhood’s poverty became a breeding ground for crime. Today, the area is only home to around 1N/A,N/AN/AN/A residents, and many of the lots continue to lay abandoned.
Cars destroy neighborhoods. Buses link them together. Keep the buses, and keep PGH thriving.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would take less public transit trips
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
increasing fares will have the same effect as decreasing service. doing both is suicide for PRT. many people rely on public transit to get around, myself included. If I don't bike, I would be taking the bus upwards of twice a day. This equates to 3.5 extra dollars per week or an extra 182 dollars a year. I could do a lot with an extra 182 dollars a year. But for many people, 182 extra dollars a year is the difference between paying rent and not paying rent, the difference between having a meal today or not, the difference between getting medicine today or not. Buses don't generally serve rich suburbinites, they serve the people who don't have an alternative to driving. They serve the poor, the homeless, the elderly, and the disabled. This fare increase is a tax on them. The solution to the budget shortfall should not be to tax the poor, it should be to increase ridership. This can only be done by either expanding service or decreasing fares, which is the opposite of what is being suggested. Service should be expanded to outside of PGH to tap into rich suburban money. Fares should be reduced to increase demand. Buses should come more often to accomodate this demand. And most importantly, cars should be taken off the road. This can be done by removing parking, removing driving lanes, adding bus and bike lanes, and increasing sidewalk space. This will further spur demand for bus travel, helping to close the budget shortfall. Once again, doing both options is suicide for PRT, and would leave the most vulnerable in our community stranded.

Other comments (bus and rail fare increases):
Drivers need to stop letting people on the bus that are short money. I see all the time someone is short a $1 or or and they driver just lets them on along with kids. I get a pass weekly and one day it's expired and I get throw off the bus for not having the exact fare. Maybe the driver had something against women but it was completely unfair!
Please indicate if you oppose or support the proposed changes to ACCESS service:
OPPOSE the proposed service changes
Service change impacts (ACCESS)
None of these apply to me
Other comments (ACCESS service reductions):
People depend on access especially elderly. The elderly are already denied trips at 3pm because they need to pick up kids getting out of school. Access needs a different branch that deals with under 60 population.

Other comments (bus and rail service reductions):
This is not just for me - it's especially for the people who depend on public transit for their jobs. This will hit the disadvantaged and low-income earners the hardest.
This will be a MAJOR blow to life in Pittsburgh. Not just the hardship, but an increase in cars on the road, with traffic, accidents and pollution increasing.

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Regarding these and other reductions in service - especially the possibility of cutting all service after 11pm - I strongly oppose reductions that would impact the ability of shift workers and others to travel home or to work at night. I also rely on late-night service to avoid driving under the influence of alcohol when traveling to/from downtown and other parts of the city for entertainment. I think this is a really important need that public transit fills for safety of all drivers on Pittsburgh area roads.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My wife depends on bus service
Other comments (bus and rail service reductions):
My wife volunteers for the Pittsburgh Cultural Trust and is in downtown Pittsburgh working for various performances the Trust sponsors. I see that you are planning to discontinue the P71 and 71. It is the only reasonably speedy service we have into downtown Pittsburgh. Our bus service is spotty now but losing what little efficiency exists will be a real problem and I really don't want her stuck in town late at night after a performance or calling for an Uber.
My neighborhood is vibrant and it is a desirable location for home buyers. We contribute to the tax base. One reason people move into Regent Square, Swissvale, and Swisshelm Park is because they can get into downtown Pittsburgh for work easily with public transportation. Pittsburgh has marginal public transportation options as it is. If you make it even less convenient, your ridership will drop, your numbers will be worse, and you will kill incentive to live in some fine city neighborhoods. You will also contribute to the decline of our downtown and that will certainly drag the rest of the region down with it. Please reconsider.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My daughter depends on bus service to get to work
Other comments (bus and rail service reductions):
My daughter lives in Greenfield and works in downtown Pittsburgh. She currently rents but as a young professional, she is looking to buy her first home. Being originally from Greenfield, I suggested she look at properties there or even in Squirrel Hill or Swisshelm Park.

Now with the proposed bus route changes, I don't know if that will be practical for her. She currently takes the 58, 52L, 53L. Should she purchase a house in upper Greenfield, the 65 would work for her. I understand that ALL of these bus routes will be discontinued leaving her with a long ride (of 1 hour or more) on a circuitous route just to travel the 4 miles from Greenfield into downtown. I hope you realize that your plan will kill incentive to live in an affordable city neighborhood that appeals to young families.
Greenfield is vibrant and it is a desirable location for home buyers who contribute to the tax base. One reason people move into Greenfield is because they can get into downtown Pittsburgh or Oakland easily with public transportation. Pittsburgh has marginal public transportation options as it is. If you make it even less convenient, your ridership will drop, your numbers will be worse, and you will kill incentive to live in some fine city neighborhoods. Please reconsider.

Service change impacts (bus and rail):
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I believe we could reduce or eliminate bus routes to the suburbs, but the city and surrounding neighborhoods SHOULD have full access to bus/light rail. The light rail service is already abysmal, I can only imagine having less ...
The positives of living in a city are that you can count on public transportation to get you to and from places so you don't need to worry about driving/parking. Imagine not only the people who rely on the busses because they don't have a car, but now the people who will need to use their car to get downtown to work. That will cause so much extra traffic, reduce the amount of parking available, and deter even more people from coming downtown. If you choose to live in a suburb, chances are you already have a car and are the people currently driving downtown. But now making people drive from, say, Mt Washington to downtown instead of taking the bus...but still having a bus from Bridgeville or Monroeville... That's outrageous.

OPPOSE: 28X AIRPORT FLYER (Major Reduction), P12 HOLIDAY PARK FLYER (Elim.), P67 MONROEVILLE FLYER (Elim.),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to move to another home/dwelling where transit is available
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Living east of Pittsburgh makes travel into downtown challenging during peak rush hours. With construction on the squirrel hill tunnel, travel times are upwards of an hour and a half for me to go to work. The East bus way has flyer routes that can get me into work in an hour. Without the P12 or P67, it will significantly increase my commute time and cost me thousands of dollars a year to park downtown. I may need to move residences to keep my job or look for another job. Please do not cut P12 or P67. These buses are full of commuters and Pittsburghers just trying to make a living.

OPPOSE: O1 ROSS FLYER (Elim.), O5 THOMPSON RUN FLYER (Elim.), O12 MCKNIGHT FLYER (Elim.), P13 MOUNT ROYAL FLYER (Elim.),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Eliminating the O1, O12 , and O5 leaves those who commute to downtown Pittsburgh during rush hours with no alternative other than driving into downtown. Driving into downtown will result in more traffic meaning longer commute times and with high expenses for commuting to work between the price of parking and gas this could result in several thousand dollars a year just to commute to work. This leaves middle class employees without a quick and cost efficient way to get to their jobs in downtown Pittsburgh. It is unfair that the middle class workers would bear the brunt of these changes as the cuts don't are not as drastic for those who rely daily in the bus.
Please indicate if you oppose or support the proposed fare increases:

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
Reducing service or completely removing service from any area will impact those of us who RELY SOLELY on public transportation. Forcing PAYING patrons to figure out how to get to & from work, shopping, healthcare, child care. Raising rates is one thing, but doing away with transit routes would be devastating to a lot of people.
Also, as a daily rider, I see PRT construction zones. There's usually 7-1N/A people at the site, yet only 3-4 are actually doing any work. I see people being paid to stand around joking, on their phones, or sitting & watching others work. There's an area where you could save $$$.

The changes may not impact me but will impact my community and/or loved ones
Crowding on the buses I take for my commute will get worse
Other comments (bus and rail service reductions):
The two main buses I can take for my commute between Hazelwood and Downtown are the 56 and 57. The buses are already scheduled in a way that I may be able to catch one of two buses within 5-1N/A minutes of each other, and then have no buses for another 4N/A+ minutes. Decreasing the frequency will make this worse and make it harder to continue using the bus as my main mode of transport to and from work. Also, the 56 is already very crowded during peak commute times. Further reducing service to this route as proposed will only make that worse. My backup bus option, the 58, would be eliminated altogether, further limiting my commute options.
One of my coworkers commutes to Downtown from White Oak and has said that if her bus line gets cut, as proposed, she will have to buy a car or retire.
Please indicate if you oppose or support the proposed fare increases:

Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I am fortunate enough that where I live is fairly central and I have access to a reliable car, but this would severely impact my community. I work at a school where 9N/A% of our students and faculty rely on public transit. There are already so many barriers to receiving an education, and lack of access to safe and reliable transportation would be a huge barrier and detrimental to the education of several teens across the county that rely on PRT to get to and from school every day. PRT has already made so many cuts to bus lines and changed routes which limits already limited options, it would be a detriment to the community that it serves to make further cuts to the bus lines. So many people rely on that as their main form of transportation it would not only negatively impact people's access to education, income and their homes, but it would also impact the local economy! Pittsburgh is not always very walkable in many areas, and there are many small businesses that will also be impacted if people no longer can access transportation that takes them to those businesses.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Subject: Urgent Concern Regarding the Elimination of the 39-Brookline Bus
The proposed elimination of the 39-Brookline bus route would have a profoundly negative impact on the residents of the South Hills community and the City of Pittsburgh. This decision would create significant hardships—particularly for seniors, students, and the general population—many of whom rely on this route as their primary means of transportation for essential activities such as commuting to work, attending medical appointments, shopping, and participating in social engagements.
For a substantial portion of the community, public transportation is not merely a convenience but a necessity. Many individuals who depend on the 39-Brookline bus do not own a vehicle, cannot drive, or are otherwise unable to secure alternative transportation. Its removal would leave them without viable options for daily mobility.
As a regular public transit user, I rely on this bus to commute to work, just as many students depend on it to travel to school. Eliminating this critical route would disrupt lives, limit opportunities, and disproportionately affect those who are already vulnerable. I urge you to reconsider this decision and explore alternative solutions that maintain accessibility for our community.

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
I am so close to graduating from Pitt and needs my routes (P68, P69, 69 and P3) either stay the same or improve in reliability. I know other Pitt students who have to commute like I do in order to afford university. Alongside Pitt students are workers in Oakland, also including myself, who bring great economic benefits to our area.
Additionally, these route changes complete isolate the more rural areas of Pittsburgh even more from the city than they are already are. People will lose their only means of education and schooling if these routes are cut. I see hundreds of kids everyday on the busway in East Liberty waiting to board to go to school and greet the people they love. PRT is cutting off hundreds of communities, circles, and opportunities for our region.

I drive for ACCESS. Personally, the above "impacts" do not affect me. But refer to the Comments section for my perspective on funding / service reductions.
Other comments (ACCESS service reductions):
As stated, I'm an ACCESS driver for the past year. I became interested in the driver position when speaking with a fellow church member. As a retiree looking for PT employment, I applied. I completely enjoy the work. As I began to meet our various "clients" it became clear to me that this service is invaluable and taxpayer money well-spent. Or better stated well-invested! If our territory and/or service levels were reduced, it would be devastating to many, if not most, of our clients (>50%). The reasons being listed above in the "impacts" section. Our clients need our service for all the reasons listed. Retaining ACCESS is a critically important service for our county and the communities and neighborhoods. ACCESS provides access for people that need medical treatment to socialization at community centers to employment. We can't reduce their ability to ACCESS healthcare or a day out with other seniors that keeps them active physically and mentally. As for Fare Increases, I'm reluctant to support but can understand that some increase may be needed. It's the percentage increase that concerns me most. Considering a 14 -24% increase when most clients are on fixed incomes or low-income jobs will strain their budgets.
Please indicate if you oppose or support the proposed ACCESS fare increases:

Other comments (ACCESS fare increases):
I'm reluctant to support fare increases but can understand that some increase may be needed. It's the percentage increase that concerns me most. Considering a 14 -24% increase when most clients are on fixed incomes or low-income jobs will strain their budgets. Just consider the minimal increase (~3%) in Social Security benefit for 2025. This benefit increase does not kept pace with inflation and the Medicare cost increase negated that. I'd favor half of the proposed percentage increase along with no service area reductions.

Other comments (bus and rail service reductions):
If we want to have less people unemployed, we need to provide a way for them to get to work. If we want to be a greener city, we need to cut down on the amount of cars. If we want to reduce traffic, we need to provide alternative modes of travel. If we have any goals to make Pittsburgh a better place to be this would diminish all of that.
Please indicate if you oppose or support the proposed fare increases:

Other comments (bus and rail fare increases):
IF we increase the cost, there should be plans for people who are financially incapable. There are plenty of people who are above the poverty line to do this, but people who are taking the bus to go to jobs and cant afford it should have a smaller plan. They cant afford a bus pass without a job and may not be able to get a job without access to a bus.

Other comments (bus and rail service reductions):
What can be said - these proposed cuts are devastating. I have reached out to various politicians and hope a solution can be found. To potentially go backwards to a time when there is such a low level of public service infrastructure in Pittsburgh, is disastrous. I hope the funds become available because implementing these cuts is unthinkable.

I can likely absorb the increase but worry about the effect on others. Also, the more PRT raises its rates the less of a deal it becomes, compared to me driving my car.

Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I've had to rely on 69, P69 and P76 to get to and from work and night school between Forest Hills, Wilkinsburg busway, Oakland and downtown/uptown Pittsburgh. Without cuts, it was already difficult to get around due to limited frequency and occasional skipped runs.
I don't have evidence, but I always thought it would be better to split the route in two, with one remaining along the outskirts of the total route and the second remaining within the inner part of the route. I could be wrong, but hope that it was explored.
With the rapidly expanding capabilities of Generative Artificial Intelligence (GenAI), applying the services of an accomplished AI prompt engineer and an Enterprise license of an AI chatbot may help reveal other ways to achieve target cost-saving changes while reducing their impact on commuters and drivers.

I would no longer be able to access medical care locations
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Vital lines such as the 28X and the Commuter/ Flyer lines should not be eliminated from service. This will cause a disruption in our cities commerce as people can't get to work or the airport without driving a car and creating more traffic.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for transit or other essential expenses
I would take less public transit trips
I would have to switch to another mode of travel
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
I am completely OPPOSED to any form of zoned/ tiered fare system. I rode the bus when it was still operating under a zoned system, it made the ride more complicated, complicated the bus drivers job, and made the fare prices possibly higher depending on where you lived. The fare should be flat rate.

Other comments (bus and rail service reductions):
I think it would be a disservice to so many people that depend on public transportation to get to the job, doctor's appointment, to get to them grocery store, and so many other things for the community. Not everybody can afford a car or can drive for various reasons.
I personally am not going to be affected, but I have used public transport many times in order to get to go to school and get to work.

I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I live in Troy Hill. Please do not eliminate the #4 bus routes. For the sake of other communities, please do not eliminate other any other bus routes either. The #4 bus route is incredibly important for connecting our neighborhood to the rest of the city. Not having the #4 will make it difficult or impossible for myself and many people I know to get to work, grocery shop, and otherwise get around the city. Please do not eliminate any bus routes. It would have a terrible impact on many people.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would have to make decisions about whether to pay for transit or other essential expenses
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
I oppose fare increases, but I would rather fares increase instead of bus routes being eliminated. Far increases will make it more difficult for people to pay for transportation, which is an essential service, but eliminating bus routes would be even more impactful and far worse.

I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
We need more routes, not less. I'd love to be able to access Robinson, the airport, Oakland, and beyond by rail. The bus and rail services are such great assets for the region, especially from the South Hills. With these cuts, more people will be driving, and traffic and parking are already challenges as it is. We have a car, but regularly choose rail/bus service to travel downtown when schedules allow due to ease of travel and lessened environmental impact. These changes will be devastating for many people who do not have the travel flexibility that we do.

Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
As a longtime university employee who works with students, I'm concerned about the impact the many students who really heavily on public transit. As someone who does not own a car and uses public transit regularly, I'm concerned about possible impacts to whether overcrowded buses will become even worse in the Fall and Spring semesters. If PRT needs to try to renegotiate contracts with Pitt and CMU so that student/employee PRT access is appropriately funded, I would support that - though I know my employer may not.

Other comments (bus and rail service reductions):
I understand the budget issues and ridership issues regarding PRT, but cutting service will not help to restore ridership. More money must be found to maintain service (unfortunately, that includes fare increases); in the end, public transit is a form of infrastructure, similar to roads and bridges, and is necessary for many in our community.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
Oppose or support specific reductions.
OPPOSE: G3 MOON FLYER (Elim.),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Please reconsider the proposed cuts to the G3. As an express line, it is the only reasonable transit option for the many professionals in Moon Township who work downtown. We rely on having a direct route into the city to reach our jobs on time each morning, and the majority of us do not have alternative parking options under the new proposals. The next closest option would be the 21, which as a local bus would take significantly longer each way, to the extent that taking the bus would no longer be practical. We would much prefer some sort of coordinated merge with the 28X or G2 flyers than to lose our access entirely.
In addition, the proposal does not consider that the vast majority of federal employees have been mandated back to their offices by the end of April 2N/A25. I have noted a marked increase in the number of people waiting at the Moon University Blvd Park and Ride each morning, and to cut the G3 without fully understanding its necessity and potential would be a waste. PRT would lose some of its most consistent customers as a result.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
I support increased fares, but only in the context of maintaining service, especially for commuter lines and riders who rely on the bus for access to their jobs.

Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
Oppose or support specific reductions.
OPPOSE: 21 CORAOPOLIS (Major Reduction), G3 MOON FLYER (Elim.),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
Other comments (bus and rail service reductions):
I can take either the G3 or 21 to town. The 21 takes a little longer but drops me off at PPG Place. The proposed change would eliminate my one option and delay my transit with the additional time between buses. I think that if you eliminate the G3 you should make sure the 21 is available at a more regular bases, such as every 3N/A minutes all day. Not every hour during the day. I understand the fare change but if you are eliminating the express routes, why do you have to do both?
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
If you are eliminating so many routes, why do you also have to raise fares?
Other comments (bus and rail fare increases):
The fare increase would be acceptable to me, if the regular buses came on a more frequent basis.

I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to school, daycare, or childcare
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
Several family members use PRT and they do not have another way to get to work or school. This will impact several families. The PPS district also makes students 6th-12th to ride public transportation. How are these kids going to get to school?? The district provided them with bus passes. Now what's going to happen?? Families can't afford any other means... like from ride share companies. Many families don't have an actual vehicle to drive around.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for transit or other essential expenses
See comment below please about this
Other comments (bus and rail fare increases):
I oppose the rates because is and families can't affitd anymore then we are already paying. But if it comes down to raiding rates or cutting bus routes, I would be supporting the raises so the routes do not have to be cut.

Other comments (bus and rail service reductions):
Yo VIP, let's kick it
Ice, ice baby
Ice, ice baby
Alright stop, collaborate and listen
Ice is back with my brand new invention
Something grabs a hold of me tightly
Flow like a harpoon daily and nightly
Will it ever stop? Yo, I don't know
Turn off the lights, and I'll glow
To the extreme, I rock a mic like a vandal
Light up a stage and wax a chump like a candle
Dance, go rush to the speaker that booms
I'm killing your brain like a poisonous mushroom
Deadly, when I play a dope melody
Anything less than the best is a felony
Love it or leave it, you better gangway
You better hit bull's eye, the kid don't play
If there was a problem, yo, I'll solve it
Check out the hook while my DJ revolves it
Ice, ice baby
Vanilla Ice, ice baby
Vanilla Ice, ice baby
Vanilla Ice, ice baby
Vanilla
Now that the party is jumping
With the bass kicked in, and the Vegas are pumping
Quick to the point, to the point, no faking
Cooking MCs like a pound of bacon
Burning them, if you ain't quick and nimble
I go crazy when I hear a cymbal
And a hi-hat with a souped up tempo
I'm on a roll, it's time to go solo
Rollin' in my 5.N/A
With my rag-top down so my hair can blow
The girlies on standby, waving just to say "Hi"
"Did you stop?" No, I just drove by
Kept on, pursuing to the next stop
I busted a left, and I'm heading to the next block
The block was dead, yo
So I continued to A1A Beachfront Avenue
Girls were hot wearing less than bikinis
Rockman lovers driving Lamborghinis
Jealous, 'cause I'm out getting mine
Shay with a gauge, and Vanilla with a nine
Ready for the chumps on the wall
The chumps acting ill because they're full of eight ball
Gunshots rang out like a bell
I grabbed my nine, all I heard were shells
Falling on the concrete real fast
Jumped in my car, slammed on the gas
Bumper to bumper, the avenue's packed

I'm trying to get away before the jackers jack
Police on the scene, you know what I mean
They passed me up, confronted all the dope fiends
If there was a problem, yo, I'll solve it
Check out the hook while my DJ revolves it
Ice, ice baby
Vanilla Ice, ice baby
Vanilla Ice, ice baby
Vanilla Ice, ice baby
Vanilla
Take heed 'cause I'm a lyrical poet
Miami's on the scene, just in case you didn't know it
My town, that created all the bass sound
Enough to shake and kick holes in the ground
'Cause my style's like a chemical spill
Feasible rhymes that you can vision and feel
Conducted and formed, this is a hell of a concept
We make it hype, and you want to step
With this, Shay plays on the fade
Slice like a ninja, cut like a razor blade
So fast, other DJs say "Damn!"
If my rhyme was a drug, I'd sell it by the gram
Keep my composure, when it's time to get loose
Magnetized by the mic while I kick my juice
If there was a problem, yo, I'll solve it
Check out the hook while D-Shay revolves it
Ice, ice baby
Vanilla Ice, ice baby
Vanilla Ice, ice baby
Vanilla Ice, ice baby
Vanilla Ice
Yo man, let's get out of here
Word to your mother
Ice, ice baby, too cold
Ice, ice baby, too cold, too cold
Ice, ice baby, too cold, too cold
Ice, ice baby, too cold, too cold

Other comments (bus and rail fare increases):

Yo VIP, let's kick it
Ice, ice baby
Ice, ice baby
Alright stop, collaborate and listen
Ice is back with my brand new invention
Something grabs a hold of me tightly
Flow like a harpoon daily and nightly
Will it ever stop? Yo, I don't know
Turn off the lights, and I'll glow
To the extreme, I rock a mic like a vandal
Light up a stage and wax a chump like a candle
Dance, go rush to the speaker that booms
I'm killing your brain like a poisonous mushroom
Deadly, when I play a dope melody
Anything less than the best is a felony
Love it or leave it, you better gangway
You better hit bull's eye, the kid don't play
If there was a problem, yo, I'll solve it
Check out the hook while my DJ revolves it
Ice, ice baby
Vanilla Ice, ice baby
Vanilla Ice, ice baby

Vanilla Ice, ice baby
Vanilla
Now that the party is jumping
With the bass kicked in, and the Vegas are pumping
Quick to the point, to the point, no faking
Cooking MCs like a pound of bacon
Burning them, if you ain't quick and nimble
I go crazy when I hear a cymbal
And a hi-hat with a souped up tempo
I'm on a roll, it's time to go solo
Rollin' in my 5.0
With my rag-top down so my hair can blow
The girlies on standby, waving just to say "Hi"
"Did you stop?" No, I just drove by
Kept on, pursuing to the next stop
I busted a left, and I'm heading to the next block
The block was dead, yo
So I continued to A1A Beachfront Avenue
Girls were hot wearing less than bikinis
Rockman lovers driving Lamborghinis
Jealous, 'cause I'm out getting mine
Shay with a gauge, and Vanilla with a nine
Ready for the chumps on the wall
The chumps acting ill because they're full of eight ball
Gunshots rang out like a bell
I grabbed my nine, all I heard were shells
Falling on the concrete real fast
Jumped in my car, slammed on the gas
Bumper to bumper, the avenue's packed
I'm trying to get away before the jackers jack
Police on the scene, you know what I mean
They passed me up, confronted all the dope fiends
If there was a problem, yo, I'll solve it

How often do you typically ride Pittsburgh Regional Transit (PRT) and/or ACCESS?
4-5 days per week
Where do you travel using Pittsburgh Regional Transit (PRT) and/or ACCESS??

Home
Work or job training
School
Daycare or childcare
Medical care/appointments
Religious activities

How do you identify yourself? Select all that apply.
Black or African American

What is your age?
55-64

How would you describe your gender identity? Select all that apply.
Agender
Genderfluid
Genderqueer/Queer
Non-binary

Which of the following best describes your 2024 household income?
$25,000 to $49,999

Including yourself, how many people live in your household? More than 6

Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
A significant reason for why I moved to Pittsburgh and choose where I would live here is the availability of public transportation to work. It would be an inconvenience and huge disappointment to return to a car-based commute. And in an age of global warming, why back away from public transportation?
Please indicate if you oppose or support the proposed fare increases:

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares, ACCESS paratransit door-to-door service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
There is no logic behind making half of the city inaccessible for a huge portion of its population. Our geographic landscape doesn't allow walkablity all the time and the bike lanes are extremely dangerous. Please provide better infrastructure surrounding pedestrian and bicyclist safety before making those mode of transportation the only options for your citizens.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for transit or other essential expenses
I would take less public transit trips
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
It doesn't make sense for our city to have one of the highest rider fare for public transit ($3 after the budget repositioning) while simultaneously cutting routes and making it less accessible. Either keep all the routes and make the buses come more frequently and accurately or DO NOT INCREASE FARE.
Please indicate if you oppose or support the proposed changes to ACCESS service:

Oppose or support specific reductions.
OPPOSE: O1 ROSS FLYER (Elim.),
Service change impacts (bus and rail):
I would no longer be able to get to my current job, training location, or will have to find a new job
Other comments (bus and rail service reductions):
I leave very early in the morning and drive to the Perrysville Park N Ride to catch the N/A1. I have been taking this bus for at least 25 years. This is how I get to my job in downtown Pittsburgh. If this bus is eliminated I will not be able to go to work. I do not oppose a rate increase if it means they will not eliminate bus routes that are critical for people to get to their jobs.
Please indicate if you oppose or support the proposed fare increases:

Other comments (bus and rail service reductions):
Closing the Silver Line would greatly impact my family. My husband uses that line daily to get to and from work. We moved to our current house precisely because it has access to the Light Rail, and if that service were stopped, we would be forced to buy a car for him to use instead. This would be a financial burden but also an environmental burden.

Oppose or support specific reductions.
OPPOSE: 41 BOWER HILL (Elim.),
Service change impacts (bus and rail):
My travel time would greatly increase
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I take the bus to and from work each day. I am a paraprofessional, supporting special education student in the classroom. I can walk to work some days but the 35 minute walk would be unsafe in bad weather and would leave me late to work as I have 3 children of my own who need my morning guidance to get to school as well. We have one vehicle which my husband needs to take to work. Losing this bus route would be a great challenge to my employment and my daily life during the week. Thank you for hearing my concerns.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
There is no way to adjust for the loss of income than to find another source. Our country has changed to make to afford our choices. So a raise in the fares seems like a way to help that journey.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
Other comments (bus and rail service reductions):
While I don't ride many of the suburban routes, it's unconscionable that PRT would consider wholly eliminating service for greater Allegheny County. Many of these communities already only have one bus route to connect them to Downtown and the rest of the city.
For me personally, I will also be impacted by the changes to operating hours and service to the airport. It already takes me about an hour and a half to get to the airport using PRT, but that is far more affordable than a rideshare.
Cutting service at 11pm will force residents to pay extreme costs for ride shares after events or just getting home from the late shift.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
I would take less public transit trips
I would have to switch to another mode of travel
Other comments (bus and rail fare increases):
PRT already has some of the highest fares in the country, especially for a county our size and service level. Another $0.25 per ride might not be that much, but this will add up for riders.

None.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares, ACCESS paratransit door-to-door service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Individuals I serve would not be able to get to doctors appointments, work, school, grocery stores. It would impair their health, ability to live and function in an already difficult economy when they already face many challenges.
Other comments (bus and rail service reductions):
I think we need to figure something out. I don't believe employees should lose wages which can also happen with cut routes. I don't believe loss of access should occur bc we are doing damage to our communities. I am not sure what the answer is but we are a great community and if we come together we can make great change to support it.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):

Other comments (bus and rail fare increases):
I would support fare increases if it meant not cutting routes.
Please indicate if you oppose or support the proposed changes to ACCESS service:
OPPOSE the proposed service changes
Service change impacts (ACCESS)
The changes may not impact me but will impact my community and/or loved ones
Other comments (ACCESS service reductions):
This would severely impact the individuals I serve. They would not be able to get to doctors appointments and grocery stores and other places of need due to disabilities. I can understand limiting times but not service areas. This would severely impact individuals and care they need. Not everyone qualifies for medical assistance transportation nor has funds to pay for other means of transportation or has access to other means of transportation. They also do not have access and have been deemed not able to use the fixed bus routes due to their disability.
Please indicate if you oppose or support the proposed ACCESS fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (ACCESS):
N/A
Other comments (ACCESS fare increases):
If it means to continue to be able to provide services in all areas as we are now I would be in support of the rate increase.

Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
These service reductions will be detrimental to the most vulnerable in our community. Public transportation is the only way some people are able to get to their jobs, get to their medical appointments, or access the world around them. As someone that used to rely solely on public transportation, these cuts would have an immensely negative impact on my life.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would take less public transit trips
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
Combining cuts to services and a fare increase makes no sense. People should not be paying more for less efficient service.
Please indicate if you oppose or support the proposed changes to ACCESS service:
OPPOSE the proposed service changes
Service change impacts (ACCESS)
The changes may not impact me but will impact my community and/or loved ones
Other comments (ACCESS service reductions):
Cutting access to services for people with disabilities is utterly despicable. These individuals deserve the same access to the community as those without disabilities. This would make it even harder for them to get to work, the doctors, school, or their families.
Please indicate if you oppose or support the proposed ACCESS fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (ACCESS):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (ACCESS fare increases):
Once again, combining a service reduction and a fare increase makes absolutely no sense. If fares will increase, they should at least be providing MORE services and routes.

Woman
Which of the following best describes your 2024 household income?
$100,000 to $124,999
Including yourself, how many people live in your household? 1-2
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
Other comments (bus and rail service reductions):
Please do not cut the silver line. I've been at my job for 1N/A years and would have to seek new employment. There are several other I work will that would impact them being employed as well. There are also other jobs around the area that I know riders of the silver line use to get to work. This can really impact Bethel Park.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
I support a fare increase as long as the silver line is no eliminated.

Other comments (bus and rail service reductions):
If you want this city to maintain its growing nightlife entertainment industry, you need busses that run late enough to get its workers to amd from those jobs. An 11pm cutoff would murder the staffing options of a bunch of bars and restaurants.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would no longer be able to get to my current job, training location, or will have to find a new job
Other comments (bus and rail service reductions):
Traffic in Pittsburgh would become more congested, making life worse even for people who currently drive to work and don't rely on PRT. Parking would also become harder to come by as only drivers would be working downtown. All of this would drastically increase tailpipe emissions, making Pittsburgh's already poor air quality worse, leading to greater risk of illnesses and overloading our Healthcare system. Increased drivers also leads to increased demand for gas, which will inevitably raise gas prices, meaning Pittsburghers pay more at the pump.
Being able to use public transit allows people to make a fiscally responsible choice by not having to pay for a car payment, car insurance, gas, maintenance, and parking. This allows poor people to get to a job and wealthier people to save money by not having those expenses. Everyone can benefit from public transit.
Businesses would suffer from this terrible decision as well, especially small businesses in areas that have strong public transit currently. Without my ability to bus into the Strip District, I'd be less likely to go there for activities. And if the cuts continue to cripple service, Downtown would suffer as plenty of people reach downtown by PRT. Attempting to reach these areas without PRT moving large masses of people would scare people away from these areas because people, as a rule, hate Traffic and will avoid it when possible.
This attack on public transit also boils down to further attacks on lo socioeconomic populations. This would punish people who cannot afford a car or are forgoing a car so they can provide better for their families. Removing these lifelines from the masses would cause incredible economic damage to a population that, unfortunately, too many people look down on and deem undesirable. These riders are working; these riders are contributing to the economy; these riders are caring for their families; these riders deserve to not be abandoned.
Fully eliminating service is not how you get more people excited about public transit, or at least willing to use it. This will just lead into the idea that public transit is bad and we shouldn't bother with it, preventing new riders from trying it and finding that they actually like it. I love being able to hop on a bus and not have to worry about other drivers as I commute to work. It helps me prepare for my day at the start and relax when I return home.
Weakening public transit can also hurt potential tourism industry. I've taken trains and busses while traveling, so plenty of tourists can use PRT when they visit. Overreliance on Uber would make visiting more expensive and mean tourists aren't spending money on the fun stuff nearly as much.
PRT is an asset to the community and must be preserved

I would have to switch to another mode of travel
I would have to take ACCESS instead of fixed route service
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Cutting public transit is not a way to save money. It will abandon many constituents and community members from accessing their communities. it will generate less revenue for business and economy. people can't leave their house to shop, go to the doctor, get lunch, meet a friend, get to work....elderly, disabled, low income, families, etc will all be unable to access necessary businesses and establishments without public transit.
This is unreal!
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for transit or other essential expenses
I would take less public transit trips
I would have to switch to another mode of travel
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
So you're guna cut service AND jack up the price!?

Whoever made politics is the best scam of all time.

Show that u represent the needs of you fk constituents.....

or prove that you never cared in the first place because u got your pay check from our taxes and that all u care about.

Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Big businesses, in downtown especially, should be contributing to this effort. If their employees can't get to work, what's the next step? Fire them? Then what? Limiting access to employment and healthcare is bananas, but the people/entities with cash available won't do a damn thing to help.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would have to make decisions about whether to pay for transit or other essential expenses
I would take less public transit trips
I would have to switch to another mode of travel

Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
No service after 11pm dramatically and unfairly affects those who work in medical as well as luxury & entertainment fields (restaurants, hotels, etc). It compromises the ability of disabled folks to access care and social experiences after work. Personally, I am a night owl and often work late, then socialize after work. I would have to significantly limit my independence if this change goes into effect for the 71C.
Please indicate if you oppose or support the proposed fare increases:

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to school, daycare, or childcare
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Reduction of rail and bus service would severely limit the options for transportation of Allegheny County residents. This would drastically impact the greater community specifically limiting employment opportunities.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
PRT's bus fares are some of the highest already and paying for bus transportation is a barrier for many people who need basic access to work, school, medical appointments, benefits appointments, etc. The increased cost will make it difficult for individuals and families who reply on PRT to get where they need to go.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
One of the reasons that the PRT is strggling financially is because of the money that's being spent on rapid transit from Oakland to downtown. These changes should be stopped. I regularly go froom Oakland to Downtown, Shadyside Squirrel Hill & Bloomfield & thus far I have not had what I consider to be extensive wait times, but that will change w/ decreased service. Ridership, & thus income from bus fares, have decreased because of the cuts in service that have already been made. Any decrease in service or increase in fares especilly impacts the poor & seniors

Other comments (bus and rail service reductions):
Thousands of people use the commuter/express busses to commute to and from work on a daily basis. Pittsburgh already has notoriously bad traffic, think of how incredibly congested the roadways will become, virtually overnight, when bus service is cut. Not to mention the parking lots. Please do not cancel the express busses, especially the P1N/A Allegheny Valley flyer.

I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Having service once an hour is appalling. My bus the P78 only runs Monday through Friday to begin with. It sometimes doesn't show up at all and is overcrowded every day. As I have no car, this is my only Lena's of transportation to and from work, doctors appointments and other events. Having service once and hour makes it more difficult to do anything, and also extremely congested.

The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
While the increase in fares would have a negligible effect on me directly, I am concerned about how raising fares would decrease ridership overall and the adverse impact on the community. For example, loss of employment/educational/medical/social opportunities, increase in vehicle traffic (and, by extension, pollution, congestion, etc.).

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
The buses would be full by the time it made it to my stop, since only 1 would be left.
Other comments (bus and rail service reductions):
Cutting the South busway buses from 5 routes down to 1 that run the whole length of the busway and then cutting the frequency of the 1 bus left would not work. There would not be enough room on the buses to accommodate all of the people that ride the bus. By the time the 1 bus would make it to the busway itself it would be full and would bypass all of the people on the busway. This happens already on certain routes because a bus is filled. Luckily since other routes run a bus is available to get on. Eliminating the 39 and the 41 effects the people who do not have access to the busway and can't physically walk very far. Often times riding the buses there are people in wheelchairs, people who are blind, as well as ones that use walkers and canes. This would eliminate their ability to get around.

OPPOSE: 28X AIRPORT FLYER (Major Reduction), SV SILVER LINE LIGHT RAIL (Elim.),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
Other comments (bus and rail service reductions):
The failure of the state is only part of the problem. Alleghency county has mismanaged the public transportation service for years. the more you remove services especially LRT service you are forcing people to drive to a city that is unsafe and expensive. You will continue to lose ridership until you fix things internally. How much money was spend on rebranding to PRT. That was an unnecessary expense that would probably have fixed the issue. Charge fares within the city for the LRT. Only veterans and Seniors should get free rides. You keep charging higher rates and cutting service you are not solving the issue. You use two car trains and in the majority of spots you can not access the second car. Therefore you are piling people onto one car. There is also the issue of how many people can not pay due to technical malfunctions of boxes or from fraud. You cannot expect the drivers to be police also. I understand the fix to the silver line would be astronomical but why haven't you been keeping it up. Alot of people live on that line. At least provide a rail shuttle to the junction so that they can continue to use public transportation. fix yourselves and then maybe the state will give you more money. dont' use your customers as a bargaining tool. that's unfair to all of us.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Public transportation is an integral part of a city and a community. It helps provide access to many who would otherwise be limited in the ability to function and go about their day to day lives. Furthermore public transport is a key component to help reduce traffic because it can reduce the number of single person transport (i.e. cars) from being on the road.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would have to make decisions about whether to pay for transit or other essential expenses
I would take less public transit trips
I would have to switch to another mode of travel
Other comments (bus and rail fare increases):
I would consider being in support of the proposed fare increases if and only if the existing PRT options remained AND there was an increase in routes and stops. Otherwise fares should remain the same or decrease if the options available decrease

SUPPORT: 1 FREEPORT ROAD (Major Reduction),
Service change impacts (bus and rail):
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I currently have to drive 7 miles to Tarentum to board the P1N/A. It then takes about 45 minutes in the AM and about an hour in the PM for the return trip. This bus is mainly used by workers in the downtown area so eliminating this route would have an effect on workers coming to town. The 1 Route is an option, but not a very good option. The route itself is too long. A normal trip in the AM takes well over an hour and in the PM nearly 9N/A minutes.
There are routes that overlay with other routes and these should be taken a look at. Also, the routes themselves need to be reviewed. Too many people want door to door service and I have been on routes that leave a main road just to make a winding route on side roads before getting back on the main road. The P1N/A is example of this in Natrona Heights.
PRT also wants to spend millions on a route from Oakland at the same time they want to cut routes around Oakland.
Please indicate if you oppose or support the proposed fare increases:

Other comments (bus and rail service reductions):
Please please please don't make these service cuts!! This will drastically worsen the quality of life of all Pittsburghers. Many will be unable to get where they need to go, and everyone else will suffer from the additional traffic cause by people being forced to drive more.
I love living in the east end because there are so many bus lines and opportunities to get around the city, it would cripple this neighborhood to have access to bus lines cut.

My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
Other comments (bus and rail service reductions):
This change can also significantly impact my home value. The elimination of the Silver lines leaves much of my community with out any access to public transportation which makes it a less desireable place to live.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
If these changes were to go through, it would be very disruptive to my life. I would no longer have a way to get from my home to my job. I would also loose the availability to get to my church. In addition to myself, many others in my neighborhood, especially those without vehicles, would be negatively impacted.
Please indicate if you oppose or support the proposed fare increases:

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
There is no reason why we have terrible roads and then cut out public transport. There are thousands of civil engineers who will explain why public transport brings traffic congestion down and dozens of countries who already have incredible public infrastructure, China, South Korea, Japan, Germany, Iceland, to name a few.
The cuts would affect thousands and cause even more people to get into cars and clog the roadways, if we EXPANDED the T system and created better and more bus routes, these things would improve travel time and give the state or city more money to work with, instead of cutting lines and increasing prices.
You do not need a profit motive to give the public something that's useful to everyone, the city sidewalks and worse, suburb side walks (or lack there of for so many) are evidence of the state becoming car centric, which the vast majority of people in my life wish we could do without or at least have OPTIONS besides getting into a car.
Please indicate if you oppose or support the proposed fare increases:

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
I have watched bus routes from McKeesport disappear over the years. Neighborhood buses from Grandview area are gone, the only choice is to walk to Penn State Greater Allegheny over 1 mile and get the Lincoln Place bus. Also so much money was spend on the transit center in McKeesport, which could be used for additional transit buses as well as trains. SEPTA's system is amazing, even though Philadelphia is a larger city, we could still do something like that in Pittsburgh with the proper funding. People don't even want to take buses in Pittsburgh because it is too hard to even get to a bus stop near where they live. You would see ridership go up if you give access to the people. Uber is super expensive, however sometimes the only choice for people.

How often do you typically ride Pittsburgh Regional Transit (PRT) and/or ACCESS?
2-3 days per week
Where do you travel using Pittsburgh Regional Transit (PRT) and/or ACCESS??
Work or job training
How do you identify yourself? Select all that apply.
White
What is your age?
55-64
How would you describe your gender identity? Select all that apply.
Woman
Which of the following best describes your 2024 household income?
$50,000 to $74,999
Including yourself, how many people live in your household? 3-4
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I live in Avalon, PA and work in downtown Pittsburgh at the Federal Building. I use the 19L bus route, which is being propsed to be cut. Please keep the 19L. Using 16 as an alternative takes over an hour to and from home/work. As you may be aware, the Trump administration is forcing federal employees to return to the office on a full time basis, so cutting bus routes at a time when downtown federal workers are forced back into the office would be catastrophic since parking downtown is limited and expensive.
Please indicate if you oppose or support the proposed fare increases:

I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I currently take the O1 Ross Flyer and work at BNY. I own one car which my wife will use to run errands during the day so taking the car and parking is not an option that I can do regularly. We have been told that we are going to be required to come into the office more often and removing this route and forcing me to take the Perrysville Route 8 which will nearly triple my commuting time. I am considering a job change or possibly requesting to move to remote work but it may not get approved and I would lose my job
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
While I'm generally opposed to price increases in general, the 25 cent increase I feel is modest and taking a bus would still be a better financial option for me vs. driving and parking since there are very few lots that it costs less than 6 dollars a day to park in. I would even be in favor of a 50 cent increase if it meant saving the O1 Ross Flyer route

Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
The route elimination that would affect me the most is the elimination of Troy Hill 4. The removal of this route would completely isolate an entire community from public transit access. The next closest routes would require the rider to navigate steep, unsafe, and dilapidated hills, sidewalks, and stairs, none of which an elderly or disabled rider would be able to access.
Understanding the 4 is a low ridership bus, why not compromise and explore a minor reduction of service rather than elimination if required.
Please indicate if you oppose or support the proposed fare increases:

OPPOSE: 44 KNOXVILLE (Major Reduction),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
The 44 Knoxville is supposed to be totally eliminated and or severely cut down. I do understand that it is pretty empty late night and weekends but there are regular every day bus riders that depend on this route during rush hours on weekdays. There are also a lot of elderly people in Knoxville, Mount Oliver & Beltzhoover that depend daily on this bus and any cuts will severely effect their lives and independence. As the next possiable option would be 1-2 miles of walking to get to (the junction or 51C). PLEASE, PLEASE, PLEASE, do not adjust this route during it's most active times.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares, ACCESS paratransit door-to-door service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to school, daycare, or childcare
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
No service after 11 pm every day of the week would spell economic and safety concerns for people who need to get home late, either from shift work or from being out late for events and gatherings. Not everyone can afford to pay for rideshare services regularly like uber and Lyft. Having no other option due to bus and rail service reductions, it could force people to stay home or restrict the kinds of jobs they are able to hold.
Reduced bus and rail service would also increase the use of personal vehicles, exacerbating traffic and commute times, and accelerating the climate crisis for future generations to deal with. Public transit helps preserve the planet, our one true home.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would have to make decisions about whether to pay for transit or other essential expenses
I would take less public transit trips
I would have to switch to another mode of travel
Other comments (bus and rail fare increases):
When fare increases force people to make decisions between transportation and other essential expenses, it contributes negatively to stress and health.

Oppose or support specific reductions.
OPPOSE: 28X AIRPORT FLYER (Major Reduction), 65 SQUIRREL HILL (Elim.), 77 PENN HILLS (Major Reduction), P78 OAKMONT FLYER (Major Reduction),
Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to move to another home/dwelling where transit is available
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I fear that eliminating late night service for the arteries of the transit system (P1, etc) would have a very large negative impact on communities and persons who rely on the late night services such as industry workers, food service, etc. Decreased frequency of say the P78 may also increase commuting issues for people who transfer to other P-buses or need access more frequently. Overall, I think we'll see an increase in regional VMT and these will disproportionately impact the lower to moderate income households who rely on transit to reduce household expenses.
Please indicate if you oppose or support the proposed fare increases:

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
These service changes would make it very challenging for me to get to and from work. The reason I live where I do is because it is so convenient for me to get downtown, and to the surrounding areas via the busway. I understand that where I live would likely be facing substantially less of an impact than most other areas, but these cuts will be completely cutting off some of my coworkers from public transit as well. Without access to a frequent bus route, I will likely have to start driving downtown and paying for parking which would be an astronomic increase to my monthly transportation. Anything you can to do reduce these proposed cuts would be greatly appreciated.

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Taking one public transit bus off the road amounts to adding about 4N/A cars on the road, which further exacerbates the climate crisis and already heavily-trafficked roads, especially routes 88 and 51 which are the main routes leading from the south hills into the city. NO TO ALL SERVICE CUTS!!!

Which of the following best describes your 2024 household income?
$50,000 to $74,999
Including yourself, how many people live in your household? 1-2
Please tell us about any difficulties you had completing this form:
None

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
The proposed route changes would eliminate 3 out of 4 bus routes (4, 2, 7) that service within a mile radius of my neighborhood and significantly reduce the 4th (1). Three of those options are a last resort (much further walk) for me if my local route (4 does not fit my schedule. By eliminating my local route (4) and two additional alternatives, this change effectively takes away my access to public transportation, which I use several times every week to get to work. This would greatly impact me in terms of my schedule, financially if I need to change to driving into town and paying for parking, and presents a possibility where I need to contemplate a new job beginning next year.
Eliminating the (4) would impact students getting to school (PPS, Oakland Catholic, Universities), elderly getting to medical appointments and groceries stores, and adults going to work. I see the same people on the bus everyday and know that all of them rely on that bus being available. The Rialto steps are not accessible, so the remaining bus line (1) is not feasible for most riders.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
This is more expensive than New York City for significantly less service coverage. It is unacceptable.

OPPOSE: Y1 LARGE FLYER (Elim.),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Currently there are only 3 buses available (3 incoming and 3 outgoing) to downtown Pittsburgh and there are no Y46's available in the early hours of each weekday. Additionally, there are no other park and rides available to those of us who start our day at on the Y1 at the Large Park and Ride. What our are options? You are not leaving us with much.
Please indicate if you oppose or support the proposed fare increases:

Other comments (bus and rail service reductions):
Eliminating the Silver Line would be a catastrophic loss for the homeowners that have purchased homes along the line for the convenience of commuting to work on the T. This will not only cut us off from public transportation, but it will also drop our homes resale values.
Eliminate the Blue line and run the Silver line from Library to the North Shore while continuing to run the Red line from South Hills Village to the North Shore.

OPPOSE: SV SILVER LINE LIGHT RAIL (Elim.),
Service change impacts (bus and rail):
My travel time would greatly increase
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
This would impact me greatly. I ride the Silver Line all through my work week. It has already been reduced, which is understandable. I have built my living arrangement around the accessibility of the line. Raising the cost and reducing the frequency are all reasonable.
I don't understand as to how money can be spent on brand new F 25N/As with supervisors just sitting in the vehicles doing nothing. They are playing solitaire on their computers (pics to show proof if desired). Those supervisors are present at both Lytle and Washington Junction daily for extended periods of time. They never get out of their trucks. What are they being paid to do? The booth has been taken out of operation at Lytle (which makes sense), assuming in order to cut pay-roll. Although, the booths at Washington Junction are manned until late in the night which doesn't make sense, especially on non-event nights.
If the line is eliminated, could a possible shuttle run, a smaller vehicle to transport the daily riders? The parking is very limited at Washington Junction.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Public transit is a lifeline in our community, and we cannot afford to lose it. With the cost of living continuing to rise, cars and gas prices are rising with them and wages are not keeping up! Now more than ever, our community needs a strong connected public transit system. Public transit is a lifeline for so many to get to work the grocery store, school, and to visit friends and family.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would have to switch to another mode of travel
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
High fares have already forced myself and many to opt for personal vehicles or other modes of travel. This leads to increased traffic, congestion, parking limitations, and increased environmental impacts. We should be advocating for LOWER fares and MORE service lines and stops. For myself, that would allow me to utilize public transit and be more in touch with my community,

Other comments (bus and rail service reductions):
the N/A12 is a necessary route for people that live in the North Hills and work downtown. We do not have any other options since the N/A1 is also being eliminated. The only option would be the 12 and the running times for that bus is also going to be cut. Trying to merge the two buses together is going to cause crowding since the times are being cut to every 4N/A or 6N/Aminutes. This is going to be devastating cut.

Other comments (bus and rail service reductions):
The cutting of the flyers from the North Hills area is ridiculous. We have no other way to access town, other a driving where parking is way too expensive and there are not enough spots. We need those flyers as a way to cut down on fuel consumption and ease of access to downtown for work. We don't have a light rail system in this area and the HOV lane is only good for more than 2 riders, which means my travel time will increase substantially.

Other comments (bus and rail service reductions):
I currently use the Silverline trolley route and would like to see it not discontinued. This would add time to an already long commute and force me to most likely need to go to SHV where it would cost me additional to park in the garage which is not fair to cost me more for the same commute, as well as add time to my commute. The Silverline serves 2 large south hills communities of Bethel Park and South Park, and it also does not seem prudent to abandon all of the infrastructure built for the Silverline. With all of the recent construction, the Silverline has not been permitted to reach its potential as the usage was increasing just before the constant construction began.
As an alternative to eliminating the Silverline I would suggest either cutting back on non-peak service, continuing the shuttle service now being utilized, or combine with the redline and send the Silverline through Beechview (this would still eliminate one line route but still offer service to max number of people and continue coverage of all routes)

I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
It seems all routes to the eastern part of the Pittsburgh region are being eliminated except for a route that takes you from Monroeville through Wilkinsburg, Squirrel Hill and the like which is not feasible for people who work regular work hours anywhere from 7 am. to 3 or 4 p.m. to 8:3N/A a.m. to 5 p.m. They would either have to get up at 3 a.m. or not even get home until 7 p.m. and the buses would be overly crowded. Maybe you should eliminate some of the P1 routes that run every 5 minutes. You have already cut most of the service from the P12 route. My last comment, not directed to PRT is that people need to get over the pandemic. It is over and if downtown offices of the biggest employers got their people back to work in town there would be more ridership and money coming into PRT.

Too much of my tax dollars have already been paid into this system for you to make cuts.
Other comments (bus and rail service reductions):
How much money was wasted to change the name of something falls under the country to be far less inclusive in the name and discriminate everyone in the county that doesn't live in Pittsburgh? Those of us that live outside of Pittsburgh but still in the county do not want to be associated with Pittsburgh nor were we for changing the name let alone the millions spent to change the name. Keep the buses to the main roads and streetcar routes.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
These fairs seem extremely low for the service. I spend more than $27.00 a week in gas for my vehicle let alone insurance and maintenance and I definitely pay more than $106.50 in gas per month. Sounds more like it's an issue of not charging what you should for services and billing everyone that doesn't use it for the few that do.

OPPOSE: SV SILVER LINE LIGHT RAIL (Elim.), RD RED LINE LIGHT RAIL (Major Reduction),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Losing the Silver Line will have a terrible impact on my ability to get to work and on my community. I personally moved to South Park (about 1/4 mile from the Library T stop) in 2N/A23. One of my top 3 deciding factors for my home location was easy access to the T. I work downtown and used to live 4.5 miles away from my office. I opted for South Park since I would still have an easy commute downtown. A lot of people in South Park and Bethel Park rely on the T to get to their jobs and for other reasons. If the Silver Line is eliminated, I would hope PRT would send Blue Line cars to this side of the track and keep the Red line as is to ensure every stop is covered. It is not right to eliminate the Silver Line and leave everyone here without an option. PLEASE rethink this decision.

I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I work in the service industry as do many of my friends and comrades. Many of us don't have and can't afford cars. We can't afford to live in the neighborhoods that we work in, and bikes aren't viable year round with weather and the poor conditions of our roads. Many of us including myself work til 11pm or later and would have zero options to get home (other than expensive rideshares like Uber and Lyft) if service is cut past 11pm. We would lose our jobs and our livelihoods. Restaurants and nightlife would lose staff and close. This would devastate our lives and the local economy. This is such an atrocious proposal - you clearly haven't ever spoken to anyone who rides public transport in this city. It's already sparse and difficult to navigate and your proposal for change is to make it worse??? Shameful. Stop ballooning the police budget and fix our public transport and infrastructure!!! That's how you improve a city.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
If higher fares mean a bigger budget to improve services, then they are worth it. That is: as long as there are ways for low income and unhoused people to ride for free. 100% of the money from the fares should go to improving public transport. 0% should go to anything else - I know y'all love to shovel that money towards the police budget, but that is not what we need. We need better routes with more coverage and longer hours. Make better incentives for working at PRT so that you can hire more drivers, mechanics, and other staff to improve our anemic services.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
With all the difficulties affecting Pittsburghers from the national tragedy that is coming from DC, this is could be the start of the death of Pittsburgh's economy. I know people that will certainly lose their jobs because of this. These are people that have already been struggling greatly. Expect homelessness to rise and businesses to struggle. Please stand up for the people when no one else is.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares, ACCESS paratransit door-to-door service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
The proposed cuts have the potential to eliminate public transit service altogether, worsening living conditions for everyone in Allegheny County. These simultaneous route reductions and fare increases will lead to increased demand for the remaining lines and less efficient service, leading to fewer people depending on it for transit. In the short and long term, former transit commuters may turn to cars for commute (if they can afford car ownership and maintenance) and increase further demand, and traffic, on car-based infrastructure such as highways. This would increase travel times for those who already utilize roads and highways that do not share space with public transit.
The perceived inefficiency, loss of interest, and increased frustration may lead to additional cuts and could be a slippery slope to elimination of PRT and other forms of public transit in Pittsburgh and all of Allegheny County. If these trends actually encourage PRT to increase routes and service altogether, it will be considerably more difficult to reinstate or rebuild infrastructure for public transit (i.e. stops, signs, bus lanes, advertising, etc.).
I am heavily opposed to the proposed cuts, but I can see the potential value of increasing fares even permanently in order to meet the current financial deficit. Proposals by organizations such as Transit for All PA and Pittsburghers for Public Transit should be strongly considered in lieu of how much damage that can be done to life in Allegheny County.

My travel time would greatly increase
The changes may not impact me but will impact my community and/or loved ones
Other comments (ACCESS service reductions):
ACCESS is a necessary service to ensure that those with physical impediments can access other areas of Pittsburgh. Without it, engagement with society, governance, and life in Allegheny County will be intensely more difficult for them. It is better for our society that people of a variety of conditions, walks of life, backgrounds, socioeconomic circumstances, and other categories have a participatory role in said society. There is little good that can arise from cutting their service.
Please indicate if you oppose or support the proposed ACCESS fare increases:

Other comments (bus and rail service reductions):
The south hills area in particular is going to be hard hit by this - an area where the terrain really isn't great for walking. As a disabled individual, I'm lucky enough to have a car - though I take the LRT to go downtown for work. But if you want every individual to who will lose their routes to drive, traffic around here is going to be increasingly unbearable.

Eliminating the silver line will greatly impact the community that I live in. So many of my neighbors take the silver line into work daily. Whenever I go into town, I take the silver line so I don't have to drive down there and find parking. If the silver line gets taken away, so many cars are going to be driving into the city daily

SUPPORT all proposed service reductions
Service change impacts (bus and rail):
N/A
Other comments (bus and rail service reductions):
I support service reductions, mainly because I live in an area that has ZERO public transportation and about half the work force in this area needs transportation to get to their jobs. I lost my job last year due to not having transportation. If there was a bus system in this area I would probably still have a job and not have to rely on state services to help me get back on my feet. But in the entire 3 years I have lived in this state, not once has a bus system for pine richland township been discussed. Many people in this area walk to their jobs, and most times the weather is horrible. Who wants to walk, and get drenched by rain or covered in sweat, just to get to your job and have to do the same thing all over again. Just doesn't seem ideal at all for anyone except the consumers who have vehicles.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
Having a stable bus system throughout the state would be ideal for so many who aren't able to afford a vehicle or just aren't able to drive at all. There's are so many able bodied humans that want to work but are unable to because theres isn't a direct way to get to a job. So by increasing these rates and removing routes you're basically killing half of the workforce in your state just to cover a debt that doesn't even matter. Public transportation is a right granted by our state so we can help the economy grow.

Other comments (bus and rail service reductions):
Paint the busses, go to advertisers to paint the busses, paint the bus, buy new bus, paint the bus, buy new bus and on and on ... Never have contract negotiations that don't give the drivers everything they want... exactly what ruined the mills. Hire the worst accountants you can find. This is just part of the story of the mismanagement of money. There is no excuse. You get Federal aid, state aid, rider fares, casino money and my favorite the $5 fee collected on car registration that most of the public doesn't even know about. In Allegheny County there are over 85N/A,N/AN/AN/A cars registered so there's millions that just disappear. So all the car owners who don't ride the bus support you. I live in a neighborhood that has no bus service our seniors count on your over burdened Access. Workers, students and others must either walk 3 miles to a bus (up hill) or rely on Uber or family or friends for transportation. By the way it's a low income neighborhood where people could really use you. I don't want you to think we can afford Uber. Also, I rode the bus for 2N/A years when I lived in the city can someone tell me why you have the disgusting cloth seats. The piss and leaking bowel movements I had seen over the years makes people want to stand. Get metal seats that can be cleaned. Most routes can be hourly or rush hour services. Some could be morning, noon, late day and last call. Adjust your schedules appropriately. I've traced the world for millions of miles and since 1981 have thought that transit in Pittsburgh and the country as a whole is shameful.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
You'll just lose more riders and next year say you need more money. A lot of people I know are now paying people flat fees to drive them to work each week more people will join them.
Please indicate if you oppose or support the proposed changes to ACCESS service:
OPPOSE the proposed service changes
Service change impacts (ACCESS)
I won't be able to depend on a guaranteed ride
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel or rely on a family member or friend
The changes may not impact me but will impact my community and/or loved ones
Other comments (ACCESS service reductions):
Access needs to be on its own either privatized or separated from the PRT. All money for senior and disability should only go to them. And not to general transportation.
Please indicate if you oppose or support the proposed ACCESS fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (ACCESS):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for ACCESS or other essential expenses
I would have to switch to another mode of travel or rely on a family member or friend
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (ACCESS fare increases):
Seniors living on 900 to 1500 a month already just can't do it. And waiting hours for rides that sometimes don't even show up puts the health and well-being of individuals in jeopardy.
First Name: Kathy **Last Name:** N/A **Email Address:** grannykathy50@gmail.com
How often do you typically ride Pittsburgh Regional Transit (PRT) and/or ACCESS?
I do not use PRT services
Where do you travel using Pittsburgh Regional Transit (PRT) and/or ACCESS??
PRT is not available in my area otherwise I would use it.
How do you identify yourself? Select all that apply.
White
What is your age?
55-64
How would you describe your gender identity? Select all that apply.
Female (the question is gender not sexual orientation)
Which of the following best describes your 2024 household income?
$25,000 to $49,999
Including yourself, how many people live in your household? 1-2
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
the buses are already on an unreliable schedule as is, so making it even more unreliable will put my ability to work and have a life at jeopardy since it's my main mode of transportation
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases

I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I take the P76 I have taken this bus to work for over 24 years as someone who depends on this bus to get to my job in downtown Pittsburgh to provide a living for me and my family cutting this route will affect me dramatically. I would have a much higher expense to figure out ways to get to work and I have an amazing Job I love and this will make it harder to get there. The 25-cent fare hike I am willing to pay before losing this bus service I have come to depend on for all of my working life. I know many others on this same route that have rode the same amount of time as me or longer that will also be affected by this cut.

Service change impacts (bus and rail):
My travel time would greatly increase
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to take ACCESS instead of fixed route service
The changes may not impact me but will impact my community and/or loved ones
I live in subsidized housing and we are already having enough issues with the PRT systems and busses (of which there are few options for flexibility) not showing up, running late, being overly crowded, aggressive or dehumanizing interactions with bus drivers, and limited financial and economic freedom. Cuts to spending increased costs are going to cripple the working class and everyone below, will be crushed.

I would have to switch to another mode of travel or rely on a family member or friend
The changes may not impact me but will impact my community and/or loved ones
Other comments (ACCESS service reductions):
Reducing social service/ public services/ support networks now, in a time where the underserved are most vulnerable to executive order overreach, inflation is smothering low income families and people who rely on Medicaid/medicare, and reducing accessible transit, WHILE RAISING PROCES is probably the most predatory capitalist behavior I've seen from a Pittsburgh company in a while.

Also, when your bus drivers stop hitting pedestrians, getting busses stuck in stupid places, and you start to justify the price hikes you've already imposed, maybe then we can talk about demanding more from your consumers.
Please indicate if you oppose or support the proposed ACCESS fare increases:

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
None of these apply to me
Other comments (bus and rail service reductions):
While none of these changes impact me directly, I oppose these reductions. For the size of our city, our bus and rail service is already poor. I've lived here for 12 years and its never been ideal. These reductions will only make things worse for those who rely on public transportation; people who are often already vulnerable in our society and live with. high amounts of stress. Please consider finding another way forward that protects what services we do have and then work towards the goal of improving; not cutting.

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I have two ways to get to work. The quickest way is to ride the Y47 or Y49 from Rt 51 + Greenlee to South Bank T stop, then I get a Blue Line all the way to South Hills Village, which saves me so much time in long run. If those bus routes are cut, I would have to walk to E Garden Rd to catch the 51 bus, ride that all the way to Station Square to transfer to the T, then ride the Red or Blue Line to South Hills Village which will increase my travel time to anytime between a half hour to an hour. That's not even taking into account that if the changes are implemented, I would have to wait even longer for a Blue Line because the Red would only go to Castle Shannon and wouldn't be worth riding.

PRT already has one of the highest fare rates for public transit in the country. public transit is for the people. charging more on top of the elimination of routes feels like you're spitting in our faces.
Other comments (bus and rail fare increases):

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
we need expanded access to public transportation, not less! Connect the suburbs to the city more and we'd have fewer drunk drivers on the roads while supporting the bars and businesses in the city more. I want to go into the city without having to worry about parking or other driver's drinking and driving.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):

Service change impacts (bus and rail):
My travel time would greatly increase
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to school, daycare, or childcare
I would have to move to another home/dwelling where transit is available
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
The whole of Greenfield needs the 58 - not just half of it. Removing the Greenfield Ave stops makes it prohibitive for our side to access the bus at all, since it's a long and extremely hilly walk to the other side.

Bus and light rail service and fares, ACCESS paratransit door-to-door service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
PRT is already down to bare bones, and eliminating/cutting down more routes will make it impossible to traverse the city via PRT. We already have one of the least effective and most costly transportation services, and it needs major improvements. Eliminating routes will continue this trend
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for transit or other essential expenses
I would take less public transit trips
I would have to switch to another mode of travel
Other comments (bus and rail fare increases):
What are we paying more for?? The run times for the buses is every hour or so, you're short on drivers, and I am just confused as to why you need to hike prices up for a system that isn't working? Why do I have to pay more to compensate for the riders who are no longer able to ride due to constant cuts and gutting of a system that has been poorly set up?

I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
A cut this drastic will severely impact ridership and I fear will enter PRT into a death spiral of further cuts and further ridership reduction.
I want to rely less on my personal vehicle to get around the city and this will be a huge step in the wrong direction.

I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I strongly oppose the proposed reductions in PRT service. Public transportation is absolutely vital to maintaining the health of our community. It increases access to employment opportunities, health services, grocery stores, and community events. It encourages improved public health by limiting the amount of cars on the road at peak transit hours, helping to reduce harmful emissions and air pollution. It encourages equity among our community as it is an accessible transit option for those who do not have access to a car.
These are all things I care about - I want to see equitable access to city services and events and improved public health in my community. Cutting PRT services will do the opposite. As such, I am opposed to this measure, and encourage deliberation of an alternative.

OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
See below
Other comments (bus and rail fare increases):
You pay multiple maintenance workers overnight to clean buses. Many of them do 2-3 hours worth of work and then spend the remainder of their shift sleeping in their cars in your lot. Why not reduce that staff to work the whole time.

Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I utilize PRT because I do not want to and probably could not afford to purchase a car. These service cuts would be devastating to myself and others who don't want to or unable to have a car. A lot of our most vulnerable residents including seniors and marginalized residents will not be able to get to work, school, childcare, the grocery store, etc. We have experienced service cuts consistently and this could possibly break our residents (including myself) who rely on public transit. With the current presidential administration, people will already be struggling financially and this will worsen the situation. Additionally, buses such as the 48, 51, and 75 are already packed during peak hours and we face inconsistent and sometimes extensive wait times. Please do not reduce these routes. Please support people who are doing the right thing economically and environmentally by utilizing and supporting public transit. I would rather my money support transportation for all rather than wasteful highways. These cuts would devastate so many.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would take less public transit trips
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
It does not make sense to make people pay more for reduced service. We already pay fares at the same rate or more than much bigger cities. People struggle to pay the fare at the rate it is at now. Paying more for less would not sit right to me. At a time when people are already struggling financially, which will most likely get worse due to the actions of the current presidential administration, we cannot charge people more. How will we increase ridership by cutting service AND increasing fares?

Other comments (bus and rail service reductions):
Eliminating commuter bus routes, especially at a time when we are witnessing a return to office work, is a short-sighted decision that will only exacerbate the challenges we already face with our roadways. As congestion continues to increase, removing these essential routes will only contribute to gridlock and frustration for commuters.
Our roadways are already overwhelmed, and the situation is made worse by the closure of HOV lanes, which were designed to ease traffic and encourage carpooling. With fewer public transportation options available, more people will be forced to drive, leading to a significant rise in the number of cars on the road. This increase in vehicles not only contributes to further congestion but also heightens the demand for parking — a resource that is already stretched thin in many urban areas.
Rather than eliminating commuter bus routes, we should be looking at ways to enhance and expand public transportation options to help alleviate the strain on our roads, improve air quality, and create a more sustainable transportation network. The convenience, affordability, and environmental benefits that public transit offers are critical as we work towards a more efficient and less car-dependent future.
Cutting these routes is not just a poor decision for commuters — it's a step backward for the overall well-being of our community and our transportation infrastructure.

OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
Increasing Pittsburgh's transit fare to $3.00, matching New York City's rate, is a misguided decision. Pittsburgh's current fare of $2.75 is already above the national average, and with numerous service cuts and route eliminations, commuters are already facing reduced options. Raising fares while cutting service creates an unfair burden on residents, especially low-income individuals who rely on public transit the most.

New York City's fares are justified by its dense population and robust infrastructure, neither of which Pittsburgh has. Increasing fares here, without improving service, would simply place financial strain on riders without delivering the same level of service. Instead of hiking fares, Pittsburgh should focus on improving transit accessibility and reliability for all.

Other comments (bus and rail service reductions):
Service in my area was already substandard, but I observed numerous riders of transit daily - if all of them were to use individual vehicles our roadways would be even more congested, not to mention that reduction in standard of living associated with a car payment and upkeep. Many buildings and lots in the greentree area don't have sufficient parking to support the increased demand on cars. Cutting service to an already too car-centric burough is the exact opposite of the kind of actions we should be taking. Many of the outlying suburbs of pittsburgh have insufficient service to be practical primary modes of transit, reductions of service or elimination of routes will cause a death spiral of pittsburgh transit, and by extension, pittsburgh.

Woman
Which of the following best describes your 2024 household income?
$25,000 to $49,999
Including yourself, how many people live in your household? 3-4
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
The service cuts will be TERRIBLE for the local economy, considering that so many commuters will be affected. Many of us will likely have to find different jobs or grossly adjust our personal schedules, which may already be convoluted based on CURRENT bus schedules, let alone the proposed changes. As of right now, I have to take a bus at 1N/A:1N/A to get downtown for a 12pm work shift on a Sunday (riding the 87) and the proposed changes would certainly make that ride, as well as my daily rides during the week, more time consuming, less convenient, and in general much, much worse. I try to support PRT, and I am someone who does not drive due to medical issues, but these changes would severely impact my ability to continue to support your organization.

I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I ride the 39 multiple days every week, at various commuter times (6AM-9AM, 4PM-7PM). This bus is always at least half full, much more commonly so full that passengers are standing in the aisles. Teens use this bus to get to and from school, adults like myself use this bus to get to our jobs downtown, and seniors use this bus to get their shopping done independently. Cutting the service entirely would leave entire neighborhoods isolated and dramatically worsen traffic issues.
Please indicate if you oppose or support the proposed fare increases:

Service change impacts (bus and rail):
I would no longer be able to get to my current job, training location, or will have to find a new job
Other comments (bus and rail service reductions):
These changes are going to make it impossible for everyone that rides my bus (P69) to make it downtown for work because there is no other options nearby. People can't walk from Trafford to Wilmerding to catch the bus and a bunch of people are in their 6N/As barely getting by as it is to get downtown for work. Just on my bus alone 14 people would lose their jobs due to not being able to drive downtown or find another way. It's just depressing. Why even have any transit at all if this is how many cuts need to be made to stay afloat. Its bananas.

Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Silver Line is major link for people to get to work. I use to park at the end in Library till tunnel was closed. Without knowing the 1st day of changes the 1st 2 runs were not on the schedule. I know need tp to drive to Washington Junction. This doubles my drive time.... if in the winter the roads are bad I would have no choice to go in later so not to risk the extra drive time up & over 2 more hills.. would cost wear & tear on my car & more in gas.
I have a feeling once the tunnel project is done tou will make the library line a perement end at Washington Junction. I would be fine as long as a Blue Car comes right after in left the 5 minutes to replace that run to town
More than the people on the Silver line would be affected. Alot take the Silver Line on the main tra lock to town.

Other comments (bus and rail service reductions):
After all the work that's already been done on the T I'm shocked to see the termination of the silver line and the shortening of the red line. We usually ride from South Hills Village (weekends or special events - and one of us drives to CCAC Allegheny but planned to use the T as a backup) and I can imagine travel times will increase without red line option.
I am in absolute shock at the depth of the cuts to bus service though. We don't usually ride the bus and are in Bridgeville so apparently could still take the flyer downtown BUT I am so sad with how devastating these changes will be for those who depend on PRT as a sole form of transportation. I know times are exceptionally tough, but I urge PRT to find additional funding to lessen the size and scope of these cuts.

The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
The fare increase is small but poor people are already stretched so thin.

How often do you typically ride Pittsburgh Regional Transit (PRT) and/or ACCESS?
2-3 days per week
Where do you travel using Pittsburgh Regional Transit (PRT) and/or ACCESS??
Home
Work or job training
Social activities
How do you identify yourself? Select all that apply.
White
What is your age?
35-44
How would you describe your gender identity? Select all that apply.
Non-binary
Woman
Which of the following best describes your 2024 household income?
$50,000 to $74,999
Including yourself, how many people live in your household? 1-2
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
It will impact me and my community and loved ones, many different zip codes

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares, ACCESS paratransit door-to-door service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
These reductions in service would GREATLY impact the Pittsburgh community. Functioning, accessible public transit is imperative to the success of this city and those that live here. These changes would cause distress and chaos for many families and individuals. In addition, this would cause more car traffic decreasing the appeal of the city and contributing to delayed travel times, congestion downtown, and potential vehicular accidents. Not to mention, these proposed changes will spark major frustrations and outcries from your community members and they will not go unheard. People will be ANGRY and rightfully so. Public transit is a necessity that should be supported and increased, not stripped from the community.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
Again, this is the opposite direction we should be moving. We should be prioritizing affordable and accessible transit, not making it harder for those around us to use.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I work in the restaurant service industry and my shifts often end after 11:N/AN/APM. If the bus does not run after 11:N/AN/APM, my only options would be to ride my bike or an expensive ride service. Riding my bike would be an unsafe option as I work at a bar in the city and worry about reckless or drunk drivers late at night. Ride services like Uber and Lyft are not affordable in the long term.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would have to make decisions about whether to pay for transit or other essential expenses
I would have to switch to another mode of travel
Other comments (bus and rail fare increases):
Public transit is an essential service for much of Pittsburgh's workforce. Those who cannot afford cars likely will not be able to accommodate these price increases. Keeping the cost of public transit low allows for workers and students to navigate the city and get to where they need to go.

Oppose or support specific reductions.
OPPOSE: 14 OHIO VALLEY (Elim.), 19L EMSWORTH LIMITED (Elim.), 21 CORAOPOLIS (Major Reduction), G3 MOON FLYER (Elim.),
Service change impacts (bus and rail):
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
The route eliminations would devastate the northern parts of Allegheny County. You would leave vulnerable people who cannot drive with no access to school, medical appointments, jobs and leisure. In a world and economy that is already not for the working class we would leave a large population without a job and cause further decline.

I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
The Area I live in which is monroeville/ wilmerding and turtle creek and Pitcairn is in great need of this Bus service due to elderly riders and alot of the community who travel to downtown or Oakland for work or hospital visits or shopping along this route getting rid of the P69 i can understand, but doing so should open up more travel time for the 69 Trafford we already waiting long times for a bus 1hr or more to get back n forth we need the Trafford for those who work downtown late to be able to catch This bus without having to ride the P1 just to get to wilkinsburg to wait another hour or half our for the Trafford to go to wilmerding and surrounding areas this past winter was the worst Below Temps and waiting in wilkinsburg longer than 1hr or more for a bus is not acceptable service when your only coming from Trafford to wilkinsburg and back if I miss 1 bus I have to wait another 1and half hours for another bus just to get home not acceptable I get off work at 6 and don't get home till 9pm is unacceptable PRT has routes with buses back to back during peak hrs why can't we have buses during peak hours we don't live on the other side of monroeville and can't get to that side. Modified service on this route that's already Modified makes no sense how bout make it better a price hike I don't mind long as I can get home and to work with no problems and let's have these buses also show up on time for once schedule says bus is due at 2:N/AN/Apm but don't show up till 2:15 is crazy stand out in the cold as a elderly and see how it feels when it's 1N/A degrees and you gotta wait a 1hour and a half this service is already Modified how much modifications can you do have us wait 3hrs outside in the cold you wanna Modified service but buying new busses with them pretty blue lights and Wraps and etc how bout fix the busses you already have every year you guys ask for more money but give less service I bet up top ain't taking cuts on pay we need our service in the east monroeville Trafford Pitcairn wilmerding turtle creek cause alot of us work downtown and don't own cars and I refuse to catch a uber everyday so I hope from this yall understand how important our service is we don't need a decline in service we need more hours of service even if I can get a good time to catch a p1 then the 69 Trafford I'm ok but waiting a whole hr or more is bad and bad on those in our community who need to travel a half hour is to long to wait if I get to a p1 and get to wilkinsburg let's say 8pm I shouldn't be waiting till 9:45 for a Trafford bus and let's say I miss the 945pm bus next one ain't till 1N/A45pm with no other options to get home we need better times I almost froze waiting in wilkinsburg for a Trafford that was also late we were sitting in the cold for over a hour and a half

How often do you typically ride Pittsburgh Regional Transit (PRT) and/or ACCESS?
6+ days per week
Where do you travel using Pittsburgh Regional Transit (PRT) and/or ACCESS??
Home
Work or job training
Shopping
Medical care/appointments
Entertainment
Social activities
Religious activities
How do you identify yourself? Select all that apply.
Black or African American
What is your age?
45-54

How would you describe your gender identity? Select all that apply.
Man
Which of the following best describes your 2024 household income?
$25,000 to $49,999
Including yourself, how many people live in your household? 1-2
Please tell us about any difficulties you had completing this form:
None

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I am concerned about stopping service at 11pm. Subjecting residents of Pittsburgh to rely on car-based transit is a public safety issue because fatal car crashes disproportionately happen at night and increased car traffic effects already poor air quality.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would have to make decisions about whether to pay for transit or other essential expenses
I would take less public transit trips
I would have to switch to another mode of travel
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
It is deplorable that PRT is considering offering worse service for one of the highest fares in the country. Public transit is essential for livability in Pittsburgh.

I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
This is absolutely ridiculous. How are you going to cut an entire neighborhood (Brookline) off from their only method of getting downtown to their jobs? At the very least, don't cut the route entirely. Run it once or twice in the morning and once or twice during evening rush hour!

I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
* It seems as if all the changes were implemented, there will be plenty of options for people traveling between Downtown and Oakland but no way or limited ways to actually get to Downtown or Oakland from various neighborhoods.
* 28X major reductions - bad timing for this considering the 26 NFL draft coming to Pittsburgh. Also so bad for college students, of which there are plenty in Pittsburgh.
* 56, 53L, 52L - - so what are the options for people who don't drive in Munhall, Lincoln Place and Homeville?
* 58 - many homes are inhabited by older adults who don't drive and will have a difficult time walking down (and returning up) a hill to get to either Murray Avenue or the trestle. I'm almost 7N/A and walk all the time and even I have trouble walking a 1/2 mile down the hill in the wintertime to get to Murray Avenue.
* What about the 93 that isn't listed? Another bus used by many for local shopping.

I would have to switch to another mode of travel or rely on a family member or friend
The changes may not impact me but will impact my community and/or loved ones
Other comments (ACCESS service reductions):
The proposed reduction of 62% in paratranset services to an already incredibly underserved population of seniors and disabled individuals who rely daily on these services, some which are life saving is unconscionable! There must be a way to change this. There cuts will simply destroy many, many people's lives. It will drastically affect individuals, families, children in ways you seem either blissfully, willfully ignorant of or just uneducated about. Please exhaust every possible resource to fix this. I will be contacting legislators and the governor. Thank-you

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares, ACCESS paratransit door-to-door service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
I work with the refugee community. In my experience, 95% of them rely on the bus for work. Many depend on routes proposed to be cut. My partner would also have a longer commute to work at 6:30AM.
Other comments (bus and rail service reductions):
If my car were to be inoperable, I would not have a bus route to my job. I have to be in many areas of Allegheny county for work. This would make it nearly impossible. Rideshare apps are not a viable way to commute daily!
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
I support these small increases ONLY if it is required to keep the routes as they are. Pittsburgh public transit already is more expensive than most other cities.
Please indicate if you oppose or support the proposed changes to ACCESS service:
OPPOSE the proposed service changes
Service change impacts (ACCESS)
The changes may not impact me but will impact my community and/or loved ones
Other comments (ACCESS service reductions):
This decision is cruel and harms vulnerable Pittsburghers.
Please indicate if you oppose or support the proposed ACCESS fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (ACCESS):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (ACCESS fare increases):
ACCESS riders are on fixed incomes. It is deeply unethical to dismantle this system in any way.

$25,000 to $49,999
Including yourself, how many people live in your household? 1-2
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
N/A
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Gutting service and then charging more for extremely limited service is wrong on principle
Other comments (bus and rail fare increases):
Eliminating service entirely after 11pm will make me, and likely others, less likely to attend downtown events if the only option is to drive, park, and deal with the resulting congestion. This is not conducive to Pittsburgh's goal of revitalizing downtown. With the NFL draft coming to town, it will make it even more congested and inconvenient for those of us who live and work here without alternative travel to driving/parking available for the visitors.

I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
The proposed transit cuts will be devastating to our community. So many Pittsburghers rely on public transportation to commute to work and to access the amenities they need to support their daily lives. Some of the routes that are set to be eliminated are the only bus service some neighborhoods have (e.g. Y49). We have people living in already isolated suburbs that do not or cannot drive, and these cuts will severely impact their ability to find employment and provide for their families. People will lose their jobs because of these cuts, and businesses will lose workers. People will lose their ability to visit their loved ones in hospitals. Some families will not be able to buy groceries and make doctor's appointments without some form of assistance. People will not be able to get out of their residential neighborhoods and access areas where they can socialize with others. Not to mention, this change will cause even more car traffic, increase everyone's commute times, increase the number of car accidents, make already congested areas even harder to navigate, especially during rush hour.
I cannot stress enough how detrimental this change is going to be to our "most livable" city. This is nothing short of a slap in the face to all the hard-working Pittsburghers who rely on public transportation for their day-to-day lives. Public transportation is a lifeline of our community, and we cannot afford to lose it.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
I am fortunate to have a bus pass provided by the University of Pittsburgh. But the fare increases will be devastating to a lot of Pittsburghers who can barely afford the existing fare.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Closing the entire silver line will greatly impact myself and those in my community that do not want to or can't drive into the city. Personally, not having this line will make travel into the city for any need whether it be for entertainment, employment or for educational purposes will be a lot more difficult for myself and my spouse if the silver line closes. The burden of the line changes for both light rail and bus service will be felt by many of my friends and family that live closer to the city and use these services every day. Many of my friends and family use bus service to get to and from work and many of them work long hours in service jobs and healthcare that require them to catch the bus or trolley late in the day. These proposed cuts will affect them greatly. I hope that these proposed cuts do not go into effect, because it would be a tragedy for the greater Pittsburgh community.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would have to make decisions about whether to pay for transit or other essential expenses
I would take less public transit trips
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
I worry that increasing fares would negatively impact the most vulnerable individuals in our community and would make it impossible for them to be able to get to jobs and schools.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
Oppose or support specific reductions.
OPPOSE: G3 MOON FLYER (Elim.), G31 BRIDGEVILLE FLYER (Elim.), Y46 ELIZABETH FLYER (Major Reduction), Y47 CURRY FLYER (Elim.), SV SILVER LINE LIGHT RAIL (Elim.), RD RED LINE LIGHT RAIL (Major Reduction),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I specifically bought my house along the silver line so I would not need to get a car to drive downtown for work. If they would remove the silver line, I would need to buy a car to either drive to SHV, or downtown. With impending tariffs, the cost of buying new or used cars will skyrocket, and I will not be able to afford a new vehicle.
Please indicate if you oppose or support the proposed fare increases:

Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
These reductions would be absolutely catastrophic for Pittsburgh and the entire region if passed. Most people I know would be unable to get anywhere on-time, their options for where they could go in the area would be drastically reduced, and they would have to rely on others with cars such as myself for rides which would be a massive, unnecessary and cruel burden on us. This would plunge families into states of financial desperation beyond what they are already experiencing and permanently disrupt whole sectors of Allegheny County's economy. At a time when we need MORE funding for PRT and MORE accessible and efficient public transit, we cannot afford to have any disruptions to the system like these. Our state government MUST get the funds it needs or this will be a disaster.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
I would take less public transit trips

Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
None of these apply to me
This would negatively impact many of my co-workers and vulnerable people in my community.
Other comments (bus and rail service reductions):
The proposed cuts would leave at least three of my co-workers, one of which has been with the company for over a decade, without the ability to continue their employment there. Additionally, a large portion of the customer base relies on public transport to make it to the store and would have further negative effects for business over time.

Oppose or support specific reductions.
OPPOSE: 39 BROOKLINE (Elim.), SV SILVER LINE LIGHT RAIL (Elim.), RD RED LINE LIGHT RAIL (Major Reduction),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
If I understand the changes, there would be a "shuttle" to Potomac station for people in Brookline. However, it would mean taking much longer than the 1 and 2N/A minutes it already takes for me to go to work as I would have to walk another 15 minutes up and down hills to get to Brookline Blvd, and transfer twice. These kinds of changes are set to destroy public transit which may be great in the current political climate, but terrible for the people who have to live through it. Bike lanes, standing scooters, and one wheels are great for extremely young and agile people riding on relatively flat ground. That doesn't describe Brookline at all. At the same time, Cutting red line and sliver line reduces alternative lines and limits distances.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would have to make decisions about whether to pay for transit or other essential expenses
I would take less public transit trips
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
This new plan feels like giving up. Pittsburgh's character changes if people have to change where they live or have to depend solely on auto travel to get around. The Brookline community is a city community but without services, better to get out.

OPPOSE: 54 NORTH SIDE-OAKLAND-SOUTH SIDE (Major Reduction), 69 TRAFFORD (Major Reduction), P69 TRAFFORD FLYER (Elim.), P76 LINCOLN HWY FLYER (Elim.),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
With reduced service and fewer options I will rely on other people and/or ride shares to complete my commute, or get stuck waiting for buses. This will increase my cost of transportation and reduce my independence in navigating the city/county
Other comments (bus and rail service reductions):
I want to support public transit but I'm afraid these cuts will make commuting untenable and will force me to buy a car so I can get to work on time. As more cars are on the road, traffic conditions will worsen around the city.

I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I feel that alot of 'VERY BAD' decisions have been made at PRT:
Why did you have to spend more than $95N/A,N/AN/AN/A on electric buses (each) ?
From an article: "Sep 7, 2N/A22 — QUOTE Duquesne Light representative: Electric buses cost about 6N/A% more than their diesel counterparts, with the average cost of a 4N/A-foot electric bus being approximately $95N/A,N/AN/AN/A".
How many 4N/A foot electric buses did PRT purchase ? Again, more than one that's for sure.
Did the riders ask for that ? No we didn't.
Why are 4N/A foot buses necessary for the rural routes ? Couldn't PRT have purchased some type of smaller buses based on ridership ? Like the GO Westmoreland buses or S&S transit.
Not to mention the costs electrically to charge all those electric buses from the electric utility. Again, Duquesne Light. How much is PRT paying them to charge those enormous buses ?
Ridiculous wasted spending on PRT's part. Now we as riders have to suffer from that waste and the very bad decisions.
Put yourself in rider's positions. Those people that do not drive nor have a license and absolutely rely on PRT. To get to /from work, doctor appointments, pick up prescriptions, etc. Devastating for them.
Sell some of those electric buses and funnel the money back into keeping the routes for the riders.
Whoever is in charge of making those decisions should be fired. Or resign. Unreal.
That's the short story from me, but if I think of more comments I'll submit them.
Shame on PRT.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for transit or other essential expenses
I would take less public transit trips
Other comments (bus and rail fare increases):
Again, now the fare increases are going to pay for the very bad decisions that PRT has made. Expecting the common regular rider to bail you out. Nice job.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
People get picked for jury duty and rely on taking the bus to town. They have to be there by 8:30. If you cut service for the 56C, they wont be there on time or would have to leave extremely early having to wait outside as the court door don't open until 8:00 am
Other comments (bus and rail service reductions):
N/A
Please indicate if you oppose or support the proposed fare increases:

My travel time would greatly increase
I would no longer be able to get to school, daycare, or childcare
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
PPS students rely on PRT to get to and from school. There are no school buses for most students in PPS. Students who live in Brookline, like my children, and other neighborhoods in the South Hills where service would be eliminated will have no way to get to school.

This is a service that the city has agreed to provide
Other comments (bus and rail service reductions):
This is a service that the city has agreed to provide. By removing the service you are drastically changing the day-to-day expectations of thousands of people who are within Pittsburgh. While there has been an unexpected loss of funding, that loss is going to be felt by those who do not have the ability to access alternative means of transportation. This will prevent people from attending school or getting to their jobs on time. It is the civic responsibility of the Pittsburgh community to support those who are most likely to be hit hardest, not continue to subject them to the increased burden of the fiscal loss.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would take less public transit trips
I would have to switch to another mode of travel
Fares should be covered by the city through taxes
Other comments (bus and rail fare increases):
The precariousness that has been shown by the changes in federal funding proves that the city bus system should be fully funded by the City of Pittsburgh. Putting an increase of the fair will only affect those who are already be hit the hardest. The responsible move would be to transition the budget further into the city government, so that the cost of maintaining our wonderful bus system can be divided efficiently amongst the community.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares, ACCESS paratransit door-to-door service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to school, daycare, or childcare
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
I would have to take ACCESS instead of fixed route service
The changes may not impact me but will impact my community and/or loved ones
Would be drastic to my work life and everything else to get around with ease
Other comments (bus and rail service reductions):
Will definitely have to find new work as a current PRT employee. I rely heavily on the bus service to get and from work and the grocery store.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for transit or other essential expenses
I would take less public transit trips
I would have to switch to another mode of travel
The fare increases may not impact me but will impact my community and/or loved ones
You already have people who dont pay and drivers let them ride free. The paying customers deserve better not an increase to make them stress about how they will afford the cost.
Other comments (bus and rail fare increases):
Definitely will be stretching pockets and penny pitching
Might as well make the weekly pass $30 why stop at $27....
Please indicate if you oppose or support the proposed changes to ACCESS service:
OPPOSE the proposed service changes
Service change impacts (ACCESS)
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I won't be able to depend on a guaranteed ride
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to school, daycare, or childcare
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel or rely on a family member or friend
The changes may not impact me but will impact my community and/or loved ones
I know many people who rely heavily on this service including my mother. Cutting 62% of access will cripple the ADA community being they already have disability or limited mobility as is and the fact youre cutting a major chunk of their service. They want to be like normal people as much as possible and access gives them that chance. Why take that away from them?
Other comments (ACCESS service reductions):
N/A
Please indicate if you oppose or support the proposed ACCESS fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (ACCESS):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for ACCESS or other essential expenses
I would take less ACCESS trips
I would have to switch to another mode of travel or rely on a family member or friend
The fare increases may not impact me but will impact my community and/or loved ones
Way too much
Other comments (ACCESS fare increases):
ADA and senior citizens already on fixed incomes it's not like they can work OT to get more money. And the ADA individuals who work they work at places that dont make as much as others especially those with intellectual disabilities.
Youre cuts affect the entire county and surrounding areas as a whole. Trust me you wanted to increase ridership before especially after covid.... I promise you youll lose more ridership if you make these cuts and increase fare

I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Love the T and wish it was back in Brookline. Our closest station is Dormont, which we have to drive and park. I love the T for downtown as it allows my husband & I to have a few drinks and get around safely, as well as alleviates the cost of parking (allowing us to spend more in town).
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
Seems like the increase is reasonable considering skyrocketing inflation under the current federal administration - people need to make more to survive!

Which of the following best describes your 2024 household income?
$150,000+
Including yourself, how many people live in your household? 3-4
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would no longer be able to get to my current job, training location, or will have to find a new job
Other comments (bus and rail service reductions):
Eliminating the 39 would impact the Brookline community greatly. I started taking the 39 to my job last February and it is standing room only in the mornings- not sure how all those people would get to work in the mornings as well as the children that take the bus to magnet schools.
If frequency must be reduced, that is a much more reasonable solution that wouldn't leave people I. My community destitute and without travel to jobs, schools and essential services

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
Other comments (bus and rail service reductions):
Eliminating the 39 should just not happen. We are the second largest community in the city and we rely on these buses. For me to get to a trolley would be.a 35 minute walk with my health conditions I can't do.

I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Getting rid of the 39 Brookline bus is not only inconvenient, it is the only transportation for hundreds of Pittsburgh workers, elderly, and adolescents going to school downtown. It is an integral part of CITY transportation. Increase the price if you have to. Don't ELIMINATE entire bus lines.

None of these apply to me
Other comments (bus and rail service reductions):
Dear Pittsburgh Regional Transit Board Members,
Rather than slashing services and raising fares, I propose a bold cost-saving measure for long-term savings: close the Ross and Collier and Manchester Garages along with all downtown offices, and consolidate all operations into a new, modern facility in Moon Township. Building a centralized garage and headquarters in Moon Township could reduce overhead costs—such as maintenance, utilities, and rent—while streamlining operations. This move would eliminate the expense of maintaining multiple aging facilities and a costly downtown presence, freeing up funds to preserve routes and keep fares affordable. Though the upfront investment is significant, the long-term savings and efficiency gains could help stabilize PRT's budget without punishing riders.

Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to school, daycare, or childcare
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Eliminating the Route 39 bus would have significant repercussions on my community. This bus route has been an essential lifeline since my house was built around 1928, providing access to critical destinations such as medical care and workplaces. If the 39 was necessary then, it is even more vital now, as more people continue to move to the Brookline area. It has been a key factor in making the neighborhood accessible and convenient for residents including myself. One of the reasons we chose to buy our home just about 2 years ago was the availability of reliable public transportation.
Without the 39, many residents would face longer, more inconvenient commutes. While the T-Lines exists in Dormont, it is not within walking distance for me or my community—about a mile away—which is particularly challenging in the winter months. Additionally, if bus lines are eliminated, the T would become even more overcrowded and underserviced, making it an unreliable alternative. If I had to take the T, my commute would be at least 2N/A to 3N/A minutes longer—assuming I could even get a spot—bringing my total travel time to over an hour and a half each day.
I currently have the option of taking either the 39 or the 41 bus. The 39 is a direct service to my community, and I strongly believe it should be preserved. However, if it must be eliminated, I propose that the 41 be maintained, as it can still service my area. While the 41 would be less convenient than the 39, it is still a far better option than relying on the T.
If PRT continues to eliminate bus lines, more people will be forced to rely on motor vehicles, leading to increased traffic congestion and longer travel times for everyone. This will also have negative environmental consequences, as more cars on the road mean higher emissions and poorer air quality.
I would rather have fares increase to more than $3 than lose my bus line altogether. Public transportation is not just a convenience; it is a vital service that supports accessibility and the well-being of the community. Retaining adequate bus service is essential for ensuring reliable and equitable transportation options. Public transportation is one of the reasons Pittsburgh is such a great place to live, making the city more accessible and attractive to residents and visitors.

Other comments (bus and rail service reductions):
Low income residents heavily depend on public transportation to get back and forth without having other options. I'm especially curious how this works for kids who catch public transportation to attend school that do not offer school buses. Most Pittsburgh residents enjoy having access to events in the downtown and North Shore neighborhoods. Without access to public transportation many businesses will struggle.

How often do you typically ride Pittsburgh Regional Transit (PRT) and/or ACCESS?
4-5 days per week
Where do you travel using Pittsburgh Regional Transit (PRT) and/or ACCESS??
Home
Work or job training
School
Shopping
Medical care/appointments
Social activities
How do you identify yourself? Select all that apply.
Black or African American
What is your age?
45-54
How would you describe your gender identity? Select all that apply.
Woman
Which of the following best describes your 2024 household income?
$25,000 to $49,999
Including yourself, how many people live in your household? 5-6
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to school, daycare, or childcare
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
N/A
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would have to make decisions about whether to pay for transit or other essential expenses
I would take less public transit trips
The fare increases may not impact me but will impact my community and/or loved ones

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
This is very alarming to me. As a college student, I rely on PRT to get to key locations within Pittsburgh in an affordable and safe manner. One line that may be cut, the 28X, is heavily used by students like myself to access the airport, which is my main way to visit home during the school year. If this line were cut, I would have to transfer multiple times, drastically increasing travel time and inconvenience. I would likely stop using PRT in this situation and it would prevent me from utilizing the airport or visiting home as often. I also use the PRT daily for school and work, multiple times a week to access entertainment and shopping, anywhere I can't feasibly walk to. Line reductions would cut many people off from the city and have a strong negative impact on our local economy. I would likely have to resort to delivery services or paying for rideshare to get anywhere.
Please indicate if you oppose or support the proposed fare increases:

Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
PRT is so important for our elderly and low income community members to get around who may not have the income to adjust to fare increases. This change will heavily impact the people who need PRT the most.

Other comments (bus and rail service reductions):
Does a survey like this exist to enact change, or to funnel our rage into a container that you can shut? This is a working class town. This is not an Uber district. Kids are out late partying, what is the safest and cheapest option— a 2.75 bus fare (or free for some students) or a 2N/A dollar car? Or perhaps I'll just drive, get a free ride from someone who "just had one beer?" Do you sleep at night? Good for you. Many don't. Many work essential jobs, stay out late studying, populate the buses while our eyes bat closed after midnight. To cut night service is to cut out this vital part of our community, to force people already on the edge to then be stranded there. To cut night service is to abandon your working class, those that feed you, keep you clean and safe. To cut night service and full bus services is to overburden the high-traffic areas in our city with cars that don't need to be there, to create more congestion and more delays. People without cars then need to choose: move so I can keep my job? Move so I can get to the grocery store to feed my family? Sure, I could bike. But let me remind you of all those ghost bikes tied to poles in Oakland. Do you remember them? Do you think this city has invested enough in bike safety to deal with more bikers in our most congested areas? Do you think more cars and more bikers on the road, trying to share it, frustrated by the increasing traffic and decreasing options, bodes well for the safety of our community? If your mother ever worked a late shift or a night shift, I will tell you a few things. You won't eat breakfast. When you go to your friend's house and their mom makes pancakes, you stuff your face until you're sick. Your mom leaves right when you get home, so you try to figure out your own homework, stay up all night watching TV, and try to hear the door open before you fall asleep. And now, a city that was built on her work abandons her— she'd have to spend 3 hours of PA shit wage to pay for a car home. That's 3 hours she sacrificed, 3 hours she could've spent with her kid. I know some faceless AI will sort these comments and you will have some type of actuary decide what the "fiscally responsible" choice is. I know you don't really give a shit because you're worried about the bottom line. But let me tell you— it's not our job to take fault with this egregious act. It's your job to figure out how to make this work, to lobby for what funding you need, and to give a shit. If these are your customers, you're going to be losing a lot of them. People will find ways, however unsafe, to survive, because that's what people do here. You are nothing without the people you serve. I think it best you remember that.

Service change impacts (bus and rail):
I would have to move to another home/dwelling where transit is available
Other comments (bus and rail service reductions):
The P68 Braddock Hills is very important for this side of Wilkinsburg it will be the only bus we have once you eliminate the 69 Trafford. People will not be able to get to work or home.This bus has already had several changes that was not beneficial for the Public within the several years.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would have to make decisions about whether to pay for transit or other essential expenses
Other comments (bus and rail fare increases):
The bus fare is already costly. Whoever came up with the idea of no transfers should be fired this is costly to the Public because you don't have the Fare Machine throughout the city where the public can purchase the passes or load fare to ride. The fare for Public transportation is 1 of the highest in the nation, they keep raising the fare and eliminate service is CRAZY!!!
Please indicate if you oppose or support the proposed changes to ACCESS service:

Other comments (bus and rail service reductions):
Current service is already very bad. It is not enough to fund transit; car travel must also be disincentivized.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
The fare increases are just an inflation adjustment; barely even worth public comment. I know that fares do not cover the entire cost of service, but NO service cuts should occur in the name of artificially keeping fares at outdated levels. I would happily pay MORE if it could save some routes or improve service, but I don't know that the average rider would agree with me.

N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I do not have a car, can't afford a car and I rely on the bus to get downtown for work daily. I take the 67/69 to work as well as the 64 to West Penn Hospital or The Waterfront. The 61A,B,C&D are also within walking distance, as is the 74.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would have to make decisions about whether to pay for transit or other essential expenses
Other comments (bus and rail fare increases):
I barely make it to the end of the month on my salary as it is, and I pick and choose which bills to skip. It would be incredibly hard to pay more and receive less service with this proposal

Oppose or support specific reductions.
OPPOSE: 28X AIRPORT FLYER (Major Reduction), 39 BROOKLINE (Elim.), 40 MOUNT WASHINGTON (Elim.),
Service change impacts (bus and rail):
My travel time would greatly increase
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
These eliminations/reductions are unconscionable, particularly the proposal to COMPLETELY ELIMINATE the 39 Brookline bus. This is the ONLY bus that serves the 2nd largest neighborhood in Pittsburgh, a neighborhood that would otherwise be completely isolated and car-dependent to cross into the rest of the city. Comparatively, the largest neighborhood, Squirrel Hill, has several buses that serve it. Most people in Brookline rented our apartments or bought our houses with the expectation that a bus to downtown would be available, and taking away the bus will prevent me and my family members from getting to work and having access to events and shopping downtown. My sister rides the bus everyday to her job and back (she shares a car with her partner, who needs the car for work), making it a real hardship to not have access to public transportation. She currently rents and will likely have to move to a different neighborhood if she can no longer ride the bus, as even if she gets another car, parking downtown is expensive and impractical. Moving will cost her thousands of dollars, along with time/energy that she doesn't have to spare at this time. I bought my home with the plan on riding the bus to work in Oakland when my kids are older in order to save gas and help decrease pollution. Currently, my family rides the bus a few times a month to cultural activities downtown. We own a home and taking the bus away would make our neighborhood less desirable, which will mean lower property values and lower investment in the neighborhood among potential home owners. Furthermore, buses are important tools for young people (and others who do not drive), allowing them some independence, and their parents some reprieve from driving them everywhere. It is extremely unfair to eliminate the only bus available in this large neighborhood, while other large neighborhoods continue to have multiple buses available.

OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would take less public transit trips
I would have to switch to another mode of travel
Other comments (bus and rail fare increases):
We should be looking for other ways to fund transit, beyond rider fares. Transit benefits more than the people on the bus, but everyone using/ sharing the streets. Instead of requiring parking for new/ changed uses and buildings, we should have required transit investment. The Zoning dept looked into doing this a few years ago, with precedents from other cities, but the project was squashed.

Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Broadly speaking, I support cuts, if necessary to balance PRT's budget, firstly in areas where alternative routes exist, and secondly in areas with suitable pedestrian and bicycle access.
I oppose cuts which would eliminate access to public transit entirely in an area, notably in the South Hills where low density and a lack of pedestrian and bicycle infrastructure make public transportation the only viable alternative to driving. The high cost of operating routes outside of the city core is typically attributed to low demand, but measures of demand ignore the fact that poor coverage and connectivity between neighborhoods forces residents into alternative modes of transportation, suppressing latent demand.
I propose implementing immediate extensions to these lines wherever possible to connect them to T stops and to each other. The bus line redesign project draft includes such improvements, but given the threat of this funding crisis, measuring the improvement that better connections would yield in under-served areas is urgently needed. I posit that many of the lines targeted for elimination, including both bus and T lines, would be far more cost-effective to operate with interconnections, even if extensions require slightly higher intervals between trips.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
I strongly support raising fares, if necessary to balance PRT's budget, over service cuts in areas that lack alternative routes.

I would also support implementing fare enforcement initiatives, such as the fare enforcement plan that was cancelled in 2017.

Other comments (bus and rail service reductions):
When you eliminate my service I have no other option. Access is no option since you will only operate it parallel to active routes which you are eliminating. I suppose uber is an option. More to the point, you are gutting service doing this. You should do one of two things. One, just give up and shut down the entire operation. Two, why did you waste time and money coming up with all this.. it would have been far simpler you you to just make 35% cuts across the board. But you had $75N/AN/AN/AN/A to waste on a useless name change before and now whatever this study cost.... Along with the so called rapid bus to Oakland that literally will do nothing to improve service but will hurt other surface traffic. You would make service better if you would simply create feeder routes and make people transfer. Like you are going to do here with the airport 28x and stop it in Carnegie and put people on on other route. Why do all the routes have to go into town...where btw you waste half of the route time just getting in and getting out. On a historical note I notice you are going the exact same thing you did when PAT was first formed and you went about closing the trolley lines... you are specifically doing the same thing in the north side hills you did back in the early 6N/As closing those routes first. On another note... where is all the money that the turnpike ponies up for transit that made them raise tolls exorbitantly the past what 13 or 14 years?

OPPOSE: 39 BROOKLINE (Elim.), 40 MOUNT WASHINGTON (Elim.), 41 BOWER HILL (Elim.),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
As someone who doesn't take the 39 bus day-to-day, I can still say that the availability of reliable public transportation, especially the 39, was a major reason why we moved to Brookline and why we've chosen to stay in Pittsburgh. My wife relies on the 39 for her daily commute, and losing that service would leave us feeling stranded. We only have one vehicle, and we can't share it because we have similar work shifts and don't work in the same area. Public transportation is essential to our ability to get where we need to go, and if our community gets cut off, it would make daily life significantly more difficult for us and many others.
While I don't use the 39 bus regularly, I do rely on it for special events, like heading downtown or to Oakland, especially when parking is scarce or when we're enjoying some drinks. The 39 is a great alternative for us in those situations, and it's also a safe option for many in our community.

How often do you typically ride Pittsburgh Regional Transit (PRT) and/or ACCESS?
4-5 days per week
Where do you travel using Pittsburgh Regional Transit (PRT) and/or ACCESS??
Home
Work or job training
Shopping
Entertainment
Social activities
How do you identify yourself? Select all that apply.
Hispanic or Latino
What is your age?
25-34
How would you describe your gender identity? Select all that apply.
Man
Which of the following best describes your 2024 household income?
$25,000 to $49,999
Including yourself, how many people live in your household? 1-2
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
N/A

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
WHAT ARE PEOPLE SUPPOSED TO DO??
You propose to eliminate the 41 route. That is how I and hundreds of commuters get to work every day. In addition, numerous shift workers at Kane Hospital, St Clair Hospital, Asbury Heights, Concordia, and other residential and medical facilities along Bower Hill Road will be unable to get to work. Taking the T is not an option because the closest T stops (Mt Lebanon and Dormont) are 3.3 miles away from Bower Hill Road. How are staff supposed to work 8, 9, 1N/A hours a day and walk 6.6 miles round trip to the T? This is ridiculous!
BTW, there is NO all-day parking near the Dormont and Mt Lebanon T stops. So riders who live too far away from the T to walk are also screwed.
Naturally, the people your cuts hurt the most are people who cannot afford to buy a car and/or pay exorbitant parking fees. The poor always are the first and only people who suffer when clueless rich people decide their fate.
Instead of eliminating transit service to entire neighborhoods, why doesn't PRT address its enormous bureaucracy and bureaucrats' bloated salaries??
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
Other comments (bus and rail fare increases):
You cannot justify simultaneously cutting essential services while raising fares. Why would riders pay more for worse service??
